## Rod & Gun Club Makes Recommendations on Open Seasons

The Andover Rod & Gun Club made the following recommendations to the Federation in regard to open seasons on game in this area at its regular meeting held Friday night at the Grange Hall.

Recommended a closed season on muskrats for three to five years.

Voted in favor of leaving the length of the deer season as is.

Voted not to support a pheasant program until something is done about the surplus of foxes.

Voted to urge the Pederation to join other clubs in obtaining a state bounty on foxes.

These are all debatable subjects which are paramount in the minds of local sportsmen and President Mulholland urges all sportsman to join the club and express their views as that is the only way to get action on these problems.

In a survey of the fish life in Andover ponds made recently by the Department of Biology at Alfred University the club received the following list of fish found in the ponds: white sucker, common shiner, golden shiner, bullheads, yellow perch, pumpkinseed, smallmouth black bass and largemouth black bass.

## Letter to Editor

Andover, N. Y.,
February 14, 1951

To the Editor:

As a taxpayer in the community, I wonder if there would be space in your paper for this letter.

I understand Andover Central School has a very high rating as a school. During the past year or two several graduates have either been in my home or have written letters to me. It is alarming that high school graduates know so little about the English language. I have often heard such expressions as "hain't got no" and in letters they write they do not understand the correct usage of "to, too." They also do not capitalize letters at the beginning of sentences. When I was in school, we were instructed how to speak and write such expressions correctly in the seventh grade.
