Supervisors In Favor of Amendment 4

At the adjourned session of the Board of Supervisors on Tuesday, October 30th, Paul Smith, western representative of the New York State Good Roads Association, appeared in person and urged the support of amendment No. 4 to be voted upon at the General Election, Tuesday next, by the People of the State of New York. By adoption of this amendment, the bonds to be sold for cost of construction of the New York Thruway will be State guaranteed and therefore saleable at a much lower rate of interest and thus bring about a savings of approximately $120,000,000. Feeling that the passage of this amendment would expedite and hasten the completion of the Thruway at the lowest possible cost and also release State moneys now allocated to said project and make it available for pressing road needs throughout the State, the Allegany County Board of Supervisors went on record as favoring said Amendment No. 4.

Perry Home Badly Damaged By Fire

Andover firemen were called out about 10 o'clock Monday evening to combat a fire in the home of Mrs. Elizabeth Perry just outside the village limits.

They fought the fire for several hours and although hampered by the lack of water managed to confine the damage to the upper story of the building, which was in flames when the firemen arrived at the scene.

It is thought that the fire started in a mattress from a discarded match. Mrs. Perry told chief Howe that her son searched for a cat early in the evening under the bed in his room using a lighted match. Although he thought he had thrown the match out of the window it may have caught in the bed clothing.

Good News For Taxpayers of the Town of Andover

A notice appears elsewhere in the paper, that the budget for the Town of Andover has now been filed with the Town Clerk of the Town of Andover and Supervisor R. J. Sootheran and the Town Board are happy to announce to the taxpayers that under the budget filed there will be a decrease in the taxes in that portion of the Town inside the Village of Andover of over $1.00 per $1000, and over .75 cents per $1000, on that portion outside the Village. The reason for the difference is that there is a loss in valuation outside the Village because of the drop in oil production in some of the big leases. However even with this drop in tax rate, the Supervisor and Town Board have taken care of all needs of the Town and in fact have placed an additional $1500 in the machinery fund for any machinery that might be needed this year, and if none is needed it will be used to start a reserve fund to purchase machinery in later years.

There was also placed in the highway fund approximately $27,000.00. However, $19,600. of this will come from State Aid in order to finance the building of the new road on East Valley.

The Supervisor and the Town Board would also like to take this opportunity to assure the people that they have no intention of abandoning any roads in the Town of Andover and have placed funds in their budget to maintain all of the roads in the Town of Andover, besides an amount to build the East Valley road under the Erwin plan.

The Supervisor met with Robert Reed of the Conservation District in Belmont and discussed the Dam and Pond situation with him. Mr. Reed informed the Supervisor that the Dam would be constructed well within the appropriation which was voted by the people of Andover and he believed it would be finished by the middle of November at the latest and that water would be in the Pond from then on so that the area can be used for a recreational area this winter for skating and similar sports.

County Welfare Costs 17.34 Per Capita

Welfare costs totaled $752,634.50 in Allegany county in 1949-1951, or $17.34 per capita. Twenty-two counties spent less per capita for relief than Allegany. Cattaraugus spent $1,187,128.03, or $15.30 per capita during the same period.

Welfare departments of the 57 counties in New York state, plus that of New York city, spent at least $379.9 million during the fiscal year.

The figures are contained in a report by the Citizens Public Expenditure Survey. They are based on an analysis of accountings to the state comptroller's office.

The expenditures outside New York City by local welfare departments totaled $133.6 million.

The upstate counties show a wide range of per capita expenditures for welfare purposes. They range from $8.11 in Nassau county, to $37.20 for every man, woman and child in Clinton county. The figure for Steuben county is $16.37 and for Wyoming is $12.14.

Of the $133.6 million expended outside of New York City, $42.6 million, or 31.9 percent, was for old age assistance. This was the largest category upstate.

The remainder of the breakdown includes $20.8 million for aid to dependent children; $18.8 million for home relief; $11.1 million for public welfare administration; and $968.958 for aid to the blind.

The figures show that the statewide average per capita cost for welfare expenses is $25.78, or the equivalent of over $100 each year for the average family.
