Justice in Utah.

Justice is grasping her sword in Utah. For over twenty years she has been trodden under foot by a foul crew of villainous fanatics that have outraged every virtue and committed all manner of crime against God and man, under the fair guise of religion. Presidents and cabinets have been puzzled with the question of enforcing law upon the Sodomitish flood. Congress and wise men have toiled for a solution of the problem which the vile practices about Salt Lake City have set up for the nation. Good men have pondered, lamented, feared, hoped and despaired. But justice does not sleep forever. Her hour at last arrives.—She is beginning her work among the Mormons. A man in command of the military forces, whose management was too much in harmony with the best sluices of Utah, was removed by the authorities at Washington, and another, more true to the law and the country, was put in his place. A prominent polygamist, Hawkins, has been arrested, tried, convicted, sentenced to three years imprisonment and a fine of $500 for the crime of polygamy.—Others are under indictment and arrest for the same misdemeanor. Even the arch imposter, Brigham Young, along with others of high position, is himself arrested on charge, not only of adultery, but of murders more than can be easily counted in the indictment—His knees begin to tremble, and, just now, the valorous prophet who has so impiously defied the strong arm of the Government and boasted like Goliah of his contempt of the authorities at Washington, has suddenly slunk away from observation and gone—nobody knows where.

Great excitement has arisen in Mormondom, on account of the impending doom of their abominations. The prophets and elders preach and boast, but none aid rare. The deluded people clench their fists and shout for revenge, even the women joining in the horrid clamor. Yet they dare not lift a finger against the Government.—The sword of the nation is too glittering for their steady gaze, and the impending blow is too threatening for their courage. In short, the Mormons are towering before inexorable justice. Let them bow or flee.—*N.Y. Mechanic*

Autumn Days.

These days come in our busy lives like God's voice. We are careful and troubled about many things. We high over the past, and complain at the present, and dread the future. Yet, every night the unchanged stars speak to us, from their depths of the unchanging God. Each morning breaks upon us fresh and sweet as the first that dawned on Eden. About our cares and fret stands ever as a silent monitor, the perfect beauty of God's earth, speaking of His constant goodness, betokening a wonderful fulfillment yet to dawn upon our souls. And so these Autumn days, pouring delight through every avenue of the body upon our hearts, catching us out of our cares to wrap us in an atmosphere of perfect rest, speak of the Infinite Giver of peace and joy, whose love enfolds our days.

"And so we smile to think God's greatness flows around our incompleteness—
Round our restlessness, His rest."

THIRD PEOPLE.—It is the habit of some people to laugh at the terror which is experienced by others at the heavy thunder-crash, or the dashing lightning. This is both cruel and wicked, since the victim is no more to blame for it than for the color of his eyes and hair—in fact, like them, it is often hereditary. Such persons should be pitied and soothed, and allowed during these periods to be always near some one whom they love and confide in. More especially is this true of children, some of whom suffer more than words can tell from this, as well as other causes of fear. Deal gently with such; it is the only way to eradicate their fears; ridicule and harshness will only confirm them. The child "afraid of the dark," should never be enforced to encounter it unattended and unwatched. Idiocy has often been the result of contrary treatment. Let both parents and teachers, then be thoughtful in these regards.
