

**A Short Talk with the Democracy of this State.**  
For some time past, the Democratic party of this State has been on an upsurge to Tammany Hall. Do we witness the upsurge of this party, and consider the recorded acts of John T. Hoffman when he was made a candidate for Governor, but that he was the favorite of Tammany Hall? Would not Governor Parker, or Governor Kirwan, have been elected had it not been for the Democratic vote? Kingsbridge, where the State was at length overborne, so Hoffman it is said.

From that hour, the "bay-lob" and the "dog" were the only things that Tammany could do to keep its party in the Legislature have been employed from year to year in registering the editors of Tread & Co. Among these members have been men of historic family and eminent personal distinction, who have been used to keep Tammany from further back than last winter; the Democratic party had no need to steal Mr. Twombly's seat in the Assembly; but Tammany needed it, and such was the result.

The rural Democracy could not but suffer from any combination with the gigantic, persistent robbery of the Erie stockholders; whether the Judiciary as well as the legislation of our State has for years been shamed by Tammany's direction, or that had to be shouldered by the rural Democracy. The witness scandalized in the misbehavior of one of the King's Assemblymen and the purchase of a substitute. And so from first to last, the Democratic party has been the victim of the wrong-doing and ill-repute had a similar origin.

Messieurs of the rural Democracy, are you not paying too high a price for what you are getting? However agreeable it may be to you, \$10,000 of stolen money slipped into the hands of this and \$5,000,000 of the same Democratic candidates for Senators and Assemblymen, do you think that your ill-gotten gains with Tammany, regarded as a whole, pay? Suppose you could, by stealing a seat or two outright, carry another Legislature as you carried the last, incurring similar obligations and responsibilities, could you really afford it?

We ask none but practical questions. You cannot fail to give them practical answers, one way or the other. In the City, elections are no more. Save in a few narrow localities, fraud and peculation reign supreme on the verities of the ballot-box. We have seen in high places who have risen from stable-keepers to be Senators solely by their efficiency as "repeaters"—that is, in polling or counting the votes that were never cast by legal voters. Every one who can be corruptly influenced do so is made to cast at least one Tammany vote at each election. Some are bought with stalls in markets, others by liberty to sell liquor without license, or to sell in the laws forbidding them to do so; thousands buy with their votes immunity from deserved punishment; and thousands more, who are known to be in the habit of voting for Tammany, are known to be in the habit of voting for Tammany.

All this may have suited you for a while, but that will be in good order, and doing it prescribed work. No doubt, thousands of you checked when it found out Sixty Thousand majority for Seymour (at least half of it) by which the Fifty Thousand majority for Grant in all the rest of the State (Brooklyn included) was overborne, and that the cry of three electoral votes of New York cast in the teeth of a large majority of her legal voters. "That cannot be," I said, "was been counterfeited by the people of New York." I pronounced judgment upon the plunderers of the ballot-box, the corrupters of the public trust, if you do not choose to share their condemnation, separate yourselves unambiguously from these workers of iniquity. Since from under the feet of the Democracy, a female New-fangled dog—so in the habit of
