Prune Your Trees Now.

From this date until October is the time to prune fruit and shade trees.—A wound made at this season of the year will not bleed, but will harden and remain sound, even if the new growth of wood does not cover it.—The spring of the year is the worst of all times for pruning; the sap is then running, and it keeps the surface exposed by the cutting in just the condition for decay; and if the wound is a large one, a rotten hole in the tree is the result. To prune in June is better, but even then, we would not advise you take off any limbs larger than an inch in diameter. Let all larger limbs remain until the last of summer, or September. Therefore, form the habit of examining your trees at this season, that you may avoid the necessity of pruning next spring. But it must not be thought that we advise the cutting off of large limbs when it can be avoided; and if trees were properly attended to when young, it would seldom be necessary. Especially see to it that none of the young trees grow up with crotches that will be liable to split under the weight of fruit, or snow, or wind; to this end, cut erroneously.—*Maine Farmer.*

Advantages of not Coloring Cheese.

Among the advantages of not coloring cheese, Mr. J. Stuart Menteth thus states:—1. An uncolored cheese will ripen sooner, and be fit for use. Some years ago the late George Willbraham, M. P., of Cheshire, and enlightened and public spirited country gentleman, suspecting the coloring of cheese with annatto and other vegetable substances had a deleterious effect on it, offered a large sum of money to any one who would chemically investigate the subject and write an essay on it.—Mr. George Whitby composed an able one on the subject. It was published by Ridgeway, bookseller, Piccadilly, London, in 1841. Mr. Whitby, at page 29, states "that it is his opinion that most red and scarlet vegetable substances are astringents; and that all matters possessing this property, if mixed with the milk, will tend more or less to interrupt the formation of curd, and that it will interrupt one or more of the processes or changes which all cheese must pass through before it ripens, particularly as its action on the curd will contract, condense, and harden, by that natural attraction between gastin, galactine, and tannin, the principle of astringency." It such be the case, and of which it seems certain, what a great loss it must be to the dairy farmer coloring his cheese with annatto or any other coloring vegetable substance. The reed, or rennet, when added to the colored milk, will not throw down all the curd, and where much cheese is made, what a great loss of weight must be experienced. Mr. Titley, of Bath, one of the most extensive dealers in cheese in the west of England, and well acquainted with all the details of Cheddar cheese-making, informed me long ago how injurious it was to color cheese. It prevents the cheese ripening for a long time for the market. The sooner the blue mould appears in the cheese, the sooner it ripens, and is fit to come to table. An uncolored Cheddar ripens quickly, the blue mould appears in it.

2. No intelligent dairy farmer, either of Cheshire or Somersetshire, has on his table colored cheese. They always prefer one uncolored, as richer and higher in flavor.

3. It is curious to remark no country except Great Britain colors cheese. The only uncolored cheese is the Stilton, which is one of the best flavored and richest cheeses. We find no colored cheeses in Holland; none in Switzerland, where Gruyere is made; none in Lombardy, the country of the Parmesan; nor in France, which produces the delicious Rochfort cheese. The American cheese, which is now imported in such vast quantities into this country, is uncolored, and is yearly improving in its quality. It greatly behooves our dairy farmers to do all they can to improve their Cheddar and to prevent it being lowered in value in the market by the superiority of the American. And as it is ascertained that coloring cheese affects its quality and richness, surely this ought to be a chief reason to abandon it, and bring into the market the best made Cheddar uncolored, to cope with that which comes from America.

A Rochester man jealous of his wife and a male boarder, took a fiendful revenge on his spouse. He threw her waterfall and best bonnet out of the window.

Evergreens—People who don't take the papers.

"Come, Bob, get up," said an indulgent father to his hopeful son the other evening, "remember the early bird catches the worm." "What do I care for worms?" replied the young hopeful, "mother won't let me go fishing."

TO CONSUMPTIVES.

The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a SURE CURE FOR CONSUMPTION, ASTHMA, BRONCHITIS, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information, which he considers to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address, REV. EDWARD A. WILSON, Williamsburgh, Kings County, New York.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adopted to subdue forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the diseases of the Lungs and Throat, that over the counters of druggists, we receive more thanks for this remedy than for all others we could enumerate, under the *Cherry Pectoral* they will be sure to appear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no case injures any patient. The weakest and youngest of infants, as well as the most robust, are literally benefited by its use, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in the obstinate cases, and where other remedies had wholly failed.

Consumptive persons, either resident in, or travelling through, miasmatic localities, will find protection by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly astonishing cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold by all druggists all round the world.

PRICE, $1.00 PER BOTTLE.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, it was ever any before so universally adopted into use. In every country and among all classes, in this mild but efficient purgative *Pill*. The obvious reason is, that it is a sure reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that when it does cure it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, **Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a nasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted for use

Simmons Regulator

STORE!

In just about the smartest town
That ever you did see,
Along the line of the Erie road,
They call it Genesee,
You will find a splendid edifice
Known as Simmons' Regulator stores,
Where choicest goods are sold at cost,
And just a trifle more.

I have Cotton, Silk and Linen Goods
And Notions by the score,
With many other fancy things
Which ladies do adore;
I have cloth, clothing, hats and caps,
And Boots too, by the score,
Suspenders that will stretch a yard
And just a trifle more.

I have many good and civil clerks,
As ever man stirred taps,
To wait upon my customers
And keep the Stores in shape.
They are just about the finest men
That ever attended store,
I am confident you'll find them so,
And just a trifle more.

Then come to the "Regulator Stores,"
Good friends from far and near,
You're everything to hope for there,
And nothing sure to fear.
They'll show you goods and sell them cheap,
A most excellent store,
Of everything the people want,
And just a trifle more.

A word to our enemies
Who deal in wordy war,
The steam is on, don't waste your wind
In hopes to stop the car
All enmity and slickering
We honestly deplore
As much as any other man,
And just a trifle more.

But if they think by blustering
To drive me from the field,
They're find that I am "up to time,"
And don't know how to yield;
But "rough and ready," dare to meet,
Opposers by the score,
A match for each and all of them;
And just a trifle more.

I have Flour, Feed, Pork and Hams,
My customers to please;
Teas imported direct, all know,
The clamor for to cease,
I offer bargains, sure and good
To one as to a score;
And wholesale all at New York cost,
Or just a trifle more.
