**Popular Brands at a Special Low 2 Day Sale**

On December 22, is the anniversary of the start of our big **candy** business. **Every year** has shown an **increase** over the **preceding** year, some years our candy sales have doubled the preceding year. We attribute our success to making a study of it and **now stocking** and **selling** only **strictly fresh high grade candy bars.**

At first we bought of wholesale jobbers and sometimes got stale and sometimes wormy candy. Now we buy all our stock **direct** from the **candy manufactures.**

Mr. Hunter has been through and inspected nearly all the candy factories. Most all bulk and box candy manufactures use saccharin or glucose, a cheap immitation of sugar, and some put poisonous coloring liquids in .

Most all bar candy manufactures use pure cane sugar and would not dare to put poisonous coloring liquids in and put their name on the wrapper. Most all bar manufactures have clean equipment and clean employees.

Parents who buy large quantity of **bulk** or **box** candy for their children make a great, great mistake.

Fathers and mothers if you could see what I have seen you would not buy any more **bulk** or **box** candy for your children.

Given in marriage by her father, Miss Wintemberg was dressed in a two-piece ballerina length gown of white faille, adorned with seed pearls. She wore a white lace head piece, trimmed with lily of the valley and carried a white bible and a bouquet of pink roses and white carnations with long streamers.

Miss Doris Wintemberg, sister of the bride, was attired in a pink gown, identical to the bride's and wore a head dress of pink net, embedded with seed pearls. Acting as maid of honor, she carried a colonial bouquet of pink roses and white carnations with long pink streamers.

## Andover Taxes Lower For Next Year

Andover Taxes Lower for Next Year.

According to tax rates released this week by Clerk Denzil G. Perkins of the Board of Supervisors, Andover Village will enjoy a reduction of $1.76 per $1000 in this 1952 tax. Outside of the Village the tax will be 38 cents lower.

The reason for higher rate outside of the Village is explained in the following statement from the town board.:

As appears above the Town tax rate inside is the largest decrease of any village in the county, and more than the Town Board had hoped to decrease it when they first started to draw their budget. The decrease for the property outside the Village is .38 cents per $1000 valuation. The Town Board had thought that it would be .75 cents, but after a meeting with the representative from the State of New York concerning the Erwin Plan during the last part of November it was found that if the Town of Andover was to get full benefit of State Aid for roads, it would be necessary to raise another $1100 on the property outside the Village. If it had not been necessary to raise this amount a decrease outside the Village would have been more than the Board anticipated. The Town Board felt that it would be for the benefit of the farmers who live on these roads to raise this additional amount so that all possible State Aid could be obtained.

The rates for Andover are:

| | |
|---|---|
| Andover, Village ------ | $17.35 |
| Andover, Town ------- | 23.95 |
