- German (American), \$1,000,000

Letter from Hamilton Ward

From the Corning Journal.

We publish this week an excellent letter from Hon. Hamilton Ward, late member of congress from this district. It is in response to a letter from us, stating that some Democratic newspapers in this section were claiming him for Greeley, and as we knew it was a false claim, we were anxious to have him deny it publicly. We will state that we had a letter from Mr. Ward, in the latter part of May, in which he declared his unaltered purpose to support the regular Republican nomination. We saw him in June, after the renomination of President Grant, when he re-affirmed, with his usual explicitness of language, his determination to support Grant and Wilson. The following is the letter of Mr. Ward:

amendments and the "new departure"

If they mean all this the nation has taken a great stride in the direction of permanent reconstruction and peace. I will not question their sincerity here, but it is due to the question and to ourselves to say that we are quite as capable and trustworthy to take charge of the nation, and preserve all the fruits that we have won, as to trust them to Democracy and former rebels. We must still be allowed to remember that not a Democrat in congress, by vote or deed, has ever acted up to the professions of the "new departure."

No man can regret more than I do

the break in the party in this state. Good and honest men have gone from the Syracuse convention last fall, but my feeble voice was not heeded in the uproar. Had any peace proposition been adopted, much of this could have been prevented; but that is past and the past is irrevocable, and we must now deal with the stern future that is closed upon us as best we may. Please pardon this long letter.

Truly, your friend,
HAMILTON WARD.

established facts attest the best

of treatment. The Department grounds are a heavy, compact, partially unproductive soil, lying low; they are therefore, favorable for the highest development of pear tree culture. It has only by a constant effort the fruit trees on the premises grounds have been brought to their present highly improved condition. "Bright has been known to originate on a sandy loam of Long Island, not with heavy manuring, the drought, however, always ripening the fruit so completely that the leaves drop long before frost commences. The true source of light seems to have originated principally in the action of sun on unripe wood, which may arise from a combination of cause.

Job Department.

There is no more important addition to the service of the department, we stand ready to send of the work in the most efficient manner. Orders from abroad promptly filled.

BUSINESS DIRECTORY

Cards of five lines or less will be inserted in this column for \$5; every subsequent line 50c.

PHYSICIANS.

Dr. W. W. Crandall.
