The Congress has decided to call an International Catholic Congress to discuss the question of the restoration of the temporal power, and has also resolved to commemorate the centenary of the birth of Pius IX, which falls on May 30 next, by the erection of a monument to Dr. Windthorst, at Moppen, the place where the late Catholic leader was repeatedly elected to the Reichstag.

### JAY COOKE'S PREDICTION.

He sees a Long Period of Prosperity for the Country.

**ST. PAUL, Sept. 12.**—Jay Cooke, whose name on "Black Friday" precipitated the financial panic of 1878, has been traveling through the West and is full of confidence in better times ahead. He says: "I look forward to a long time of immense prosperity for the United States. I believe that we are now at the beginning of an era which will mark the advance of our country to the rank of the foremost commercial and financial nation in the world."

"For years the United States has been drained annually of millions of gold, which was sent abroad to redeem or repurchase the securities, both public and private, which were sold to foreign capitalists in the times of our financial depression. Ever since the beginning of the war this has been going on. It is now about ended. The United States indebtedness to Europe has nearly all been paid, and the current money income has set the other way. Hereafter the gold will come to us."

Referring to an article by C. P. Huntington, published recently in a leading magazine, advocating the consolidation of the railroads of the country, Mr. Cooke said: "The tendency of all lines of business and enterprises now is toward centralization. Combinations are formed by corporations and individuals in the same line of business, whereby the cost of operating is reduced and all are benefited by the unity and harmony of management."

### INSANE ASYLUM ABUSES.

**A Startling State of Affairs Said to Exist in All Such Institutions.**

**LONG BRANCH, Sep. 14.**—Counselor Albert Bach, vice-chairman of the Lunacy Law Reform League's central committee, has sent to the committee's meeting in New York, to-day, a report on the condition of the seven New York state lunatic asylums.

He says he has obtained a mass of evidence of a startling nature and that the truth cannot be fully learned except by a committee of the legislature with the largest power of investigation.

He states that the heads of asylums are mostly irresponsible despots and control the boards of trustees or managers who are supposed to supervise them; also that abuses always accompany irresponsible power and that those who know of them in the asylum fear to testify to them and will not unless compelled.

Mr. Bach enumerates twenty-five different abuses which he avers exist in the state asylums.

He ends by saying the State Lunacy Commission are entirely mistaken in their expressed belief that the State Asylums inmates are properly housed, treated, fed, attended and medically clothed, and that the management of these asylums deserves public confidence. He adds that the conditions of asylums elsewhere is generally still worse and a disgrace to the country.

### HER REPLY UNSATISFACTORY.

**China May Yet Be Forced to Offer Protection to Foreign Residents.**

**SAN FRANCISCO, Sep. 14.**—The steamer China, from China and Japan, brings advices from China to August 30.

The British Minister, Sir John Wolcott, made a strong protest against the dilatory manner in which the Chinese government dealt with the recent outbreaks against foreigners, and put three questions to the government, asking, first, why an edict on the subject of the riots was not dispatched through the empire by telegraph. Second, why the Wuhu magistrate who tried to stop the riots was degraded while his superiors who did nothing were not punished, and, third, why the punishment of the guilty at Wusuch was delayed.

Li Hung Chang answered these questions as follows: First, it is not the custom of China to send edicts by wire; second, the magistrate was degraded for other reasons and, third, the rioters had been punished, two being executed and the others otherwise punished.

The "North China News" says the reply is a palpable evasion and only shows that China cannot be depended upon by the foreign powers.

England's action is understood to be backed by other powers and it is thought force will be used if China is not conciliatory.

### ITALY IS WORRIED.

**A Protest Against the Action of the German Catholic Congress.**

**BERLIN, Sep. 13.**—The protests of Italy against the action taken by the Catholic Congress at Douzin, in favor of the restoration of the temporal power of the Pope, has aroused great excitement in Catholic circles.

The Congress is composed entirely of Germans, and if the Prussian government should decide against their right to sit any longer in its dominions, the members may assemble in Bavaria or some other Catholic state.

### RUN DOWN AT SEA.

#### An Unknown Ship Sunk By the Steamer Arizona.

#### ALL ON BOARD PERISHED.

#### The Crash Came in the Early Morning During a Fog.

**Panic Among the Steamer's Passengers—Thought at One Time that the Arizona Would Go Down—Her Deck and Sides Badly Damaged—Nothing But a Little Wreckage from the Ship Found.**

**LONDON, Sep. 14.**—The steamship Arizona, of the Guion Line, which left New York on Saturday, Sep. 5, for Liverpool, arrived last evening at Queenstown in a battered condition, after a perilous voyage across the Atlantic.

Early on the morning of the 6th, while the Arizona was steaming rapidly in a fog, an unknown sailing vessel, believed to be a large coasting schooner, collided with the Arizona. The shock was very great, and aroused the passengers from their beds.

For a time the greatest excitement prevailed until it was found that the steamer was not, as many feared, about to go to the bottom.

The stem of the schooner struck the Arizona's front quarter. Thirty feet of the rails of the ship's deck were carried away, and a lifeboat smashed. The deck was considerably damaged and several plates of the vessel's side were badly indented.

While the extent of the injury to the steamer was being ascertained life-boats were prepared for the use of the passengers, and every preparation possible made for the saving of life in case the steamship should go down.

Fears of such a catastrophe were, however, soon allayed, and it was a long time before the passengers recovered from the shock of their sudden awakening.

Search was made for the colliding schooner, but not a sign could be seen of her, nor was a cry heard. The terrible shock had apparently crushed the sailing vessel in a twinkling and caused her to founder.

Part of the bowsprit of the schooner remained on the Arizona's deck, and other wreckage indicated the fate of the unfortunate mariners.

The Arizona's machinery had not suffered by the collision, and the voyage was pursued at the usual speed and without further accident.

### MORE ARRESTS PROMISED.

#### Further and Sensational Proceedings Expected in the Barsley Matter.

#### PHILADELPHIA, Sep. 14.

Further proceedings, growing out of the Barsley defalcation, will be begun this week, it is said, and also that some very sensational disclosures may be expected.

District Attorney Graham, it is now understood, contemplates the arrest of Auditor-General McCamant and the issuing of a warrant for the arrest of State Treasurer Livesey, who but a few days ago resigned the cashiership of the State Treasury and went away to Wisconsin. The members of the firm of Glendenning & Co., to whom Barsley loaned large amounts of money and through whom his stock speculations, amounting to millions, were carried on, are also to be arrested or subpoenaed. Other State officials may also be included in the arrests.

The proceedings will be held before Judges Gordon and Fell, who will sit as committing magistrates to hear the evidence and determine whether the accused shall be held to bail.

### DISS DE BAR DEMENTED.

#### The Cincinnati Authorities Now Puzzled as to What to Do With Her.

#### CINCINNATI, Sep. 14.

Now that the woman arrested here while wandering in the streets apparently in a demented condition has been positively identified by the man Solomon of Louisville as Ann O'Della Diss Debar, the authorities discover that they have a white elephant on their hands.

A hasty examination of the prisoner to-day by two physicians indicate the fact that the woman is demented. A few of the police officials are of the opinion, however, that she is merely shamming, but this is hardly the case, for she could gain nothing by acting such a part.

What to do with her is a subject that is giving the authorities no little thought. She cannot be sent to Longview Asylum as she is not a resident of this county, and it is not at all likely that either Chicago or New York will recognize her as a resident.

### THE ACTOR-MURDERER.

#### Evidence Fast Collecting Against Curtis—To Be Arraigned To-day.

#### SAN FRANCISCO, Sep. 14.

Actor Curtis still claims he remembers nothing about Friday morning's tragedy and will not talk of anything but his theatrical recollections.

Yesterday Officer J. J. Allen swore to the complaint in Judge Rex's court, charging Strelinger with the murder of Officer Grant.

The police are completing the chain of evidence against him and are leaving no stone unturned to lay bare all the facts. The street where the murder took place was critically examined and the planks with the bullet holes in the fence opposite have been sawn out and put away as evidence.

The police have found a man who saw Curtis in the custody of Grant on 6th street, near Folsom. He speaks English imperfectly, and has not been taken before an interpreter yet, but he makes the authorities understand that he knew Grant and also identified Curtis as the man Grant had in custody.

The police expect to find the man who saw Grant arrest Curtis.

Curtis will be arraigned this afternoon.

### MUST COME TO AMERICA.

#### The Hirsch Fund to Aid Hebrews Only in Reaching the United States.

#### LONDON, Sep. 14.

The Hirsch fund, according to a Hamburg correspondent, is now aiding only those Hebrews who desire to emigrate to the United States. In response to positive representations from the British Cabinet Baron Hirsch is said to have given an engagement that no more emigrated Russian Jews would be sent to any country under the British flag.

There is no denial here, writes the Hamburg correspondent, of the intention to make the United States the future home of the Jews. He says: "They are to be got there under any pretext and assisted as much as possible to get a start in life."

"None of the Jews have confidence in any other destination, and they all expect to get rich in America."

### ALL TO BE PUNISHED.

#### The Junta Issues Orders of Arrest for Lawbreakers.

#### TO BE BROUGHT TO JUSTICE.

#### Chillian Pillagers, Robbers and Torturers Must Suffer for Their Crimes.

#### All Who Were Engaged in the Massacre of Forty Young Men at Los Canos to Be Hunted Down—An Interview With Balmaceda's Imprisoned Officers—How Orders Were Disobeyed.

#### VALPARAISO, via GALVESTON, Sep. 14.

Minister of Justice Errazuriz, of the Provincial Government, has issued orders to Procurator Fiscales to arrest all persons implicated in the killing of leaders Ossa; also all those who are suspected of sacking and robbery and every one who was engaged in the flogging or other torturing of parties favoring the Junta.

The Minister also directed that all violators of the correspondence of the foreign Ministers accredited to Chill should be imprisoned.

Every one who was concerned in the shooting of Cummings and his two companions for their alleged attempt to destroy Balmaceda's war ships Almirante Lynch and Conde with dynamite is also to be arrested.

The Procurator is also ordered to use every effort to apprehend persons implicated in the killing of other Congressional victims. He is especially directed to hunt up all those engaged in the horrible massacre of forty-two young men at Los Canos on August 18. Their ages ranged from sixteen to eighteen years. The details of their killing are unfit for publication, owing to the indignities committed on their bodies after the young men were dead.

All of these acts were committed under Balmaceda's authority during the past eight months.

In an interview in the prison with Colonels Wood and Ruiz, late of Balmaceda's army, they made statements which are confirmed by documents found in Monedá, that both of Balmaceda's generals, Barbosa and Alzerman, who were killed in the final onslaught between the contending armies, were utterly incapable of officers.

They flagrantly disobeyed Balmaceda's orders, thus causing the overthrow of his Government. His explicit instructions to them were that they were not to engage the Junta's troops with less than 14,000 men, but that they should draw the enemy inland.

General Barbosa so utterly despised his adversaries that he acted exactly to the contrary of these orders. The result was his disastrous defeat at Concon, on August 21.

The defeat of the government troops was also largely owing to the issuance of contrary military orders by Balmaceda and his War Minister, Banadas Espinosa. This confused everybody.

Colonels Wood and Ruiz also say that there was no life in Balmaceda's troops. The representations made to the President that the soldiers were loyal and enthusiastic were untrue. Just at the height of the first engagement two regiments turned their rifle butts up as a sign that they surrendered.

### Foolish Men to Strike.

#### SAN FRANCISCO, Sep. 14.

The convicts at work in the jute mill of the St. Quintan prison struck Saturday, declaring they would not resume work until guaranteed that they would be served with better food, more tobacco than is now allowed, and that there would be less favoritism shown. After a time a conference was held between the prison directors and a committee representing the strikers. The convicts were told that a refusal to go to work would be punished by solitary confinement and that none of their demands would be acceded to. The strikers then resumed work.

### Accepted Bribes From Foreign Laborers.

#### POTTSVILLE, Pa., Sep. 14.

It has lately been ascertained that some inside foremen and mine bosses here have accepted bribes from foreign applicants for work, and laid off native miners to make room for them unknown to their superiors. At the Nottingham Mine the other day, John Berkeiser, inside foreman, was summarily dismissed for accepting such bribes, and at the Washington Mine, near Plymouth, Thomas Young was similarly treated for like offenses.
