"The Child with the
SAVINGS ACCOUNT
Becomes the Thrifty Man"

A savings account is an ideal birthday gift for boy or girl. It fosters a sense of independence. It provides an incentive for thrift. It enables the child to save for the things he wants—and thus learn, through a small measure of temporary sacrifice, the relative value of possessions and of goals.

Quite Safe

At school one day the teacher asked a little boy why he had been away the day before.

"'Cause mother had the mumps an' I had to go an' fetch the doctor."

"But mumps is catching, Johnnie, and your mother may have given it to you."

"Oh, no, miss, that's all right. It's my step-mother, and she never gives me anything."

Some good "apple arithmetic" shows there will be only 156 apples per person this year, which is a far cry from the proverbial apple-a-day.

Rod and Gun Club Buys Pond Property

Announcement is made this week that the Andover Rod and Gun Club has completed plans for the purchase of the Vars Estate property and water rights at the Andover ponds. The purchase of this property has been made possible at a nominal sum through the cooperation of Kenneth and Wendell Vars, local sportsmen.

As soon as the incorporation of the club is completed, which is now being processed by Atty R. J. Sootheran, title to the property will be transferred to the club.

The primary purpose of the club in acquiring this property is to build a new dam at the present dam site, the old dam being in such condition that its further repair would be impractical.

Many Andover residents can remember the part the Andover ponds once played in the recreational and economic life of this community and state fish and game officials who have recently made a survey of the water and surroundings claim that it is one of the best natural spots for large mouth bass and bullheads in this area.

This is a big project for the local club to undertake but the club feels that a permanent set up at the ponds will be an assett to the entire community.

Plans for the building of the dam will be published in the near future.

First Induction Call for County Sept. 27

Allegany County Draft Board No 71 has received its first call for the induction of draftees at Buffalo on September 27. The call is for 15 men who will be sworn into the army that day at the main army recruiting station in the Old Customs Building in Buffalo.

The 15 men will come from a group of 18 who passed their pre-induction physical examinations at Buffalo on Aug. 28.

The local board also has a call for 47 men to be sent to Buffalo next Monday, Sept. 18, for their pre-induction physicals.

Special Firemen's Meeting Friday Night

A special meeting of the Andover Fire Department will be held this Friday evening at 8 p. m., to discuss the fire prevention drive.

Andover Firemen To Display Fire Fighting Devices

Probably the best device for home fire protection was invented, but never perfected, by the late Colonel Stoopnagle of radio fame. It was called the "Bell-Ago." On discovering a fire, the householder pushed a button on this astounding invention and a bell sounded in the fire hall ten minutes ago.

Your fire department sincerely regrets that all attempts to secure this invention for Andover have failed.—But, the department is preparing to do the next best thing. This is, of course, having equipment suitable for fire fighting in your own home.

Beginning Saturday, September 16th, the firemen will offer to each household in Andover and vicinity devices which will give fire protection in any emergency. They are designed, for the first time, to blend with house furnishings to be instantly available when needed, and will be available in models to fit any budget. Unlike many other types, they are useful on all types of fire, are non-poisonous, harmless to fabrics or food and leave no mess to be cleaned up after the fire is out. Units for auto protection offering the double duty of emergency tire inflation will also be available.

These fire-fighters will be on display during the campaign in the window of the Niagara Electron Laboratories on Main street.

We know you will welcome the opportunity to purchase this most sensible protection from the firemen who will call at your home within the next two weeks.

The fire company will profit as money earned will go toward company maintenance and equipment. More important, however, you will profit in the very possible prevention of just one fire in your home.

Remember, fire is costly. Fire is deadly!

Check Your License

Albany, September 13,—When does your driving license expire?

If you have an operator's license, there's a chance it may expire September 30.

Motor Vehicle Commissioner Clifford J. Fletcher suggests you take a look at the termination date on your license, because thousands of operator licenses are invalid after the end of this month.

Renewal applications are now being accepted at all motor vehicle issuing offices, including most county clerks' offices.

Don't Overlook New Social Security Law

If you're a Social Security beneficiary under 75 years of age and entitled to receive the monthly old-age or survivors insurance checks you may now earn as much as fifty dollars in a month in employment "covered" by the Social Security Act without surrendering your right to that month's payment.

If you are a beneficiary 75 years of age or older you may now earn whatever the job pays each month, regardless of the amount, without giving up your Social Security check for the months you work.

Social Security beneficiaries whose monthly payments had been suspended under the earlier legislation because of their entrance into jobs "covered" by the Social Security Act for earnings of more than $14.99 in a month, should arrange to get in touch with their resident Social Security office if their earnings are fifty dollars or less a month or if they are 75 years of age or older.

Keep on buying Savings Bonds.
