Importance of Gymnastic Exercises. The following Address was delivered by School Commis-sioner R. L. Amirus before the Teacher's Association held at this place, July 15th and 14th, and published thy request of the Association.

The form gyministic means pertaining to athletic exer The term gynthustic means pertaining to addict exercises of the body, also to disciplinary exercises for the intellect. The unida and body are to intimately associated that Whatever affects one affects the other, and it is impossible for one to be impaired, without correspondingly impairing the office. Mr. John S. Hart gives some their interactions of the properties of the properties of the control of the co

industry. &c., properly developed, will a through life, and this mental discipline by these triffe, through this, and this mental discipline-terally, him to necessible, much more in his Livetime, tractically by lengthen his days. Taking the ground the principle sint at a man's life should be to accumu-as made, would his he real by straining every nerve to the straining to the straining every nerve to the straining to the straining every nerve to the straining the straining through the would be hard large three three straining three principles are the straining three straining three strainings are not strained for the first this straight at the straining to the straining three strainings are the straining three strainings are the straining three strainings are straining to the straining training trai

and the street of the again called to the chool roun for another exercise with utes or otherwise as the time admits.

The idea that I would alwance is spell, especially in the after apell, especially in the afternion, some of the younger ones are sleepy, put a shawl under their heads, and allow them to follow the suggestions of nature and sleep, a part just at essential to their proper development as a study or exercise. And do not to ture them or exercise. And do not totture them it ye compelling them to keep awake and sit erect with folded arms, as is often done for a half hour at a time, with nothing to do or to thisk of and nature trugging at their cyclids with such force to pull them down that it is almost impossible for them to resist. The humane teacher will not be content with distribution fundationals.

The manage centers with not co-content with distributing judiciously study, recreation and rest to the pupils while under his charge, but will seek to stamp these laws upon their mines

forti, either physical or mental, ultimate, to its close.

I shall ever hold in grateful remembers the fire the first the first the second of the that, whether the requires more or less of mental, effort, effects, who, when I was a roundad in childhood should be often relieved with pleasing shouldered lad of eighteen substances and regiment, used to the juny shoulders back with her handker-chief, and tell me what I must do to avoid that thended disease. Consump-tion, which had recently deprived me of a loved mother. And damy of use will I ag retain the memory of that noble man, Professor Sills, who labored to till the memory as facilities.
