Wood Chipper to be Demonstrated Mar. 12

The Allegany County Soil Conservation District board and the Allegany County Reforestation committee have recently purchased a wood chipper for demonstration and for rental to farmers to provide for the complete use of all forest products. This machine, which is mounted on the front of a Farmall M tractor, is capable of chipping pole wood to six inches in diameter and slab wood 10 inches wide and 5 inches thick, as well as limb wood under 6 inches in diameter.

The machine has many uses in Allegany county in providing for bedding material, which is usually short on many farms, and for disposal of trimmings in orchards, vineyards and brush cuttings from hedgerows and alongside the road. The material is used in many cases for mulch and can be provided from the materials on hand on the farm at a very low rate.

There will be a seriesof demonstrations on the use of this machine this summer the first will be for the joint directors of the Allegany and Steuben County Soil Conservation Districts along with the Allegany County Reforestation Committee at the Soil Conservation District Shop across from the Erie station in Belmont on March 12 at 1:30.

(With Apologies to Abe)

One score and sixteen years ago, our fathers brought forth upon this nation a new tax, conceived in desperation and dedicated to the proposition that all men are fair game.

Now we are engaged in a great mass of calculating, testing whether that taxpayer or any taxpayer so confused and so impoverished can long endure. We are met on Form 1040. We have come to dedicate a large portion of our income to a final resting place with those men who here spend their lives that they may spend our money.

It is altogether anguish and torture that we should do this. But, in the legal sense we cannot evade, we cannot cheat, we cannot underestimate this tax. The collectors, clever and sly, who check us here, go far beyond our power to add or subtract.

Our creditors will little note nor long remember what we pay here, but the Bureau of Internal Revenue can never forget what we report here. It is rather for us, the living, to be dedicated to the great task remaining before us—that from these vanished dollars we take increased devotion to the few remaining, that we here highly resolve that next year will not find us in a higher income bracket.
