The potatoe market not so lively this week as last, and buyers are not quite so anxious; prices somewhat lower.

In another column will be found the advertisement of Cole & Frisbey. They have a large stock of Dress Goods, Clothes, Groceries &c.

The stagings about the new M. E. Church have all been taken down and the build g, which is not fully completed, makes a fine appearance.

We should be glad to have friends in each town send us the election returns by mail as soon as the votes are counted, so that we can publish the whole vote as soon as possible.

We would invite the attention of our readers to the Advertisement of C. E. Niles, in another column. You will find him a good square man to deal with. Give him a call.

The Teachers' Association of the town of Andover is adjourned from Wednesday evening, Nov. 4, at 7:30, on account of the lectures being delivered here by Dr. Hadley. All lovers of education are cordially invited to attend.

Dr. Hadley's lectures on "Human Character" are being well attended and he receives the unqualified praise of those who listen to him. To those who are not attending, we would say, you are missing a rare treat. The course will positively close on Saturday evening next.

A Democratic lawyer in Allegany county conducted the negotiations and can tell just what it cost to persuade an editor in Allegany to support Charley Welker. He says he bought his man $90 last time he was authorized to pay. —Hornellsville Times.

He was authorized to pay $100, but Robert did not wish to be hard upon him.

Notice.

Is hereby given to all having accounts with me, or are owing me upon notes that they must call at once and settle the same. All accounts not settled at once will be placed in the hands of an officer for collection. I mean business and there will be delay in the matter will save costs to pay.

J. H. HEWELL.

Andover, Oct 27th.

Dr. Hadley's Lectures.

The course of lectures now being delivered by Dr. Hadley are very well attended and quite a little interest manifested by those who are in attendance. The lectures are instructive whether his hearers believe in the art of reading character by the face or not. There is something to be learned and ideas that we never thought of before, as regards ourselves. From a religious point of view every lecture is a good sermon. In his reading of character through the face, he has certainly been very successful, it being in the most of cases correct. His lecture of Friday evening, in many respect, was the best of the course, though we do not wish to have it understood that the other lectures were not good, for each and every one of them were worth something to every man and woman. We understand that Dr. is to visit Canaseraga next week, and we will say this to our Canaseraga friends, don't miss a single lecture in the course, turn out and take your children.

Markets.

The potato market is somewhat lower than last week, 40 cents being the highest paid for any lots, 35 and 38 for Chili and Peachblow, with but little sales on the part of the buyers to handle even at these figures. The Butter market remains about the same as last week. The choice brands of butter sell well, common and lower grades have fair accumulation on the part of the market which makes the market here at home quite moderate for these grades. There has been but few eggs moved yet. The shrinkage is dull and the price low, 40 cents being the highest paid for choice eggs. Apples remain about the same as last week, but few have been shipped, the demand is light. Some corn has been marketed the past week in small quantities at from 40 to 45 in the ear, the former being the ruling price. The shipment of dried berries from this section has been very good, but no great demand for them. Considerable many grapes have been sold at retail upon the streets this week at from 6 to 8 cts. per pound. Eggs have come in quite plentifully, a number of barrels have been shipped, and a large quantity sold to consumers, though buyers from other places, 26 cents per dozen has been paid for the most of them.

Dr. Hadley's Lecture on Temperance.

On Sunday evening last Dr. Hadley delivered an address on Temperance in the Presbyterian church, which was crowded to its utmost capacity, many being unable to obtain admission. We are safe in say that never in the history of Andover has such burning eloquence been uttered or such a soul stirring appeal been made to the minds and hearts of our people upon any subject.

In our opinion, the great aim of an address should be, especially in questions of social and moral reform, not only to satisfy the mind but to fire the imagination and melt the heart. This the lecturer of Sunday evening certainly succeeded in doing. His utterances were those of a soul trailer, loving and genuine; full enough of sympathy to answer every touch of nature. In spite of yourself not only heads and hearts are won, but you have been quickened and strength met in your sympathy for the struggling outcast, the feeble and sick and way ward but human still. Nor does the listener fail to mark how unreservedly he gives himself up to the spirit which moves him; while his highest heights of eloquence are reached apparently without an effort.

The dramatic sense enters very large ly into his constitution as an operative force—illustrations, comparisons, metaphors, and impersonations are perfectly natural,—and the words of the English tongue are to him as the forms of a mighty army. He is not only highly gifted in language and voice but possesses in a high degree that indescribable magnetic power which never fails with such concurring influences to draw the masses towards his way of viewing the great problems of life and human destiny. While it has been said of John B. Gough, that the is no master of style but as a mast rful hearts to grapple with, it can be as truthfully said of Dr. Hadley that he is both.

School Examination.

Report of Andover Union School for October, 1874.

In our examination for this month we perceive a commendable improvement upon the first month's work. Here seems to be a determination upon the part of a large majority of our pupils to assist the teachers in preserving order and encouraging careful discipline in the school room.

Will not the parents of the school assist us by being more liberal in their visits to the schoolroom during school hours. The children need just such encouragement as would be given by a visit from their parents. We shall always be glad to welcome any and every one who can possibly visit us.

CORRESPONDENCE.

ALFRED, Oct. 26th, 1874.

MESSRS BARNARD & GALATIAN.—Died in Alfred October 23d, Lucy, daughter of Abial Thomas, aged 14 years. She was a young lady of uncommon promise, beautiful in feature and deportment, and beloved by all.—She leaves many sisters and brothers to mourn the loss of a dear sister, and a sorrowing father and an almost heart broken mother; but they have the consolation that Lucy's pure life here below will make her an angel in that brighter world above.

Although gone from our gaze she is still to memory dear,

"No one knew her but to love her,
No one named her but in praise."

A team of horses hitched to a large lumber wagon belonging to B. F. Langworthy, ran away from the depot, Wednesday last and went down the hill at a fearful rate, landing in Chase's fence at the foot of the hill; no damage to horses and wagon, but the fence suffered. The next morning a horse belonging to F. W Hamilton while coming down the steep hill between his place and the village took fright by some part of the harness giving away, and ran with great speed, overturning the buggy at the foot of the hill and dashing Mr. Hamilton to the ground with great violence, he was brought to the depot in a fainting condition and attended to by Dr. E. C. Greene who pronounced no bones broken but one of his limbs was very badly wrenched, so bad that he is confined to his bed. The horse ran across the world renowned Baker's Bridge with a part of the wagon attached, and went through the front stop of W. A. Bass's store, H. W. Green, C. H. Merkt and Mr. Ross narrowly escaping with their lives, Merkt only escaped by hugging close to the side of the building and then one wheel grazed his body.

Ezra Potter, who has been sick for a long time, has gone to New York to see if he can receive any help from the doctors there, it is quite doubtful if he returns alive as he is very low.

GRAPHO.

If you want lower rates of taxation and an honest administration of State affairs, vote for Dix and Robinson, Hakes, and the whole Republican State ticket.

Vote for Hakes.

The Reporter is sick; take a dose of salts neighbor and get rid of some of that filth.

Remember! There are ten or twelve thousand school districts in the State. A loss of one vote in each may change a possible victory into a disgraceful defeat. Make your arrangements to get out every vote, and you will be rewarded with the most signal triumph you have ever yet achieved

At this time of going to press, Saturday morning, everything looks encouraging. The leading Democrats concede that if not too many of our Republican friends stay at home, that Dix will be elected by from 25,000 to 30,000 majority, and they are trying to trade off for Assembly; look out for them. Let us have it a whole victory, a good old-fashioned victory that will make the hair of a Democrat stand up straight.

Should this be Rewarded.

Mr. Tilden refused to participate in the great Union Square meeting to sustain the Union and the Government against rebels.

Mr. Tilden holds the doctrine that the framers of our Government "left revolution organized; left it with power to snap the tie of confederation as a nation might break a treaty, and to compel coertion as a nation might repel invasion." This is only another name for secession.

Mr. Tilden was a member of the Committee on Resolutions at the Chicago Convention which reported that the war was a failure and demanded a cessation of hostilities.

Mr. Tilden, as a member of Assembly, moved to abolish all penalties for usurious interest, except the forfeiture of the extra interest.

Mr. Tilden, as a delegate to the National Democratic Convention of 1868, voted for a platform of repudiation.

Mr. Tilden was as a complice in the notorious election frauds of 1868, and his name was attached to the circular which called for immediate reports from the rural districts in order that Tammany might know how large to make its frauds.

Mr. Tilden supported and upheld the Tammany Ring until three months after the exposure of its frauds, until a month after the great meeting of citizens against it, and until its downfall was certain.

Mr. Tilden has as his two principal backers John Kelly and John Morrissey who, if he succeeds, will be the ruling powers in the politics of this State.

These are plain, simple facts. They are taken from the public record. They are matters of history. Are these acts for which the people should reward Samuel J. Tilden by making him Governor?

The Administration of Gov. Dix has reduced the debt, decreased the expenditures, diminished the taxes, stopped improper legislation and improved the government in every respect. If this is not what the people want an administration for, pray what can be its object?

If you want corruption and debauchery, vote for Samuel J. Tilden and the balance of the Democratic nominations.

Every man who consults his own interest, and the interest of the State, will vote the whole Republican State ticket.

Don't pay any attention to those who are circulating stories against Charles Flanagin our candidate for District Attorney. Vote the whole ticket straight.

Vote for O. T. Stacy for member of Assembly.

Vote for C. N. Flenagin.

Morrissey anticipates transferring his Saratoga gambling house to Albany for the winter.

Vote for the whole Republican ticket.

—If the Druggist Offers any kind of herb-flavored alcohol for dyspepsia, biliousness, or any other ailment, tell him you want medicine not a barroom drink. Ask him for Dr. Walker's California Bitters, the best regulating preparation know, and which you know is free from "Satan's Elixir." Reject all the fiery "Tonics" and "Appetizers," and cling to that remedy.—There is no medicine that compares with it. 4w300.

—Anakesis is, without doubt, the most infallible, easy and scientific cure for Piles ever discovered. 20,000 grateful patients attests its virtues, and physicians of all schools endorse it unequivocally. Lotions, ointments, and electuaries are only a waste of time and money. Anekesis relieves pain at once and cures absolutely. It is the discovery of Dr. Sibley, a scientific physician, and has been pronounced the greatest contribution to medicine of the age.—Price $1. Sold by Druggists everywhere. Depot, 46 Walker street, New York. 4w800

"Mary had a Little Lamb."

Mary had a little lamb,
Its fleece was white as snow,
And when its wool for sale was brought,
That wool was all the go.

The yarn it was so very fine,
The cloth from it was neat,
When cut, and sponged, and sewed, and pressed,
It made a suit complete.

Said a fellow roving by one day,
Where it hung out for sale;
"I'll just suit me to buy that suit
Its nobby, I'll go bail."

He bought that suit ('twas at L. D. Cobb's,)
And went sashing down theastreet
With step so high and heart so light,
When sweet Mary he did meet.

I know not why, but she really felt
An affection for those clothes;
The time was short when she agreed
To share his joys and woes,

Then come ye lovers, one and all
To our story, pray give heed
Just buy your clothes at L. D Cobb's,
And your wooing it will speed.

FACULTY FOR SCHOOL YEAR, 1874-5.

REV. J. S. DINGHAM, PRINCIPAL. Prof. Ancient Languages, Higher Mathematics, Engineering, Surveying, &c.

MRS. M. W. BINGHAM, History, Engl sh Classics, Mathematics, Political and Physical Geography

MISS C. A. STOCKWELL, Pinet Assistant, French, German, Mathematics, &c.

MISS F. I. DAVIS—Instrumental and Vocal Music.

Encouraged with the patronage by the liberal words and liberal patronage of our trial year, arrangements have been completed by which the coming year will afford much greater inducements to patronage than have been possible during the year just closing.

We have the pleasure of announcing that MISS C. A. STOCKWELL, remains as first Assistant. She is a graduate of Vassar College and recently principals of the Cobble upon School Farm, where she has taught with marked success and universal satisfaction. We have a first class in Practical Surveying, and any work of this kind which may be entrusted to them will be carefully executed under the eye of a teacher and satisfaction guaranteed. Prepared to work any day prefer Saturday.

Our location is unsurpassed in one of the most lovely spots in the whole valley of the Genesee River, and is beautiful and healthful beyond the of almost any other place. Our buildings are all new
