The following we clip from the Steuben *Courier*. It is a very good joke on the defeated Democratic candidate for Sheriff of that county, Minor Simmons:

Simon says, thumbs up! Simons says thumbs down! Simons says, wig-wag! Up he hands down he went; he duly wig wagged—but it was no go. Exit Simmons. *No Minors* need apply.

CORRESPONDENCE.—We shall next week furnish our readers with a letter from our special correspondent, describing his trip from here to the west. Also a good description of several of Western States as a farming country, the inhabitants, &c.

Geo. A. Green's News Agency, we are pleased to learn, is a success and an established fact in Andover. He is now receiving regularly, 14 dailies, over 100 weeklies, and nearly 40 monthlies, and is increasing his order every week. Just look at his list in another column, and see if there isn't something you want, either regularly or occasionally.

The ova for the production of 70,000 salmon trout, for the lakes in this State was recently deposited at the new hatching house on Spring Creek in the town of Caledonia, Livingston County.

A WORD OF CAUTION TO OUR READERS.—To those who use Kerosene Oil as a light, it is well that they look to the Kind that they use, as two-thirds of the oil now sold is not safe to burn on account of its explosive nature. There is a kind of oil, known as the Downer Oil, that is brought to a sufficient fire test as to make it perfectly safe to burn, and at the same time giving full as much light, if not more, than other oil manufactured. Ask for the Downer Oil, and get that which is safe and *not* endanger the life of your families.

TO BE REMOVED TO THE OVID ASYLUM.—On the 20th inst. the following named persons, inmates of the County Poor House, will be removed to the Asylum for the insane at Ovid Seneca County. Catherine Polan or "Laughing Kate," Nancy Jenkins formerly resident of Alfen; Mrs. Butts, Fillmore; Caroline Perry, Almond; Mary Scriber, Wellsville; Rosalia Randall, Angelica.—*Allegany Reporter.*

AN ENTERPRISING MAN.—Wellsville can boast of one enterprising man, in that of Henry Wilcox. Mr. Wilcox has completed arrangements, whereby he can sell tickets from Genesee to all parts, West and South West, at as low rates as can be procured any where. Mr. Wilcox is also erecting a large building in connection with his already extensive establishment, when completed, will give him all the conveniences necessary. You can always get a good cigar, and a good meal there, and find a genial landlord to wait upon you.

Moses & Allen have a fine lot of Jewelry.

C. H. Simmons keeps the largest and best selected stock of goods in Western New York. He sells cheaper and more of them than all the other places in Wellsville combined.

WORTHY OF NOTICE.—Sneldon Brothers' of Hornellsville, it must be acknowledged, has the most extensive Hardware Establishment in the Western part of the State; and as honorable and fair dealers they are not excelled. Their extensive business allows them to sell much cheaper than any of their competitors. Their stock consists of everything in the line of Shelf Hardware, Tin-ware, Mechanic's Tools, House Trimmings, Sash, Blinds Doors, &c., &c. They make the Stove trade a specialty, and, we should judge so from the number and variety they have on hand. Cook Stoves, Parlor and Store Stoves, both wood and coal. They are General Agents for the best Coal Stove in use, the Oriental, with all improvements. When our readers are in Hornellsville they should call and examine their stock of goods.—See new advertisement which will appear in a week or two.

A nice "double fined" black Alapaca for 37.1 2 cts a yard, at Harman's

Good cotton Batts for 22 cts a lb at Harman's.

The Doty Washing Machine is, in our opinion, not equalled by any rival now before the public. Its strong points are cheapness, simplicity of construction, ease of operation, durability, and washing on the rolling mill principle, i. e. squeezing and not rubbing; there is considerable less wear and tear of garments then in the old-fashioned system of wash board and knuckles.—In fact, we question if the saving thus secured would not be sufficient, even in a small family, to pay the cost of a Doty in the space of a single season.

When in Wellsville dont fail to call at C. H. Simmons' Regulators.

For a good watch, go to Moses & Allen's.

If you have a clock or watch to repair, the place to take it is Moses & Allen's.

Simmons' Regulators, Wellsville N. Y., cause much trembling and agitation in business circles. It alarms his competitors, pleases his customers, and benefits the people generally, for now they can buy Dry Goods, Groceries, Clothing, Hats, Caps, Boots & Shoes, of all descriptions, at astonishingly low prices at wholesale or retail. All those wishing to secure good bargains come early, and come prepared to take a full load for a little money.

MARK TWAIN had a son and heir born to him last week, and yet, notwithstanding his extreme youth, his father has made something of him already—made a joke of him; according to the *World* which says the following dispatch has been received by the Literary Bureau from Mark Twain:

"A son was born to me yesterday, and with true family instinct he has gone to lecturing already. His subject is the same as Josh Billings—Milk. You are hereby constituted his agent and instructed to make arrangements with lyceums."

Two citizens of Oswego have gone into training for pancake contest to come off shortly, for the championship and a silver mounted pancake turner. One of the aspirants has got his cake bee up to forty seven pancakes at a sitting, and has not laid himself out at all yet.

A NEW SWINDLE.—The Crawford (Pa.) *Journal* states that the latest swindling operation is done as follows: A put up trading gentleman calls on a substantial farmer and wishes to make him an agent for the Cleveland Metallic Roofing Company. The farmer consents to act as agent, expecting to gain in the enterprise. The Cleveland man then proceeds to draw up an order on the Metallic Roofing Company, which the agent signs. This is all right, so far, but the city gentleman wants a duplicate of the order, and so the agent is requested to put his signature to a second paper, being assured that it is just like the first one, and the Cleveland gentleman then departs with a note for $150, which he sells at a discount, the $150 note being the second paper the agent signed. The game is being practiced in a neighboring county, and our readers would do well to be on their guard and sign no papers which they have not previously inspected.

Now is your time to get a suit of clothes, go to Geo. Green's for them.

A Railroad meeting was held at Colden, on Wednesday of last week, for the purpose of discussing and considering the propriety of building a railroad from Buffalo to Springville.—Although the weather prevented but a few being present, a deep interest was felt and some fifty shares were taken. A committee of three was chosen by the chair to solicit subscriptions. Martin Miller, John R Hedges and John E. Morris were chosen as said committee. Action was taken by the meeting for a survey through Colden Valley, which will be done immediately under the supervision of D. O. Stevens, Esq. The meeting adjourned for one week.—*Cattaraugus Rep.*

A STREAK OF GOOD LUCK.—Ebenezer Hindes, a former resident in this county, who removed to Carson City, Mich., about two years ago, has in a day, as it were, become immensely wealthy. Ebenezer built a cistern in the month of October, and the workmen discovered running in from the side a curious looking liquid, but paid no particular attention to it until after the cistern was plastered, when lo! it worked its way through the solid wall, and upon careful investigation, it was found to contain a large proportion of kerosene oil, which still burn in its natural state. Ebenezer has been offered by responsible parties, $15,000 for property that cost him only $2,000 two years ago. But Eben can't see it, and is waiting for a larger bite. Success to you, Petroleum.—*Cattaraugus Union.*
