**Harper's Weekly** is by far the best illustrated weekly paper published in this country and also the most ably edited.

**SALE OF CHEESE.**—On Wednesday, Mr. Clark, salesman for the Green's Corner's cheese factory, sold what cheese they had on hand, 40,000 lbs., for 13 cts. We believe this is a little above the market.

**FIRE.**—On Sunday last, a house and all its contents, belonging to John Wagner, on South Hill, was totally destroyed by fire. The family were attending church at Wellsville at the time, consequently saved nothing when they had on. It is supposed that it caught from the stove pipe as there was a fire in the stove when they started for church. Loss about \$600.

**SOMETHING NEW.**—Amos Seaward has the agency for several towns in this county, for Myer's patent combined, folding and smoothing flat-iron. It is just what every family wants. Heretofore, the folding machine has been too expensive that but few were able to afford them. This will answer for a folding iron and also a common flat iron, all for \$2.50, and nothing could be more simple and convenient. Leave your order with the "Governor," and we guarantee that he will attend to it at once.

**FIRE.**—A fire broke out in Hornellville, about nine o'clock Thursday night, in the stables attached to the Osborne House. Twelve horses were burned, and also all else in the stables with the exception of the carriage. A barn belonging to the C. E. Pickering adjoining the stables was also burned. It was raining at the time the fire broke out, and some buildings near the stables, including the Osborne House, was thus fortunately saved. The fire is claimed to have been the work of an incendiary.—*Elmira Ad.*

**Last Saturday forenoon,** a young man named Elias Youmans while crossing the railroad track on State street, came into collision with a freight train moving east; and was thrown to air by the cow catcher. He came down upon his head and shoulders, and was found to be insensible, in which condition he remained for two or three days. He was immediately taken to the Howell house, and his injuries, consisting of a dislocated shoulder and several severe bruises were attended to by Dr. Allen. He will probably recover and look out for the cars hereafter when the bell rings or not.—*Albany Democrat.*

**During the session of the Teachers' Institute at Belmont, a Joint session of the Teachers' Association of Albany County, was held, and the following officers were elected for the ensuing year:**

REMARKS.  
The grade averages for this examination are somewhat lower than heretofore; but it may be accounted for in part. It has been but one week since a two weeks vacation, and it can hardly be expected that pupils should do as well under these circumstances. We hope to show a better record next time.  
The attendance in the Senior Department is very regular indeed, the average being nearly 75 per cent. of the whole number registered. It is not so regular in the lower departments. Indeed the teachers in these departments are very much annoyed, and the progress of classes very much retarded by the habitual irregularity and tardiness of some of the pupils. It seems as though we should be forced to avail ourselves of the extreme remedy allowed in such cases, and exclude a few from school entirely. We are anxious to avoid this if possible, and parents and guardians are most earnestly requested to co-operate with the teachers in their efforts to secure more regularity in attendance.  
We are now upon the last half of the fall term, which will close December 1st. The Senior Department is taxed to its utmost capacity. The room is seated for 28 pupils, while 96 have been registered, and the average attendance is at the present term, 92. The prospect for accommodating students from other districts next term, does not look very flattering. Doubtless some will have to be rejected for want of room. If any are admitted, these will be received first whose names are first presented to the Principal or to the Secretary of the Board.  
It looks now as though Andover must soon have more school room. The present recitation room is entirely inadequate for its purpose. There are 32 pupils in the 5th grade who have to be packed in this little room which is only about 8 feet wide by 16 feet long four or five times each day. Two more rooms as large as the room below are even now imperatively demanded. The health and convenience of the pupils, and the success of the school absolutely require these additional rooms.

## We will undertake to convince any person who doubts the existence of this necessity, within half a day, if he desires positive, experimental knowledge on this point.

We will give him the best seat in the recitation room and leave him to his own reflection and conclusions.

**NOTICE.**—Persons having claims against the town of Andover must present the same immediately to J. C. Dyer, Esq.

**Warren** had a \$35,000 fire last week. The building and stock of the Warren Manufacturing Company were destroyed.

It is estimated that the losses by fire in the United States since May 1st, '71 will amount to the enormous sum of \$250,000,000.

**George Butler** a brakeman, fell between the cars while the train was in motion, on Monday night, between Gainesville and Canfield, and was instantly killed.

**D. B. Voorhes**, of the Exchange Hotel, Angelica, raised this season on a piece of ground measuring one-fourth of an acre, eighteen bushels of black seed onions.—*Reporter.*

**Mrs. King**, of Yorkshire Cattaraugus Co., died last Friday morning from the effects of chloroform, which she had taken while having some teeth extracted.

**Arthur Clarkson**, formerly of this place, but who for the last six months has been stopping at Yatesville, was here last night, and was seen by some of our friends, on account of rheumatism.

**A barn** belonging to Robert Campbell, at Canaseraga, was, on Thursday morning of last week, together with its contents, entirely destroyed. It took from the fire in the woods. We understand there was no insurance.

**We would call the attention of our readers** to the corrected list of Insurance Companies that are represented by B. Hanks & Son, Wellsville. Persons having policies in companies that have failed, though the losses at Chicago, was promptly transferred to companies that were sound.

**Thomas Taff**, a boy about eighteen years of age, attempted to jump on to a freight train in motion at the depot yard last Saturday. His foot slipped and he fell under the cars, the wheels passing over and crushing and tearing his left arm and shoulder and his left leg. The shock was so great that his system did not rally at all, and amputation could not be attempted. He died on Monday.—*Hornellville Times.*

**The barn and sheds of Esquire Duke** in North Almond, was burned on the night of the 10th inst. The barn was full of hay and grain feeding timothy, &c. The loss is estimated at \$1,600, upon which there was no insurance. It was beyond doubt an incendiary fire, and probably from the same source as the other fire which have occurred in the Valley. The Church at Babcockville was set on fire same night, and the flames had got well under way when discovered. Fortunately, this fire was put out.—*Hornellville Times.*

**The Whitesville Cornet Band**, numbering twelve members, paid our village a visit on Monday night last. They, together with our own band, were entertained at the residence of Dr. W. W. Crandall, where they sojourned until late in the evening, during which time a pleasant repast was served by their estimable host. Every thing during the evening passed off pleasantly and to the satisfaction of all concerned. On their way to the hotel they paid our worthy F. M. a call. The band, though yet young, played excellent music, and what they had learned during their short stay, and, on their return, they will be able to perform.

It is estimated that the losses by fire in the United States since May 1st, '71 will amount to the enormous sum of \$250,000,000.

**George Butler** a brakeman, fell between the cars while the train was in motion, on Monday night, between Gainesville and Canfield, and was instantly killed.

**D. B. Voorhes**, of the Exchange Hotel, Angelica, raised this season on a piece of ground measuring one-fourth of an acre, eighteen bushels of black seed onions.—*Reporter.*

**Mrs. King**, of Yorkshire Cattaraugus Co., died last Friday morning from the effects of chloroform, which she had taken while having some teeth extracted.

**Arthur Clarkson**, formerly of this place, but who for the last six months has been stopping at Yatesville, was here last night, and was seen by some of our friends, on account of rheumatism.

**A barn** belonging to Robert Campbell, at Canaseraga, was, on Thursday morning of last week, together with its contents, entirely destroyed. It took from the fire in the woods. We understand there was no insurance.

**We would call the attention of our readers** to the corrected list of Insurance Companies that are represented by B. Hanks & Son, Wellsville. Persons having policies in companies that have failed, though the losses at Chicago, was promptly transferred to companies that were sound.

**Thomas Taff**, a boy about eighteen years of age, attempted to jump on to a freight train in motion at the depot yard last Saturday. His foot slipped and he fell under the cars, the wheels passing over and crushing and tearing his left arm and shoulder and his left leg. The shock was so great that his system did not rally at all, and amputation could not be attempted. He died on Monday.—*Hornellville Times.*

**The barn and sheds of Esquire Duke** in North Almond, was burned on the night of the 10th inst. The barn was full of hay and grain feeding timothy, &c. The loss is estimated at \$1,600, upon which there was no insurance. It was beyond doubt an incendiary fire, and probably from the same source as the other fire which have occurred in the Valley. The Church at Babcockville was set on fire same night, and the flames had got well under way when discovered. Fortunately, this fire was put out.—*Hornellville Times.*

**The Whitesville Cornet Band**, numbering twelve members, paid our village a visit on Monday night last. They, together with our own band, were entertained at the residence of Dr. W. W. Crandall, where they sojourned until late in the evening, during which time a pleasant repast was served by their estimable host. Every thing during the evening passed off pleasantly and to the satisfaction of all concerned. On their way to the hotel they paid our worthy F. M. a call. The band, though yet young, played excellent music, and what they had learned during their short stay, and, on their return, they will be able to perform.
