Assistants: Mrs. Richard Stewart. Earl F. Richardson, Mrs. A. D. Fuller.

Call your appointment in to your local chairman, Mrs. Frank Holmes, Phone 3283, as early as possible.

Let's make the Blood Quota of 90 pints. Be a G-Man: If you can't give blood—get blood.

The Korean wounded can't wait for blood. Give that they may live.

The Defense Department reports that the Armed Forces have used up their plasma reserves and a blood-plasma crisis is now nearing. The need is so urgent that even military personnel are being asked to give. This is the first time the Armed Forces has collected blood here at home in their hinstory.

Following are two local letters released by the Blood Bank chairman, Mrs. Holmes:

Letter from A.D.C. Richard Stewart:

A truck was hoisted aboard the Aircraft Carrier, U. S. S. Princeton, while anchored at a Korean port. Equipment and 25 cots were set up on the hanger deck and the work began, under the supervision of one doctor and his 12 assistants. Yes—You've guessed it. It was a Blood Bank. The quota for the two day period was 1,000 pints of blood. Actually 1,100 pints were given and had time permitted, many more pints would have been donated.

A local serviceman was a donor aboard that ship. So with Oct. 22, and this true experience in mind, Let's just say "Our Servicemen can do it—So can we"

A little over a year ago, as most Andover people know, it was my misfortune to land in a hospital in Boston, Mass., for major surgery. I was immediately informed that several blood transfusions would be necessary before they could operate and since the hospital's blood bank was almost completely exausted it would be up to me to find donors. Of course I knew no one in Boston to whom I might appeal so my first thought was to contact someone at home and see what could be done. I wrote to the American Legion Commander and he in turn contacted the local Red Cross chairman. Thanks to that organization, within 24 hours word was received that blood was being flown to Boston to take care of all my requirements, 7 pints in all.

Too few people realize what wonderful work is being done by the American Red Cross, not only in our own County, but all over the world.

If you are over 18 years of age and under 60 you are privileged to give one pint of your blood to save the life of another person and who knows, that person might be you or a loved one.
