To The Voters of Andover

As I am a candidate for the Town Superintendent of Highways on the Republican ticket, I should like to give a resume of my qualifications for that position.

I worked for 12 years before I came to Andover on the building and maintenance of State, County and Town Highways, six years for Hector Township in Potter County on the Town Highway and six years for contractors and State Highways in Potter County. The machinery which I operated and the roads maintained and repaired were similar to the machinery and roads in the Town of Andover, and I am confident that I can maintain and build the roads in the Town of Andover and keep the machinery in good condition. I also feel sure that I will be able to build the roads to the Erwin Plan specifications.
