We publish elsewhere a circular from the State Assessors to the several counties in of the State, with recommendations. We hope that our Assessors and all in the county will accept their recommends, and act accordingly with the assessments now in hand.

Is it right for a young lady to keep a light burning in the parlor until a very late hour Sunday evenings, in order to harrow the sensitive feelings of an envious neighbor into the belief that she has really got a beau? Answer deferred.

No runaways or anything of that kind to manufacture locals out of this week. It is strange that somebody can't get ran away with, or break a limb, so as to help furnish locals, and our undertakers are mad because our doctors have killed nobody during the past week.

Porter and Barney are opening a large stock of goods, among them some very fine articles, such as door bells, one style in particular far exceeds anything we ever saw of the kind. Call in and see it. Also the American broiler, window cornal brushes, cutlery, etc.—New advertisement next week.

The citizens of Hornellsville are making extensive arrangements to celebrate Decoration Day. As heretofore they do not intend to be outdone. The Day has always been observed in a most befitting way, and we believe that not a year has been missed by them, which, to say the least, does them honor.

On Friday night a young man named Pat Maloney, robbed a stranger who was asleep in the Corning depot, of a ticket to Chicago and a sum of money, and then took the train westward. He was arrested at Hornellsville, and brought back. The ticket corresponded with the "stub" of one sold to the stranger.

The Rochester Union says: "The slide at Portage, on the Valley Canal, is now in order, and it was expected that the second section would be ready for boats last Monday. This is getting the Valley line ready for business in good season, for which credit is due to the energetic efforts of D. H. Scanlin, Superintendent, and his assistants."

The long disputed controversy between the Comptroller of the State of New York and the Treasurer of Genesee County has at last been settled by an order from the Comptroller directing that credit be given to Genesee County for $2,054.06, for returned tax against the "Buffalo and Detroit Transportation Company" in 1869.—[Batavia Advocate.

If there is one thing more than any other that will crush all the best impulses in a man's breast, that will drive all beauty from his mind, that will fill him with a diabolical desire to dabble his hands in human gore and fling it around, as the laughing child sports with bunches of blood-red grapes—it is to struggle through the heat of the sun, the dust of the street, the ribald jests of the heedless crowd, in order to catch a freight train; to sink panting and exhausted upon the seat of the caboose-car, and gradually regain consciousness while the train switches and jams about the depot for two hours. —[Ex.

The Editor of the Brookport Democrat has had an invitation to join a base ball club, hear him take on:

We have been invited to join a base ball club, and have been given time to consider. It is a subject of vast importance to us; and we have considered it well. Base ball playing is beautiful science, provided one is lucky and don't get hurt and knows enough to, quit when he gets tired and hungry and is careful and don't cool off too suddenly, and comes out ahead and has little occasion to swear at the umpire and thus stir the bile in his system. We might also show that, making some allowances, it is a very innocent, instructive and amusing pastime. But to what purpose? Not having attained to the degree of hardihood which renders one insensible to the pain of disjointed members; and carrying about with us, in the shape of an enlarged knuckle, a reminder of child-hood's sunny hours, when base ball was with us a grand passion, we now claim exemption on the ground of past services and if that is not sufficient, then, conscientious scruples against indulging any more in violence of that sort.

A confidence chap was in town last week, and slid out without paying his hotel bill. He was a *Creek* young man and borrowed a satchel of mine host Scoville of the Eagle at Mt. Morris, leaving an old one in place of it. He was quite free with his orders at the Nunda House for several days, and then quietly hired a livery to take him to the depot. He was formerly from Geneseo where his father was in the grocery trade and his name is Frank Crank. There are more *cloud* busts in broad cloth than in rags now-a-days. He left a bill of $8 unpaid at the Nunda House and $10 at the Eagle Hotel, Mt. Morris.—[Nunda News.

Free Soda Water.

Benton & Crandall will draw Soda from their fountain on Saturday, FREE commencing at 9 o'clock in the forenoon and continuing through the day.

Amputated.

Dr. S. S. Allen, of Wellsville, a popular physician of that place, has been suffering from a badly diseased foot for the past seven years. On Monday, Dr. Up Degraph, of Elmira, was called and made an amputation, assisted by the several physicians of Wellsville.

Attorney and Counselor at Law.

Mr. H. W Sanford, of Addison, will open a Law Office in this place about the middle of June. Mr. Sanford comes here well recommended, as possessing ability and a his straightforward business man. We have no fear but what he will receive a liberal patronage from our citizens.

Fire.

A fire at Canaseraga on Sunday the 18th inst destroyed the Hotel owned and occupied by Mr. Pratt, including the barn and out-buildings and the Erie freight house. Mr. Pratt's loss amounts to about $7,000 insured for $4,500. The Erie railway's loss is about $500. The cause of the fire is unknown.

Fires at Woodhull.

On the 9th the house of Rev. Hudson Seeley was burned to the ground during the absence of the family. Cause unknown. On the 11th the house of Horatio Guernsey, Esq., was destroyed in the same way. Insurance $1,000.—This place is a noted one for fires, about a dozen having occurred within that number of months.—[Elmira Gazette.

Carriage Factory.

We one day last week visited the carriage factory of C. N. Ball, Wellsville, where we found a number of first-class carriages, of most every description and finished in the best style. Mr. Ball's reputation for good work is second to none. He uses none but the best of material, and hires none but the best of workmen. See advertisement in next week's paper.

New Time Table.

The new Time Table for the Erie Railway took effect on Monday of this week, the changes are slight, yet they are just enough to miss the trains. No. 6 going east at noon passes here at 12:05 P. M. No. 9. west, 1:15 P. M 32 east, accommodation, 4:51 P. M. 19 west, 5:38 P. M. Way Freigh east, 5:40 P. M. Way freigh west 6:30 A. M. We shall publish the full table corrected next week.

Fire.

On Saturday night about 9 o'clock on the farm owned by Jason Hunt, in the town of Greenwood, was totally destroyed by fire, and everything it the barn consumed. A team belonging to Martin Donnelly, who had just rented and moved upon the farm, was burnt up with the barn, he knowing nothing of it until the next morning. The loss falls heavy upon him. The loss on the barn was about $800 and insured for $900.

Take Warning.

On Sunday last some boys found it fun for them to throw stones at the insulators on the telegraph poles until they succeeded in breaking one of them. It will be well for them, probably, to understand what the law is in regard to the matter, and that the company have served notice upon the agents to prosecute in every case. The fine is $150 and imprisonment 60 days. It will be well for some of the boys in this place to be careful how they break insulators hereafter.

Important to Tax-Payers.

Persons liable to Internal Revenue special taxes, for business done at any time during the month of May, who fail to make the return of such special tax and pay the same to the Collector or his Deputy prior to June 1st, will be required to pay a penalty of 50 per cent. in addition to the amount of taxes for which they are liable. This rule will apply to subsequent months, and assessments will be made on the same principle, if the tax-payer fails to make the return and pay within the month in which the business is commenced. The proper way is to pay the taxes on or prior to commencing business. Such is the ruling from the Department of Internal Revenue.

Cure of Gold Fish.

Seth Green gives the following instructions for taking care of gold fish: "Use any well, brook or river water that is not impregnated with mineral.—Change the water when the fish come to the top and stay there, and breathe part water and part air. Take out nearly all the water, leaving enough for the fish to swim in; and fill the vessel with fresh water. Never take the fish in your hand. If the aquarium needs cleaning make a net of mosquito netting and take the fish out in it.—There are many gold fish killed by handling. Keep your aquarium clean so that the water looks as clear as crystal. Watch the fish a little and you will find out when they are all right. Feed them all they will eat and anything they will eat, worms, meat, fish, wafer or fish spawn. Take care that you take all that they do not eat out of the aquarium. Any decayed meat or vegitable in water has the same smell to fish that it does to you in air. If your gold fish die it is attributable, as a rule, to one of three causes—handling, starvation or bad water."

Boy at Home.

Some time ago a gentleman went to a neighboring city to buy some furniture. After making his purchase and coming home, he enquired the price of the same articles in this village. Judge of his surprise when he found he had paid 5 per cent more than were asked for the same articles in this town, besides the money out of pocket for railroad fare. It was always his darned luck to get sold, he said. This is the way with a good many, and we always feel like hollering "hallelujah" when they get bit. While goods are being sold so low as in Andover, the man who labors under the delusion that he can make it pay to go out of town for his wares, should be sent immediately to Utica.

The State Assessors

Will hold meetings in the following named counties as follows:

Genesee county, Tuesday, June 2d, at Batavia.

Wyoming county, Wednesday, June 3d, at Warsaw.

Livingston county, Thursday, June 4th, at Geneseo.

Steuben county, Friday, June 5th, at Bath.

Erie county, Monday and Tuesday, June 8th and 9th, at Buffalo.

Chautauqua county, Wednesday, June 10th, at Mayville.

Cattaraugus county, Thursday, June 11th, at Olean.

Allegany county, Friday, June 12th, at Belmont.

Accident in Hinsdale.

Mr. Fred Hale, of Orannel, who has been engaged at work on a canal boat at Hinsdale, met with quite a serious accident last Monday. He had been drawing lumber from Yalesaw mill to the Buffalo depot, and when he had crossed the bridge, near the cheese factory, unhitched the horses. The wagon stood on the side of a hill, and he had blocked the wheels of the wagon, but it seems not sufficiently to hold the load. While in the rear of the wagon it commenced moving, hitting him and throwing him to the ground, the hind wheels of the wagon passing across his breast, bruising his arms considerably, and injuring him to some extent internally. Medical aid was at once summoned, and he is doing as well as could be expected.—[Olean Times.

New Cars.

Last fall the Erie Railway company purchased thirty-seven passenger coaches and two hundred freight cars from the Jackson & Sharp car company at Wilmington, Del. These cars were built for the Boston & Montreal road, but were never delivered on account of that company becoming bankrupt. A number of the passenger coaches have just had wide gauge trucks put under them and put into service. Their interior finish is almost equal to the chair day coaches, the wood work being of black walnut, maple and ash and the arm rails of the seats nickle plated. Ventilation is well provided for along the top, center and bottom of the car. They are a fine improvement and will be an acquisition to the Erie Railway as furnishing the best cars and accommodations for the public of any road in the country.

Accident at Genesee.

From the Livingston Republican we learn that on Saturday, the 9th inst., a little son four years old, of Mr. J. C. Conner of this village, was playing in the machine shop, he spied some blocks under the table of a rapidly revolving circular saw, and crawled under the table after them. While on his hands and knees, picking up the blocks, he chanced to raise up, when he came in contact with the saw, and a gash was sawed in his back some six inches long, cutting both shoulder blades, and slightly injuring the spinal column.—When the boy felt the saw strike him he involuntarily threw up his right hand, when the saw took off a portion of his thumb and forefinger, and grazed the tips of the others. Hopes are entertained of his recovery, although he now lies in a critical condition.

This is the Way

The local editor of the Olean Times goes for Brother Shankland of the Hinsdale Union: "The horse of the deputy sheriff came nearly foreclosing the earthly career of Bro. Shankland, of the Union, at Little Valley, a few days ago. He had started to cross the street near the brick city hotel, when the horse, with mouth wide open, head and tail erect, came tearing down the street like greased lightning down a sapling, startling our friend of the quill in as effective a manner as the vote on Supervisor at the last Spring's election in his town. He neither grabbed for the hits, nor hollered whoa, nor played any of the heroics, but turned on his heel and streaked for the hotel like shot from a shovel, muttering to himself, "when I go across the street I pray the Lord my soul to keep, if I should die before I cross, let not my death be by a hoss."

Talk up your Town.

Talk up your own town, and your own townsmen and business men. Give encouragement to every useful and creditable enterprise in your midst, for as certain as effects follow causes, so certain will every enterprise of merit repay every citizen. We cannot live into ourselves, nor discourage any movement in behalf of a place without inflicting upon ourselves a personal injury. If you see a needed improvement for the town, demand it and talk it vigorously until the whole community is impregnated with the idea; until a storm of public sentiment compels the work. Don't stop because some poor mummy, out of whom has withered all public spirit and love of advancement, moans out his sepulchral whine, "it wont pay." Show to your live fellows that it will pay, and leave your mummy to his embalm-ed and swaddled dust and stupidity, and by and by you will see the result of your courage and talk in universal improvement, increased facilities and business, and a broad, liberal, generous, public spirit that pervades and verifies and makes pleasant and beautiful every place where it enters.—[Exchange.

CORRESPONDENCE.

ALFRED CENTRE, May 26, 1874.

MR. EDITOR:—According to the custom of all newspaper correspondents, they always commence by telling what kind of weather they a e blessed with. To be up to the times we will tell what kind we are having, which we can do in very few words. It is a mixture, and a good one at that.

Rev. N. V. Hull and lady have left town, to be abroad some time week in attendance upon the meetings of the South-Eastern, Eastern, and Central Associations. We wish the gentleman and his estimable lady a very pleasant time.

The Reading Room Association of the University has been to a large expense in fitting up a room for their use. They have now as fine a room as can be found in this section. There is a library in connection with it containing over 4,000 volumes, and you will find all the leading daily and weekly papers, and magazines and other periodicals upon their tables. On Wednesday evening, June 3d, 1874, they are to have, in the chapel, a short literary entertainment, to be followed by a social. [illegible] can have a good time. Refreshments, consisting of ice cream, cake, confectionery, &c., &c., will be served to all who may wish to partake. The proceeds are to be devoted to defray the expense of fitting up their new room.—All are invited.

Mr. C. B. Crandall, who is a Dentist by profession, has moved his office from the Tremont House to the Photograph Rooms of Irving Saunders, where he is ready to attend to the wants of his numerous customers.

On Friday afternoon last, the students of Alfred University transplanted about one hundred young overgreens. Quite a number were purchased by the "gentler sex," and by their own hands the dirt was placed around the roots.—Speeches were made by Profs. Allen and Coon, Rev. B. F. Rogers, and others. Take it all around, everything passed off finely.

President J. Allen is to deliver a lecture on "Cuba" for the benefit of the Athenean Lyceum, on Monday evening, June 8th.

The population of this place has increased one. It is a boy.

WEST ALMOND, May 27, 1874.

ED'S ADV. & FREE PRESS.

GENTLEMEN:—We are not located on the Erie Railway, or any of its branches, yet are moving on in the busy wheel of time rolls its round, and by consulting the almanac with the general appearance of nature, it is found that we are nearing the summer months.

Farmers are not through with their planting and sowing, and many may be seen traversing their broad acres that they may reap when the harvest shall come.

Our cheese factory, which was purchased this spring by J. M. Johnson, started some time ago, and is doing good work. One mile at 15 cents has been made to Wm. Burdick, of Alfred.

S. H. McGibbony has his new wagon and blacksmith shop completed, and is now ready to fill any order in his line. Bess can't us best as a workman.

W. C. Knight still continues to sell goods as cheap as can be found in the county; notwithstanding they have to be hauled by the overland route some eight miles.

Mr. Hills, proprietor of the Weston Hotel, is still doing what he can to make it pleasant for his guests. He also sells groceries, dry goods, &c.

P. J. Perkins, from his shoe shop, finds time now and then, to do a little courting, but then as we have no license in town and little if any whiskey, new business is dull, so we can't support even one of the legal family.

Our District school is passing off quietly under the charge of Miss Halsey, of this town. The number of pupils in attendance is not large, yet Yankee-fied enough to compensate for number.

The young gentlemen and ladies of the school have each a Debating Society, conducted upon a firm basis, which prove a success and a great help to the student.

There is a large graduating class this term of persons thoroughly prepared to do efficient work in teaching.

A. STUDENT.

A Pleasant Summer Resort.—Riverside in Allegany County.—Charming Scenery.—Nice Drives.—Quiet Comfort and Pleasure.

EDITORS ADVERTISER & FREE PRESS.

SIRS:—The near approach of Summer induces Gentlemen of the cities and villages to think of green slopes, pleasant rambles in the woods, long lazy, pleasant meadows to look upon, large airy rooms to occupy, fine carriages to ride in, with careful drives and pleasant escorts, to be enjoyed free from irksome restrictions and fashion, to those who seek rest, who kneel the restorative influence of pending air and who delight in charming scenery. Riverside in our county is an attractive spot. The Genesee River brightens the landscape and beside its winding course there is most pleasant scenery all around. Mountain springs and Brooks are near by in which speckled trout abound. The Hotel this season is managed by Mr. J. C. Stannard wife and daughter experienced accommodating and enterprising, and they intend to make this house second to none in this section, in all essentials of comfort and good cheer. The terms are [illegible] for the first season only about one half the price usually charged, to induce those seeking quiet rest, to patronize this pleasant resort. Terms for board, a large airy suit of rooms, finely furnished, four to five dollars per week. Twenty fine furnished room will be rented the present season.

Riverside is only one mile from Wellsville, Genesee station on the Erie Railway. A new resort, at which place you will find the Riverside Collegiate Institute, conducted by Professor J. S. Bengham and wife, assisted by the best Teachers in the State, in a flourishing condition, and several nice residences, and many more soon to be built, there is one now in process of completion by Mr. Simmons, the founder of Riverside, which when completed will be second to none in the County, its estimated cost will be about thirty five thousand dollars. Riverside we predict is soon to be one of the best places to locate for a permenant home in New York State.

More some future time Yours Truly.
