The Cut out of the Ring.

During the late political canvass the Democratic papers shouted over a projected reduction of tax...

We distinctly charged that this deficiency, including that of canals we do not less than six millions—that if it were included in the burden of last year, as it ought to be, the tax, instead of being less than for the previous year, would be immeasurably higher than ever before...

Greely, in the issue of the Tribune of Monday, defines his position in regard to the Presidential campaign, and we see nothing in it that will lead that Journal to bolt the renomination of Gen. Grant.

about \$12,000 have been subscribed for the Horace Greely statue to be erected opposite the Franklin statue, in the House Square, New York.

The Mormon Saints in Salt Lake City are still defiant, saucy, and vulgarly impudent, still clinging to their general and outrageous position for plural marriages, and still hindering by their odious social regulations, the development of that fair section of our country in which they have established themselves.

Ayer's Sarsaparilla

Is widely known as one of the most effective remedies ever discovered for cleansing the system and purifying the blood.

It has stood the test of years with a constantly increasing reputation, based on its intrinsic merits, and sustained by its remarkable success.

So mild as to be safe and pleasant to the children, and yet so searching as to effectually purge out the most inveterate humors of the blood, such as the scrophulous and syphilitic contamination.

Impure blood is one of the causes that have lurked in the system of the young, and which, if not removed, will eventually result in the most fatal diseases.

It is an excellent restorative of health and strength in the Spring. Its purifying the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season.

Even when no disorder appears, people feel better, and live longer, by cleansing the blood. The system opens up with renewed vigor and a new sense of life.
