

### BEAUCHAMPEL'S STATE CONVENTION

The present administration of Governor Dix is a most singular one, and the only one in our history that has been organized by a man who has been in Albany for many years, and there is no reason to believe that the return of a Democratic administration would be the appearance of another Speaker Hancock and the kind of influence that he has exerted. Those who vaguely expect "reform" and other kind of legislation from the present administration see in Connecticut and New Hampshire precedents which they may expect. In New Hampshire the Democratic Legislature has been organized and the Democratic party has been placed in a position to make a successful contest for the Governorship of that State.

### The honor that was too sacred to allow Frank Moulton to be put on the Committee appointed to investigate it.

The honor that was too sacred to allow Frank Moulton to be put on the Committee appointed to investigate it, was not too sacred to deter the "natural friends" from telling his story to the Albany Advertiser. The Albany Advertiser has published his story, and it is a very interesting one. It tells of the many wrongs that were done to Moulton, and of the many wrongs that were done to the people of this State. It is a very interesting story, and it will be read with interest by all who are interested in the history of this State.
