The double-ring ceremony was performed by Rev. John R. Shea at the Blessed Sacrament Church in Andover. The altar was decorated with garden flowers and lighted candelabra and traditional wedding music was played by Mrs. John Dolan, organist.

Immediately following the ceremony a reception was held at the home of the bride for the family and other guests.

Outlook Good For Feeds, Grains As Hay Equals '50

Albany, July 23:— The grain and feed crop situation for New York's large livestock and poultry industries is relatively favorable, according to the Federal-State crop report for July.

Pastures have been very satisfactory during the early summer. The reported condition on July 1 was five points higher than a year ago and an equal amount above the 10-year average.

The hay crop, indicated at 6,048,000 tons, is about the same as last year and three percent above the 10-year average. Frequent periods of wet weather have delayed harvest and have injured the quality on many fields, where the dried hay was rained on before it could be hauled to shelter. Substantial quantities were cut early and used for grass silage. The carry over of old hay at the beginning of the season was abundant and this, together with the 1951 harvest, will make available five percent more of this forage for the 1951-52 feeding season than was available a year ago, and five percent more than average.

The corn crop, part of which is harvested for grain and part of which is used for silage and fodder for dairy herds, started off well and is expected to produce about four percent more than last year.

The oats crop, forecast at 35,174,000 bushels, barley at 2,550,000 bushels and rye at 300,000 bushels, along with 12,287,000 bushels of wheat, will have a combined total of about one million tons. This is one percent more than last year's combined production and about 40 percent more than the 10-year average. While New York farmers sell considerable amounts of grain, especially wheat, this is a grain deficit state. The excellent national grain crops in sight indicate that normal additional grains and by-product feeds for livestock will be available from other areas.

George Simpkin

George Alfred Simpkin, 77, former resident of Voorhees Hill died Thursday, July 19, 1951 in Cape Cod.

Mr. Simpkin was born in Andover the son of William and Lucrecia Empson Simpkin. He was a graduate of Wellsville schools and Battle Creek, Mich., sanatarium registered nurses school. He operated a farm on Voorhees Hill before moving to Cape Cod.

Survivors include; a daughter, Mrs. Peter Crowell of West Dennis; a son, George Simpkin of Parkersburg, W. Va.; two brothers, Henry Simpkin of Orlando, Fla. and Henry Simpkin of Elmira; three grandchildren and five great-grandchildren.

Services and burial were held Monday at Hardechport, Mass.

We wish to express our heartfelt thanks for the expressions of sympathy and acts of kindness extended us during the illness and death of our wife and mother. Especially to the Womans Relief Corps for serving the dinner on Saturday.
