The *Courier* states that an ardent Grant man of LeRoy, who asserts that the "General" will surely reenter the White House, has recently purchased a buggy worth $300, for which he is to pay the sum of $400 in case of Greeley's election, and nothing provided the white-coated philosopher is defeated.

The Chautauqua *Democrat* states that the A. & G. W. Some of our merchants are already making arrangements to go to the city to buy their fall stock of goods. Trade has remained unusually good through the summer, being nearly double what it was last year. People in all parts of the county are becoming convinced every day that Andover is the place to buy goods; that they can get a better quality, and for less money, than in any other town in Allegany county.

The Auburn *Advertiser* says: "The passengers cars of the New York Central railroad have never shown to advantage by the side of those of the Erie and other roads. This season they are worse than ever. Dingy, uncared for, unswept, they are sometimes in an almost disgraceful condition.

We can fully concur in the above for we had much rather ride in a stock car on the Erie railroad than the best they have got on the Central. Their cars are filthy, and their employees take no pains to accomodate the traveling public.

Train No. 6, on the Erie Railway, ran over a woman named Sherwood, at Salamanca, Wednesday morning, killing her almost instantly. She was walking on the track as the train came around the curve west of the depot, and when the engineer whistled her off, she stepped aside, but not far enough, as the train struck her as it passed with the above results.—Another train was coming in on the Atlantic road at the same time, and her de ay in getting off the track was probably the result of some mental confusion occasioned by the approach of the two trains.—*Cattaraugus Republican.*

By some of our good luck we were obliged to lay over at Attica some four hours on Friday of last week—So we paid our friends Neff & Norton, of the Exchange Hotel, a call. We found everything in good order, and we were served with as good a dinner as can be gotten up at any house in Western New York; and we have this to say to those who by chance may have to stop at Attica—by all means call at the Exchange Hotel. You will find everything about the house clean, and obliging landlords to attend your wants. They are both old railroad men, and know how to cater to the wants of the traveling public.

A PHENOMENON.—The Albany *Times* has the following account of what it very justly calls a phenomenon: It was seen on Wednesday last about six miles from Albany, beyond the McKown woods. During the storm which prevailed, a cloud funnel shaped, descended from the heavens, extending apparently from the clouds to the ground. The tail was near the ground, and within this peculiar shaped mass, smoke and fire were seen to prevail to a degree, which caused general alarm among the residents in the locality, being impressed with the idea that Pintanaous's comet had been delayed and come at last. The funnel shaped mass would seperate occasionally, when the flame was plainly visible. This continued for nearly ten minutes, and was witnesse by a number of persons, all of whom agree as to the circumstances referred to.—After the funnel shaped cloud had disappeared, it was discovered that the corn and other produce on the farms in the locality where the tail of the funnel apparently rested were all burned off even with the surface of the earth. By this a great deal of property was destroyed and no little alarm occasioned. What produced the phenomenon is more than any one in that locality could determine, and it would be well if some scientific gentleman could make an investigation and report the result.

AN ACT to supply deficiencies in former appropriations and to pay the indebtedness of the State on account of the canals, which deficiencies and indebtedness have been charged into the million for moneys received to pay them, or into certificates of indebtedness on which the state is now paying interest, and to pay the floating indebtedness of the State and the estimated liabilities for the present fiscal year not yet provided for by law and to raise in any manner therefor by an issue of the bonds of the State, and to provide for submitting the question thereon to the People.
Passed May 13, 1872; three-fifths being present.

The people of the State of New York represented in Senate and Assembly, do enact as follows:

SECTION 1. To supply deficiencies in former appropriations, and to pay the indebtedness of the State on account of the canals, which deficiencies and indebtedness have been changed into a million in money borrowed to pay them, or into certificates of indebtedness on which the State is now paying interest, and to pay the floating indebtedness of the State, and the estimated liabilities for the present fiscal year not yet provided for by law and to raise in any manner therefor by an issue of the bonds of the State, and to provide for submitting the question thereon to the People.

The sum of five million dollars is hereby created. And there shall also be imposed, levied and assessed upon the taxable property of this State a direct annual tax to pay, and sufficient to pay in the space of twelve years from the time of the passage of this act, the whole of the debt created under and by the provisions of this act. Of the debt to be created under and by virtue of the provisions of this act, the principle of one-third part thereof shall be paid in five years from the passage of this act, the principal of one-third part of such bonds shall be payable in ten years from the passage of this act, and the whole principal of such bonds shall be payable in twelve years from the passage of this act, and the whole principal of such bonds shall be payable in twelve years from the passage of this act, and the whole principal of each bonds shall be payable in eight years from the passage of this act, one-third part of such bonds shall be payable in twelve years from the passage of this act, and the whole principal of such bonds shall be payable in such place in New York city as the comptroller shall deem most. § 2. This act shall be submitted to the people at the next general election to be held in this State. The inspectors of election in the different election districts in the State shall provide, at each poll on said election day, a box in the usual form for the reception of ballots as now provided; and each and every elector of this State may present a ballot which shall be a paper ticket, on which shall be printed or written, or partly written and partly printed, one of the following forms namely: "For the act to create a State debt to pay the canal and general fund deficiencies," or "Against the act to create a State debt to pay the canal and general fund deficiencies."

§ 3. After finally closing the polling of such election, the inspectors thereof shall immediately proceed to count and canvass the ballots given in relation to the proposed act, in the same manner as they are by law required to canvass the ballots given for governor, and thereupon shall set down in writing and in words at full length, the whole number of votes given "For the act to create a State debt," and the whole number of votes given "Against the act to create a State debt," and shall subscribe the same, and cause the copies thereof to be made, certified and delivered, as by section of law in respect to the canvass of votes given at an election for governor; and the same proceedings in relation to elections, other than for military and town officers, shall apply to the submission to the people herein provided for.

CHAP. 757.

AN ACT to perfect an amendment to the constitution relative to the Court of Appeals and for the extension of the services of the commissioners of Appeals.
Passed May 17, 1872, three-fifths being present.

Whereas, the following amendment to the constitution of this State was agreed to by a majority of all the members elected to each branch of the legislature for the year one thousand eight hundred and seventy-one; and the said amendment was duly entered on the journals of each branch of the legislature, with the yeas and nays taken thereon, and referred to the legislature to be chosen at the next general election of Senators; and was duly published for three months previous to the time of making such choice in pursuance of the thirteenth article of the constitution of this State; and whereas, said amendment was also agreed to by a majority of all the members elected to each of the said branches of the legislature for the year one thousand eight hundred and seventy-two, pursuant to the said thirteenth article; which said amendments is in the words following, to-wit: "Relative to the court of appeals and for the extension of the term of service of the commissioners of appeals." *Resolved*, (If the Assembly concur,) That the sixth article of the constitution of this State be amended, by adding thereto the following section:

"§ 28. The court of appeals may order any of the causes, not exceeding five hundred in number, pending in that court at the time of the adoption of this provision, to be heard and determined by the commissioners of appeals, and the legislature may extend the term of service of the commissioners of appeals, for a period not exceeding two years." Now therefore, for the purpose of submitting the said proposed amendment to the People of this State:

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

The said ballots shall be indorsed "Proposed amendment to the Court of Appeals," and shall be so folded as to conceal the contents of the ballot and exhibit the indorsement. And all the qualified citizens of this State entitled to vote for members of Assembly in their respective districts, shall be entitled to vote on the adoption of the said proposed amendments, during the day of election, in the several election districts in which they reside.

§ 2. After finally closed the poll of such election, the inspectors thereof shall count and canvass the ballots given relative to the said proposed amendment, in the same manner as they are required by law to canvass the ballots given for governor, and thereupon shall set down in writing, and in words at full length, the whole number of votes given "For the proposed amendment relative to the Court of Appeals," and the whole number of votes given "Against the proposed amendment relative to the Court of Appeals," and shall certify and subscribe the same, and cause copies thereof to be made and certified and delivered as prescribed by law in respect to the canvass of votes given at an election for governor.

§ 3. The vote so given shall be canvassed by the board of county canvassers, and statements thereof shall be made, certified and signed, and recorded in the manner required by law, in respect to the canvassing the votes given at an election for governor, and certified copies of the said statements and certificates of the county canvassers shall be made, certified and transmitted by the county clerks, respectively, in the manner provided by law in cases of election for governor. The said certified copies transmitted by the county clerks shall be canvassed by the board of State canvassers, in the manner prescribed by law in respect to the election of governor, and in like manner they shall make and file a certificate of the result of such canvass, which shall be entered of record by the secretary of state, and shall be published by him in the State paper.

§ 4. This act shall take effect immediately.

Respectfully yours, etc.,
G. HILTON SCRIBNER,
Secretary of State.
