LOCAL INTELLIGENCE.

Churches and Societies.

M. E. Church—Rev. S. D. Cook, Pastor. Services every Sunday at 10½ A. M. and 7½ P. M. Sabbath School at 12 M. Prayer meeting each Thursday evening at 7 o'clock.

Free Baptist Church—Rev. E. S. Sherer, Pastor. Services every Sunday at 10½ A. M. and every other week at 7 P. M. Sabbath School, 2½ P. M. Prayer meeting, Wednesday evening, 7½ o'clock.

First Presbyterian Church—Rev. G. B. Nutting, Pastor. Services, Sunday at 10½ A. M. and 7½ P. M. Sabbath School, 12 M. Prayer meeting Thursday evening at 7½ o'clock.

Seventh-Day Baptist—Rev. T. R. Williams pastor. Services Saturday 10:11 A. M. Conference meeting immediately after services.

St. Ann's Church—Father Kinsella, Pastor. Services Sunday at 11 A. M. Sabbath School at 10 o'clock A. M.

Andover Lodge, No. 358, F. & A. M., meets at Masonic Hall on the 1st and 3d days of each month at 7 o'clock P. M.

JOHN SEAMAN, W. M.

GEO. A. BURKE, Sec.

Forest Home Lodge, No. 578, I. O. of O. T., meets every Monday evening, in Good Templar's Hall, Bolivar Building.

J. MADDOX, W. C. T.

MARGIE BENNET, Sec'y.

Trade lively.

Weather unpleasant.

A poor time to dig potatoes.

Our streets are quite muddy.

Not many oats in this market yet.

Potatoes on the rise, butter likewise.

"Spirit of the Age."—a glass of cider.

The time for corn husking has arrived.

The first snow of this season fell on Tuesday.

Still worse—to thrash buckwheat and gather leeks.

The Cuba band has been purchasing a new uniform.

Tuesday was cold enough to announce for a winter day.

About one quarter of the potatoes are dug in this section.

The railroad company is sawing their wood at this station.

Burrows & Young are receiving new goods nearly every day.

Slating of the new M. E. church spire has been commenced.

Go and see the Indian exhibition tomorrow night, at Ellis' Hall.

The weather favored with a cold yesterday from S. M. Thachler, Esq., editor of the Hornellsville Times. He is looking quite hearty, notwithstanding the fierce attacks of the Tribune.

Mr. O'Donnell is doing quite a business in the line of putting up weather vanes. He placed a very handsome one upon the M. E. church, and is now putting one on the Baptist church.

What fine evenings these are for "old women" to sit around the stove and talk about their neighbors, and "how Mrs. ——, has got a new bonnet, and I can't see how she can afford it."

When you see a man, about these times, with his hat covered with hay seed and his coat decorated with cobwebs, it isn't absolutely safe to call him a stranger; he's been up in the barn after stove pipe.

On Saturday evening, last, Thomas Connally, of Cheneung, was knocked down and robbed of $150 in money, his watch and coat, on the road near the Chenango depot. He had come up to Andover Saturday on the nine o'clock train. He lay senseless for half an hour after he was hit.

Last Monday a lady while on one of the "good" crossings on Main street, stumbled and fell flat into the mud. She was rescued by some passing gentlemen just as she was going down the last time.

We received a social call from our old friend O. W. Vantine, general agent of Marvin Oil Company of Jamestown, Tuesday. Mr. Vantine is a gentleman with whom it will be a pleasure to our citizens to deal with.

Mrs. Evers et has just returned from the city with a large and well-selected stock of Fall and Winter millinery goods which she will sell at very reasonable rates. Be sure to call and examine her goods and learn prices. See advertisement in another column.

Charles Wildman of Whitesville is getting up a new Hearse, which is being painted by Mr. Bronson at the shop of Frank Lee. It will, when completed equal any in this county, for beauty.—Mr. Wildman is doing a large business at Whitesville in that branch. He has a large stock of undertakers goods.

Mr. O'Donnell is now making a move in the right direction. He is making arrangements to put up some very fine lamp posts and lamps upon the corners of our streets. This is what we have needed so long, with our poor walks, and we are all glad to know that the most of our business men are taking hold of the matter in earnest.

The Hornellsville Herald has the following: Jasper against the world! The largest potato yield on record.—A farmer living in Jasper planted one pound of potatoes last spring from which he has raised 600 pounds of potatoes or 11½ 2 bushels. This farmer has other plantings together with the one referred to, which he will doubtless give in detail to the Herald.

We have over 700 subscribers who are behind upon their subscription. Is it necessary for us to ask you individually to remit the amount? Our agent who will soon be after you, is reported as being a great eater, and such arrangements are made that he will remain for his digestion for his health) from one to four meals at the house of each subscriber. Consult your own interest, and ours as well.

It is thought absurd for a man to sit and wait for trade. Mossmen in business do not, in fact, make large fortunes; "Eut," say some men, "I cannot leave my store to go about and stir up trade." Perhaps, indeed, he cannot, but he can send out winged messengers of enterprise in the shape of such lively advertisements as will cause people to "stop and talk" with him before going elsewhere. Advertisements are good scouts and first-rate skirmishers.—Rowell's Reporter.

It is said that deer are more than unusually numerous this year, and are quite bold in their intrusions upon the haunts of men. Yesterday morning a male deer came from the woods on east hill, at West Salamanca, sauntered leisurely down to the railroad track near the residence of W. P. Crawford, walked the track some distance, and then took refuge in the woods again. On Tuesday of last week a female deer was seen in the highway near the Jones School-house in the town of Ashford.—Salamanca Republican.

The Indiana Soapings.

A troupe of Indians will give one of their rare entertainments at Ellis' Hall to-morrow evening, (Friday) which should be seen by all, as they will exhibit the various games of the prairie, soaping scenes, &c. Admission 25 cts. children 15 cents.

Attention.

There will be an Oyster supper and Festival held in the basement rooms of the new M. E. church, on Wednesday evening, October 21st. Proceeds to be used in furnishing said church. A cordial invitation is extended to all. A good time may be expected.

One Thing More.

We, as one of leading men, are moving in the matter of building a Look-up, which we certainly need. We hope that those who are working the matter up, will not allow it to drop, until they have secured such a building. It will cost but little and should be built at once.

Elmira Jail.

So much has been said about the insecurity of the jail at Elmira and so much blame attached to the Sheriff, we are glad to find that the grand jury at its recent session entirely exonerated the Sheriff from any fault in this respect. In a sanitary point of view, this complimentary has very highly.

Stench with a Blessing.

In a game of base ball at Angelica, last Friday, one of the Angelica boys, John Hart, took a ball from the bat, not exactly on the fly, but squarely against the side of his face, nearly breaking his jaw-bone, knocking out three teeth, etc. All of which goes to show beauties of our "national" game.

Incendiarism in Cuba.

On Saturday evening, Oct. 24, at about 1 o'clock a fire was discovered in the basement of the Cuba House. The alarm was given, and the inmates of the house aroused many of whom were nearly suffocated with smoke. The firemen soon extinguished the flames. A man or any human being who will set a building on fire filled with human beings, and then at midnight when all are asleep, should be strung up under the nearest tree.

An Accusation.

On Friday last, while Frank Langworthy was unloading cider at O'Learys, his team became frightened and ran away, and when they reached the store of L. D. Cobb, they attempted to ride over a horse and buggy which was hitched in front of the latter named store, the accusation was successfully made; but the landing was bad, as they came down on the pooey, frightening him badly, and ruined the use of the buggy. No damage was done to the horses.

Base Ball.

The Canisteo Base Ball club played the Friendship boys on the Belmont ground on Saturday of last week. The day was bad, as it rained most of the time. The Friendship club were all heavy men, and strong batters, while the Canisteo club were in a majority light men. The Friendship club proved too much for them by a score of 44 to 19. Rather a bad beat but the Canisteo boys we think can do somewhat better than they did on that day, but they should judge from what we saw of the game that the Friendship club would be a little too much for them at any time.

Fire.

On Saturday evening during the storm, at about 6 o'clock, a barn belonging to Robert Boyd, about two miles northwest of this place, was struck by lightning, which set the barn on fire totally destroying it. When the bolt struck the barn, Mr. Boyd and his son, and three other men were in the barn. The bolt struck at the center of the barn and come down and passed to the floor, setting everything on fire that it passed striking the floor within twenty feet of Mr. Thomas Boyd. All hands at once went to work to put out the fire, but seeing that nothing could be done in this direction they turned their attention to the getting out of the stock.—There was at the time, some 30 or 40 head of cattle, horses, hogs, &c. Everything in this line was taken out and saved, with the exception of one full grown pigand a litter of pigs, which were burnt up. In the barn, is estimated to be somewhere between 900 and a 1000 bushels of oats, about 100 bushels of wheat, and between 50 and 60 tons of hay, and a quantity of peas, all of which is destroyed. The barn was very large and well adapted for the keeping of a large dairy. Mr. Boyd had an insurance of $800 on the barn, nothing on contents. This is cleaning out a summers work in a hurry, and leaving a man without barn or fodder at the commencement of winter.

Dr. James Hedley, the Orator and Physiognomist to Comine.

We have no little pleasure in calling the attention of our readers to the above announcement. Dr. Hedley of St. Louis, Mo., the eminent Physiognomist and distinguished orator is to commence a course of eight lectures on "Human Character" and the art of reading it in the face, next week Tuesday, at Ellis' Hall.

Teachers Association.

ANDOVER, Oct. 14, 1874, 5 p. m.

The teachers of the town of Andover, met at the school house in the village of Andover, for the purpose of forming a Teachers Association, composed of the teachers of the town and vicinity. After Commissioner W. D. Renwick had stated the advantages of such an organization, the teachers organized themselves into an association by electing J. M. Rutherd, president; Miss Nellie Bundy, vice-president; and S. G. Burdick, secretary.

A committee of three, consisting of Mrs. M. A. Burdick, Mr. S. M. Austin, and Miss Mary Robinson, was appointed to prepare a programme of exercises for the first session of the association. While the committee was out a several speeches were made by members for the purpose of more clearly understanding the advantages of an association. The committee having returned to the session room, was called upon for a report when the chairman reported the following:

1. Music.
2. Prayer by Rev. Sherer. Roll call with sentiments.
3. Introductory by the President.
4. Change of Seasons by Miss Ritter.
5. Recitation by Miss Nellie Potter.
6. Exercise on Division, Frank F. Green.
7. Exercise on Multiples, Stephen M. Austin.
8. Critics Report.
9. Music and Report of committees.

Adjournment.

On motion, Mrs. Burdick was elected critic for the next session.

On motion Miss Kate O'Leary, Miss M. Robinson and Miss Ritter were elected a committee to arrange a programme for the second session.

On motion the President, Vice-president and Secretary, were elected a committee to draft a constitution for the Association and present it at the next meeting.

On motion the association adjourned to meet at the school house in the village of Andover, Wednesday evening, October 28th, 1874, at 7 o'clock, p. m. A cordial invitation is given to all teachers and friends of education to attend and help make our Association a success. S.

Belmont Correspondence.

The regular season of fall weather has commenced, and woe be to the man who has not dug his potatoes or thrown on his buckwheat. He is a shiftless louse, and ought to be compelled to go without buckwheat pancakes and roasted murphies during the coming winter. But this is not news.

We care just now being regaled with a course of physiognomic lectures by Dr. James Hedley. The country is over run with Prof.'s, Dr.'s, and there isn't a barn-yard fence in North America, but what is plastered with the nostrums and humbugs of self-styled "imposters, and quacks. Therefore it is refreshing, to meet a genuine Dr., who knows his business, and performs all he advertises. Dr. Hedley is a philosopher and ascientific gentleman in every sense of the word. He has about two hundred life size genuine painted portraits of the good, bad, great, small, long, short, homely, handsome, lean, fat men and women of all ages of the world, that are hung up for exhibition in the lecture room, which probably cannot be found outside of the Academy of Art, in any one collection. These paintings are fine specimens of art, and in the mute faces can be read the history of the world. To see them, is alone worth the price of admission to the lectures, which are full of interest, presenting new and original ideas of the art of reading character in the human face. I referred to this more particularly, because I understand that the Dr. is to go to your place when he leaves here, and the people of Andover and vicinity may expect a rare treat if he does visit them.

Next week is court week at Angelica and the calendar will contain sixty-four cases. Judge Barker holds the term.

Caleb S. Hall returned from Rochester on Monday last with his sheepskin in his pocket, a full pledged attorney and counsellor at law.

"A man of Law, a man of peace,
To frame a contract or a lease."

Mr. David Easson is lying very sick with typhoid fever, and fears are entertained that he may not recover. Mr. Wesley Palmer has been very sick, but is recovering slowly. The churches in our village are not very well, and there is a slim prospect of their getting seriously better. The Hon. H. Ward is improving the appearance of his house, by having an addition built. Mr. G. T. Nobles has gone to Illinois to look for a place to settle a home.

Go to the Cash Emporium and buy your Flour, a fine stock of all kinds at bottom prices.

Upon motion the whole estimate for the coming year was adopted.

The chair announced that the next business in order was to elect two trustees in the place of G. M. Barney and D. S. Bradley.

James McGinty, E. S. Barnard were appointed tellers.

Mr. Barney was re-elected by a unanimous vote.

D. S. Bradley was also re-elected by a unanimous vote.

Mr. Bradley, upon the declaring of the vote, asked to be excused from holding the office of trustee. He had held it ever since the organization of the school and thought there were others who should take a portion of their labors.

On motion to rescind the vote, carried and J. H. Elwell was elected as trustee.

Mr. Bradley was elected a member of the board at the first organization and has served as a member ever since, to the perfect satisfaction of the district. He is a true friend to our public school and has labored hard to advance our school to its present standard, which is second to none in the county, and to him much of the credit belongs.

Upon a unanimous vote the board was directed to lay a tax sufficient to put two coats of paint upon the school building.

The school under the management of Prof. Burdick, is in every way a success and we feel confident that if the people will sustain him and the school as they ought, it will rise above any school in the county.

Cattle.

James Williams will have a number of fine milch cows here for sale the forepart of next week. They are all an extra breed of cows, and will be sold at a bargain.

Annual School Meeting.

On Tuesday evening at half past 7 the annual school meeting was called to order by Dr. F. J. Baker, who nominated D. S. Bradley as chairman. Motion put and carried.

On motion Dr. F. J. Baker was chosen secretary. Minutes of the last annual meeting read and approved. The treasurer being absent, no regular report was had. General footings showed that the board would have, after paying all bills of last term, about $30 surplus.

The following estimate for the coming year, as made by the board was read. The amount was as follows:—Teachers $1,750, wood $90, janitor $60, insurance $60, total $1,956.

Upon the question of insurance something of a debate took place, D. B. Spaulding, thought that the district was able to insure its own property, for the reason that all insurance companies were getting rich in the business.

Monzo Bundy thought that the district was able to insure its own property, he argued in favor of an individual keeping his property insured, but thought at the same time that this school district was better able to insure its own property, then to pay the high rate charged, 2 per cent.

Mr. Phinney was quite undecided, in fact he did not know whether he was in favor of insuring or not. Mr. James Moffinty and Wescott expressed themselves as opposed to any insurance. Mr. John Prest, D. S. Bradley, Drs. T. and F. J. Baker, Rev. Shearer, and O'Donnell favored an insurance. On motion to insure the building for this year. Carried.

Correspondence.

Messrs. BARNARD & GALATIAN.—I thought the action against D. P. Witter, Esq., by the town of Willing had been sufficiently aired through the papers, so that the "filth leg to the saw horse" in the Reporters office could hold his side until such time as he could fully spread himself in court, open his throttle valve, and let off the great amount of gas, that many have accumulated therein during the intermediate time. But it appears from the Reporter of September 30th, that the useless appendage in said office, had to blow his whistle or burst, hence the article in said issue entitled "Willing and Witter." Willing is my *sans de plume* I respond cheerfully, though said article escaped my attention until recently.—The announcement of the article in question is a repetition what he wrote last spring. That was fully answered, then suffice it to state that Mr. Witter settled all of his military accounts with the town board, to their entire satisfaction, Ackerman included. His mud drags in the complaint for a breast work I suppose to hide behind in the days that are coming. What is the complaint in the action. It alleges in brief, that the defendant was supervisor of Willing during the years of 1861 2-3 4 5-6 and 7, during said years he received divers bonds and other funds to pay bounties to soldiers that enlisted under the drafts of the President, made at divers times, of which the plaintiff does not, but the defendant does know all about. What was this action brought for, and why does it come so persecute Mr. Witter? If he has no blame to himself he ought to have forgotten paper. He charges defendant with "villainary expeditions." At the commencement of the action plaintiff served a copy of his complaint on defendant, said copy was but a mere jargon of words, without meaning so much as that defendant refused to put in an answer, there was nothing in it that called for one. In time he served an amended complaint on defendant. Again, the action was noticed for trial at the June Term of the supreme court. Defendant appeared and strongly urged that the case be tried at that court.—Plaintiff claimed that he was not, and could not get ready for trial and to get out of his tight, he moved to have it referred.

I think that part of his allegation amount to this. It was expedient for Ackerman to remunerate the action to secure a resolution and it was expedient for his attorney to get it referred because there was no chance for an adjournment. The people are always delighted to find an honest man not only financially, but politically, he was the noblest work of God." Would it not have been more in keeping with a gentleman if the writer of said article had said the town or its officers there in mentioned pay on them at the proper place for payment and not attack that star to his already over clung of article smacking strongly of rowdyism. I presume the anxiety of the good people who run Republican papers over their unpaid bills is magnanimous than the anxiety of the widow over her fifth unpaid milk bill.

WILLING.

SHONGO, N. Y., Oct. 13, 1874.

Items in Regard to Butter and Cheese.

The Butter market during the week has been somewhat active, although the price range about one cent higher, the amount brought in will not exceed that of last week. Roll butter, fortunately, is very scarce, and the retail buyers are complaining of the scarcity, and the poor quality generally retained for the retail trade by our merchants. The idea is wrong, although we will admit it is generally true, that the best butter is shipped, and the poorer quality dealt out at the highest price to home consumers, who give them their business. This is not only the case in Andover, but in almost every town. It is the same with other produce. We presume that there is stored in this place from 8000 to 10,000 bushels of potatoes, yet the home consumers cannot buy a peck, and several have been obliged to go without them, because they were unable to get into the country to get them. Yet the same class of men will put forward every effort to sell your goods from their shelves, because there is no prospect of their doing any better. If our merchants would take a little more pains to accommodate their home trade they would soon see a vast difference in this business.

BLACK CREEK Oct. 14, 1874

Messrs BARNARD & GALATIAN.—Sold October 1st; 250 boxes of cheese at 15 cents per pound to Akerly & Sill. Oct. 8th, sold 177 boxes to same buyers at 15 5-8 cents per pound. We make 14 cheese per day.

OREN EDSON.

From Steuben County.

We the undersigned farmers of Greenwood beg leave to state that on the 9th of August, 1874, we attended a trial of the mowing machine, so called the Eureka, manufactured in Towanda Bradford County, Pa. The trial was on a steep side hill of 7 acres, rough and stony and the farm of Mrs. Manning & Son, Greenwood. The ground was quarter pitch, the machine done its work splendidly adapted itself to the unevenness of the ground, left the grass in good condition for curing, easy on team, and durability of machine. We thought it impossible for any machine to mow on the ground. It is a direct draft machine which principle admits the cutting of a five feet swath with less labor for team than is required to cut a four feet swath on the old side draft principle. The Eureka machine being reversible is peculiarly adapted to cutting on side hills and in lodged grass, therefore we earnestly recommend it to all Farmers for the year 1875, for further proof call on the Agent, Levi Pease, Greenwood, Steuben County, N. Y., or at the works in Towanda, Bradford county, Pa.

Thomas Streeter, Mame Streeter, Leroy Smith, Aberham Krusen, Levi Pease. 3w298

Items of Interest.

If you want a good bottle of Bitters, ask for Dr. W. L. Catlins, for sale at your Drug Store.

The reason why people go to P. VanSickle's to buy Ready Made Clothing, Dry Good &c., is because they always find a fine assortment of first class goods.

The best grades of Flour, as well as lower, constantly on hand at Cole & Frisbey's, at low st possible prices.

General brake in prices in Dry Goods at P. VanSickles.

The largest and best assortment of Boots and Shoes at Cole & Frisbey's at reasonable prices.

"Mary had a Little Lamb."

Mary had a little lamb,
Its fleece was white as snow,
And when its wool for sale was brought
That wool was all the go.

The yarn it was so very fine,
The cloth from it was sent,
When cut, and sponged, and sewed, and pressed,
It made a suit complete.

Said a fellow roving by one day,
Where it hung out for sale;
"I'll just suit me to buy that suit
Its nobby, I'll go bail."

He bought that suit (twas at L. D. Cobb's,)
And went sashiuy down the street,
With step so high and heart so light,
When sweet Mary he did meet.

I know not why, but she really felt
An affection for those clothes;
The time was short when she agreed
To share his joys and woes.

Then come ye lovers, one and all
To our story, pray give heed
Just buy your clothes at L. D. Cobb's,
And your wooing it will speed.

Burrows & Young of the cash emporium are making extensive preparations for the fall trade. Their store is being filled from cellar to garret with everything attracting, taking the utmost precautions to obtain goods at bottom prices in order to meet the demands of the times. Only a reference to their trade of the Fall and Winter of 1873, need be made to ensure what their intentions are for the coming Fall. The campaign has already commenced, people throng their place of business, and show by their willingness to operate, that goods are sold at bottom prices, great inducements are offered in every department. In the second story will be found a large stock of boots, crockery, glass and stone ware. Carpeting, oil cloths, baskets, &c. The before and see for yourselves, and you will acknowledge that truth has been spoken.

Cole & Frisbey keep constantly on hand a good stock of all kinds of Groceries, which they sell at very low figures. Give them a call. Look at their goods and prices, they can't help but please you.

Bargains in Dress Goods at Cole & Frisbey.

It is an undeniable fact that Hoyt & Lewis are selling better goods and at lower prices than can be found in Western New York, and are receiving a large stock of seasonable dry goods, also a large stock of carpets. They are prepared to give bargains to all. Years of experience have given them a perfect knowledge of the wants of the people, and they always intend to retain their trade by giving value received.—Give them a call when in want of the necessaries or luxuries of life.

Go to Cole & Frisbey's for your dress goods. They have in stock a large assortment of greatly reduced prices.

A fine stock of Dress Goods at panic prices which defy competition at P. VanSickle's.

Go see P. VanSickle's stock of Prints, from 6 to 10 cents per yard.

A larger a finer, a richer, a greater variety, a handsomer, a purer, a blacker, a whiter, a more splendid, a better, a more costly, and last but not least the cheapest variety of dress goods now on exhibition at Simmons' Regulators ever before offered to this part of the American people.

Nothing so Successful as Success.

Magnetism a Matter of Science in its Application for the Cure of Disease.

Extraordinary Cures by Dr. J. P. Bryant, the Magnetic Healer, Rooms Nos. 36, 37, and 39 Powers' Block, Rochester N. Y.

Probably in no department of science have quacks and pretenders so injured the reputation and success of true scientists as in medicine. The efforts of reformers and discoverers in this branch of learning to use new principles and theories, are perpetually hampered by their abuse in the hands of impudent ignorance. The proper course to take, in regard to the remarkable advances which pathological science is making, is not to reject alike all practitioners who make use of new and valuable development, but to patronise only those who give indubitable proof in the success of their practice, and the testimony of the press and people, that they stand the true pioneers of medical science, and appreciate the scope and power of the methods and remedies they employ.

Dr. Bryant possesses a full and complete acquaintance with the principles of psychology, which must ever form the basis of correct medical practice, added to his remarkable magnetic power, complete in theory, aided and perfected by fourteen years of practice, and it is evident that his present increasing patronage is attributable, to some extent, to the wonderful cures he performed at the Waverly House in this city during in the years of 1864, '64 and 65.

While not professing to work miracles, or cure all diseases, Dr. Bryant can and does claim to reach many diseases heretofore thought incurable, and as the doctor is no stranger in Rochester, invalids need not excercise caution in consulting him.

We append a few names of persons cured by him from five to ten years since, who are living advertisements in his favor, all of whom were cured during his former visits to Rochester—and prove the permanent effect of his mode of treatment:

Hon. A. G. Wheeler, Police Justice, Rochester, N. Y. Partial Anchylosis of the Knee Joint, Cured.

Mr. Gideon Leavenworth, 139 Lake avenue, Rochester, N. Y., Rheumatism—Cured with one treatment.

Mr. Frank Wakeman, 22 King street, Rochester, N. Y. Inflammatory Rhumatism. Confined to his bed six weeks. Unable to move a finger or toe. Had tried the usual methods of treatment without success. Made to walk with one treatment, and cured.

Mis Martha N. White, Hinsdale, Cattaraugus county, N. Y. General Weakness, Spinal Pressure, and Female Weakness—Bed-ridden most of the time for two years, only able to sit up a few moments at a time. Cured.

Miss Jane Sheridan, 29 Edinburgh St. Rochester, N. Y. Hip Disease eight years. Obliged to use crutches constantly. Laid crutches and walked away, without assistance, after a single operation.

Miss A. Maria Wells, Walworth, Wayne county, N. Y. Sciatica of long standing; liable to walk without crutches for three years. Cured in one minute. Left her crutches and walked away.

Rev. George E. Havens, Avon, Livingston county, N. Y. Chronic Inflamation of the Knee Joints. Unable to walk without crutches. Made to walk as well as any one in two operations.

Miss Maria Pool, Johnson's Creek, Niagara county, N. Y. Hip Disease and Spinal Affection. Obliged to use crutches 31 years. Instantly cured, and left her crutches.

Mr. Jesse Blake, Livonia, Livingston county, N. Y. Stiff Ankle, caused by a wound from an ax. Very sensitive, and for two years unable to walk naturally.—Perfectly cured.

Mr. Alonzo Miles, Mannsville, Jefferson county, N. Y. Great Nervous Debility. Liver Complaint and Dyspepsia three years. Had been given up by Physicians as incurable, and advised to resort to a foreign climate as the only means of comfort.

Miss Hester Tuller, Mexico, N. Y. Paralysis of Optic Nerve. Made to see perfectly clear and distinct with two operations.

Mrs. Eliza Pitsen, 50 Blandina street, Utica, N. Y. Scrofulous Tumor eight years. Cured with ten treatments.

Mr. Joel Hinman, Willowvale, Oneida county, N. Y. When 23 years standing.—Perfectly restored with one treatment.

Miss Rose Waterman, Walworth, Wayne county, N. Y. Catarrh. Cured with three treatments.

Miss Mary E. Seely Elbridge, N. Y. Hip Disease eight years; seven years unable to walk without crutches. Has left her crutches, and can walk as well as any one.

Mr. Charles Gerham, Elbridge, N. Y.—Chronic Inflammatory of the Knee Joint. Partilage badly thickened. Four months unable to walk, except on crutches. Left crutches and walked away after one operation of ten minutes.

Mrs. Welcome Spencer, Collamer, N. Y. Fever Sore. Great suffering for years—Perfectly cured with four operations.

Miss Millie E. Short, Hemlock Lake, Livingston county, N. Y. Hip Disease, five years. Cured and left crutches.

Mr. Edwin H. Yates, Syracuse, N. Y. Cured of Hip Disease, and left his crutches in one treatment.

Miss Mary Barker, 176 State street, Rochester, N. Y. Bronchial Consuption Cured.

Mr. John McPharson, Mumford, N. Y. Diseased Liver and Kidney, Spinal Irritation and bad Constipation for eleven years Cured.

Mrs B. S. Colwell, Portville, Cattaraugus county, N. Y. Fatty Tumor. Cured.

Mrs Phoebe B. Watkins, 54 Scio street, Rochester, N. Y. Ovarian Tumor, Cured

Mr John Solsies, Clay, N. Y. Chronic Inflammation of the Kidneys and Bladder—Perfectly cured.

Mrs Harriet Lincoln, Spencerport, Monroe county, N. Y. Asthma, Perfectly cured in one sitting.

Mr. A. H. Tift, Pierrepont Manor, Jefferson county, N. Y. Bad case of Bronchitis, and Bleeding of the Lungs, Perfectly cured.

Mrs Catherine Flint, Linchfield, Herkimer county, N. Y. Spinal Irritation and Liver complaint; 40 years a great sufferer in fifteen minutes was restored to her natural condition, and perfectly free from pain.

Mr William Kent, 191 Niagara street, Buffalo, N. Y. Blindness. Eyes and eyelids nearly destroyed. Four months unable to bear a ray of light. Perfectly restored with five operations.

Mr E. P. Hubbell, postmaster at Geddes, Onondaga county, N. Y. Pneumonia, or Inflammation of the Lungs, with hemorrhage or bleeding or partial loss of voice. Perfectly cured

Mrs Nathaniel Knight, Webster, Monroe county, N. Y. Complete loss of voice. Perfectly cured.

Mr J. T. Bickenfield, conductor on Detroit and Toledo railroad. Deaf fifteen years. Made to hear distinctly in five minutes.

These are fact beyond controversy; the people named and thousands of others, who were sick, as stated, were cured by a natural process, far preferable to nauseous medicine and painful operations, and are now a few of the living evidences of the superiority of this method.

The great power employed is magnetism which power is of the most prominent to an immence extent, and this constitutes the healing principle, an inexhaustable supply being communicated through the physical organism by this unseen but not unfelt influence. Dr. Bryant is aware that such things will be regarded by most readers as fable tales, as every new development in the world's progress, whether in religion, science or morals, ever has been, and probably always will be, by the many who have ever been prone to substitute the fractional educational dogmas of the day for the living and universal truths that each successive wave of progress is periodically developing and offering to the acceptance of mankind.

Dr Bryant is candid, and may be trusted for honesty, and should not be shunned or denounced as a deceiver. Medical science is not yet perfected. The economy of human life and of health is yet much of a mystery. If Gallico should be imprisoned for his astronomical innovations; Fulton laughed at while initiating his steam navigation; Mesmer, a skillful physician, for his hypnotical experiments, Dr Bryant need not think to escape the shaft of obloquy as to the universal prevalence of his system which he innocently and enthusiastically anticipates. 29tw4
