Don't Hang-up So Quick

It has been brought to our attention that in a number of cases people calling on the dial phone hang-up just as the one called answeres the phone.

In talking to people generally we find that many have the impression that the phone will only ring four times and then automatically disconnect. The telephone company informs us that the dial is set to ring four MINNTES, instead of four times before it disconnects.

So don't be in too big a hurry to hang-up. Give your party time to answer.

We have experienced the same trouble at the News office. The phone will ring when we are all in the back shop, perhaps with our hands full of type, and before we can put down what we have in our hands and get to the phone the party calling has hung-up.

The phone will ring every six seconds for four minutes unless answered.

Card of Thanks

We wish to express our sincere thanks to the Rev. John R. Shea, Rev. Paul Hendricks, Monsignor Edward J. Rengel, Rev. Robert Buckheit, Rev. James O'Meara, Mr. James Mulholland and everyone who were so kind to us in everyway during the illness and death of our father.
