The Town Board to audit accounts to-day. Have you seen a Liberal since the hills closed Tuesday?

The Democratic claim that the work of Tuesday was so fruitful of theirs. Dr. Cranda's majority in this place was 250, 108 ahead of the electors.

Lost—Strayed or stolen from the subscriber, a valuable Couch dog about one year old, any person returning the same will be liberally rewarded. E. Bennett, Andover Nov. 5th, 1878.

RECALCITRANT.—After this week we shall devote our entire time to making the Andover Advertiser one of the best local and family papers in Western New York. At the commencement of the fifth volume the ADVERTISER will appear in an entire new dress.

Alas! the poor animals! No sooner are the horses getting a little better than the pigs are threatened with an epidemic. The swine pest, it is stated, is on its way from Canada. The dogs, the cows, the cats, and all the rest of the quadrupeds will fall sick, we suppose, in their turn. The horse sickness will not be over come in vain if it sufficiently reminds us that, if animals depend upon us, we also depend upon animals; and if we are also taught that all our domestic beasts require as much sanitary care as man does.

The new postal card is 3 inches by 5 1/2 inches in size, made from a fine quality of card board, and is of a light buff color. A border of seroll work runs around the edge, while in the top per right hand corner is a stamp, consisting of 3 herald of Literary enrichment with stars and surrounded with elliptical scroll work.

The Erie Railway.—Of all the railroads in the country, none afford the traveler better accommodation, nor more comfort and pleasure in traveling, than does the Erie. A trip from Buffalo to New York, either by day or by night, over this road is a positive luxury.

School for Winter Students. A large class of young people can only attend school during the winter. By the usual arrangement of school terms, such students have the benefit of but twelve or fourteen weeks school during the year.
