## Allegany Mental Health Committee Elects New Officers

At their recent meeting, the Mental Health Committee of Allegany county, which is affiliated with the New York State Department of Mental Hygiene, elected officers for 1951.

Succeeding Dr. Roland Warren of Alfred University as president is Alden T. Stuart of Wellsville, superintendent of Wellsville Central Schools. Vice president is William Bacon, librarian of the David A. Howe library; Mrs. E. W. Briggs is treasurer, and Mrs. Catherine C. Manis of Belmont continues as secretary.

Latest activity of the Mental Health Committee is the distribution of nearly 200 copies of Chic Young's special edition of the "Blondie" comic book, sponsored by the State Department of Mental Health, to registrants at the Mental Health Institute held in Wellsville last fall. By arrangement with the Howe library, additional free copies will be made available as long as a limited supply lasts, to anyone who cares to get one in the reference room.

The Allegany County Mental Health Committee meets monthly, and invites interested citizens to learn more of its work by getting in touch with the secretary, at 44 Schuyler street, in Belmont.

## County Nurses Urged to Take Atomic Course

The David Howe Library in Wellsville will be the meeting place for members of the nursing profession in Allegany County at 9:00 a. m. on February 8 and again on February 15.

On these two dates, nurses of the county will take an intensive six-hour graduate course in the treatment of atomic fractures, wounds and burns. The course will include films, lectures and demonstrations, all presented by specially trained nurse instructors and doctors.

The program is under the sponsorship of the New York State Nurses Association, New York State League of Nursing Education and the New York State Department of Health.

Irwin Felson, M. D., County Director of Medical Defense, in announcing the program said, "I am sure that every Allegany County nurse, registered professional or licensed practical, will avail herself of this opportunity to prepare herself for the treatment of victims of atomic disaster. We urge 100 per cent attendance of all nurses at the sessions."

Dr. Felson also said, "We sincerely hope that the people of Allegany County will fully appreciate that their nurses are giving of their time to obtain specialized postgraduate training, in order to be able to offer the best possible nursing care if an atomic attack should come."

Persons employing either registered or practical nurses are asked to excuse them from duty, if it is at all possible, from 9:00 a. m. to 12 o'clock on one or the other of the two dates set for the training courses.

Dr. Felson said "Atomic Day" for the nursing profession in Allegany County promisses to be a day of intensive postgraduate education. The entire program is in the public interest, and it is urged that the public do everything possible to clear the way for every nurse in the county to attend one or the other of the complete sessions."

Roast pork dinner, 5:30 Tuesday at Presbyterian church.

## New Diesels For Main Line of the Erie Railroad

Cleveland, Jan. 19—New York to Chicago passenger trains on the Erie railroad will sport a "new look" within the next month when an entire new fleet of diesel-electric locomotives is delivered. Paul W. Johnston, president, announced today. The first two of an order for 16 have already been received.

The new locomotives are the last word in diesel-electric units manufactured by General Motors Corp. Two units, each of 2,250-horsepower, will be used instead of the three 1,500-horsepower units now on the New York to Chicago run.

The increased length gives the diesels a "racy" appearance because of their new design and color scheme. As a departure from the usual black and yellow color scheme, the new diesels will be dark green, matching the train coaches, with a gray-green panel along the side.

They will have a new sound as well as a "new look." Instead of the present monotone blast, the new locomotives will be equipped with three-tone musical sounding horns, it was explained.

The diesel units will continue the latest type equipment for heating the passenger coaches at a uniform temperature in the coldest weather. The heating equipment will provide for continuous circulation of steam.

Each locomotive cab will be equipped with radio transmitting and receiving equipment in order for train crews to maintain constant contact with wayside stations and dispatchers' offices through the Erie's four-way radio-telephone communications system which covers the entire main line.

## Harry Craig Honored At Dinner

Harry Craig, superintendent of Allegany county highways for the past 40 years, was honored at a testimonial dinner meeting of county and town officials at the Wellsville Country Club last Thursday at which time Mr. Craig was presented a large television set.

Assemblyman William H. MacKenzie was toastmaster of the occasion and county highway superintendents from Cattaraugus, Steuben and Wyoming counties were among the guest speakers.

Mr. Craig has faithfully served the county down through the years and is retiring because he has reached the state age limit. He will continue to assist the county highway department in an advisory capacity.
