...Vegetables.

...of the spring months hav... we are reminded that ear... will soon be looked for. ...Northern localities. Our ... in the South may bask in the ...sunshine, and eat their crisp let... ...daily radishes from the open ...long before ye can produce ... in our hot-beds; but as a ...nature is prodigal, her pro... are not to highly appreciated ...circumstances quite the op... consequently, our sigorous cli... stimulates us to greater exertions ...healthful luxuries, as well as the ...necessaries of life.

HOT-BEDS.

Every one who has a garden now-a-days is supposed to have frames and ... patches for a hot bed. If there should ... any reader of the Rural New York... who has not provided himself with those very convenient, if not positively necessary adjuncts of the vegetable garden, it is time he commenced. A half dozen sash, three feet wide, and five or six feet long, will answer very well for starting early vegetables for a small family. The sash should be made strong, and of well-seasoned pine plank, two inches thick. Glass 6 by 8 or 7 by 9, are good and economical sizes for this purpose; if larger, they are more liable to break, and the sash will be correspondingly weaker on account of lessening the number of longitudinal bars—these being, of course, no cross-bars, as in common window-sash. Frames on which the sashes are to rest can be made of any common boards or plank, a foot or more wide, nailed together, with a post or block in each corner, to increase the strength.

MAKING THE HOT-BED.

Fresh stable manure should be used and that which is unfermented. Place sufficient quantity in a heap, and fork occasionally, until it begins to ferment and heat. Then place it in some shel... ...ed spot, as on the south side of a tight board fence, or out-building. ...remembering that the deeper the manure the stronger and more lasting will be the heat. Eighteen inches is a good depth, but two feet is better; and be careful to have the heap of equal consistency throughout—not light and loose in one place and compact in an... ...other, for this would res... in an unequal heat. The manure should be made firm, but never packed or tramp... ...down. Make the bed at least a foot longer every way than the frame, and when the surface is made level, put on the frames and sash. The outsides of the frame are banked up with manure, and the back side raised a little to give the sash sufficient inclination to carry off the water which may fall upon them in showers. This inclination may also be secured by making the front board of the frames narrower than the back; but when the frames are banked with manure, this can be done by raising the back side five or six inches and securing this position — The soil may be put on immediately, or delayed a day or two until the ma... ...nure is quite hot. Good, rich, friable soil should be used, and put on to the depth of five or six inches. Sow no seeds until it has become warmed thro... the surface.

SOWING SEEDS.

Tomatoes, radishes, lettuce, peppers in fact, all kinds of vegetables desired early, may be sown in the hot bed—Sow the seeds five or six inches apart, running crosswise on the frame, because it is more convenient to use a narrow hoe among the plants while standing in front of the bed, than if the rows run in the opposite direction. It is also desirable to sow a variety of seeds, because those that mature early in the bed, like radishes, may be used, and their places occupied with those kinds that require transplanting. There should also be sufficient room left in one end of the frame for transplanting the tomato and egg plants, which require large growing in the frames until all danger of frost is past. A few good, healthy plants are worth more than a... ...great number of slender, weakly specimens, and these can only be secured by giving plenty of room, and perhaps occasionally pinching off the terminal shoot. Another requisite in producing stocky plants is in giving plenty of air on warm days; this prevents what is usually termed among gardeners "drawing up the plants." In very ... weather it will also be necessary to cover the sash with straw mats or ... of some similar materiel.—... this shuts out the light and ... to make the plants weak; but ... this covering is removed no air ... given immediately, but wait ... until the plants have hard... to ... under the influence of ...

WATERING.

...should be given in this opera... not delugo the plants one ...gainst them for the next two ... see that they have just ... the soil moist. Cold ... well or cistern should ... will be likely to ... to be drawn a ... ...ning, and put into a ... and then placed in ... ...office ... ...ank a few ... ...and ...

as conservatories, are often ruined by applying cold water. Success can only be secured thro' careful attention. *Rural New Yorker.*

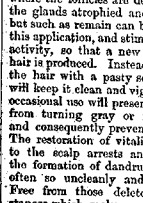
Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.



Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this compounding, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, so that the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unprecented attacks of Pulmonary Affections, which are easily met at first, but which become formidable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, and the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for by its timely use, multitudes are taught from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and healthful sleep. No one will suffer long from **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Generally the product of long, laborious, and successful chemical investigation, no care or toil is spared in inviting every bottle to the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as remarkable as the greatest it has ever effected.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Mortgage Sale.

BY virtue of a mortgage bearing date October 24th, 1868, Philip McHenry, (now deceased) of West Almond Allegany county, N. Y., conveyed to Judson Rathbun of Almond, N. Y., certain premises described in said mortgage as follows, viz: "All that piece or parcel of land lying and being in township No. 5, in the first range of township of Morris Reserve, so called, in the county of Allegany, being part of lot number one, (south) subdivision number four lying in the north-east corner of said lot, containing one hundred and six acres; on the south part of said lot number four, subdivided containing thirty-six acres, beginning at the south-east corner of said lot four, running thence north parallel with the west line of said lot four for enough to make thirty-six acres; thence west parallel with the south line of said lot four to the west line of said lot four; thence south parallel with the east line of said lot four to the highway; thence east along said highway to the place of beginning, containing thirty-six acres, excepting and reserving therefrom the school-house lot on the south-east corner containing one-fourth of an acre, being the same premises conveyed 14th of March, 1868, by the party of the first part by deed recorded in Allegany county clerk's office in Book No. 5 of Deeds, page 621 & C. Said mortgage with the power of sale therein contained was recorded in the Clerk's office of the county of Allegany on the 31st day of November, 1868, at 11 o'clock P. M., in Liber 19 of mortgages at page 623 & C. The amount due on said mortgage at the time of the first publication of this notice is three hundred and seventy-one dollars and three cents, no proceedings at law or in equity having been taken to collect the money secured by said mortgage, now, therefore, notice is hereby given that said mortgage will be sold at public auction to the highest bidder, on the 10th day of April, 1873, at 10 o'clock in the forenoon, at the Law Office of Wesley Brown, in the town of Almond, in Allegany county.

JUDSON RATHBUN,
WESLEY BROWN, Atty. Mortgagee.
Almond, N. Y.
Dated January 11th, 1873.

Summons.

SUPREME COURT.—County of Allegany.—Henry A. Smith vs. P. Rosetta Smith. To the above named defendant: You are hereby required to answer the complaint of the plaintiff in this action, which was filed with the clerk of the county of Allegany, at Belmont, Allegany county, N. Y., on the 24th day of March, 1872, and to serve a copy of your answer on me at Cuba, Allegany county, New York, within twenty days after the service hereof upon you, exclusive of the day of service; and if you fail to answer the complaint the plaintiff will apply to the court for the relief demanded in the complaint.

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER, and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worm, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.
