## THE ANDOVER NEWS.

Mr. R. M. Bundy of Horseheads has  
been in town for a few days.

Mr. Gus Houghtaling left the first of  
the week for Cleveland, Ohio.

The finest line of Ties and Gents' Fur-  
nishing Goods in town, at Phillips.

Mrs. Lucinda McCarn and Miss Mary  
Wood are visiting relatives in Elmira.

Complete New Stock of Silverware  
just received at Atwood's. Call and see  
it.

Mr. and Mrs. M. L. Rumpff, of Angeli-  
ca Every Week, visited friends in town,  
over Sunday.

Dr. Comstock has returned from his  
visit to New York, and is again ready  
for business.

Mr. P. Cannon attended a meeting of  
the Democratic County Committee in  
Wellsville, to-day.

Mrs. J. Seaman is in the city buying  
goods. In a few days she will have a  
full stock of Millinery, which she invites  
the ladies to call and see.

Jeremiah Clarke has taken his herd  
of Holsteins to four fairs this fall—Her-  
nellville, Elmira, Rochester and Bath,  
and received \$523 in premiums.

Mrs. Everett is in New York as a dele-

work Monday morning on the new depot  
in Belmont. It is located about one-  
fourth of a mile nearer the village than  
the old one.

Rev. G. W. Gibson will remain in  
Andover another year. Don't forget  
the reception to be given him at the  
M. E. church parlors this week Friday  
evening. All are invited.

Rev. Wayne Brewster, of Second  
Milo, N. Y., has accepted a call to the  
pastorate of the Baptist church in this  
place, and is expected to begin his work  
next Sunday.

The Teachers' Institute for the South-  
ern District of Allegany County will be  
held at Wellsville during the week be-  
ginning Oct. 19th. The benefits to be  
derived from attendance upon teachers'  
gatherings of this nature demand, and  
will doubtless secure, the attendance of  
all the progressive educators of the  
county in the District.

want a GOOD pair of boots?

## 30 BARRELS A DAY!

### Production of the Oil Well on the Hyland Farm.

There is no Longer any Question as  
to the Existence of Oil in  
this Vicinity.

We reported last week the shooting  
of the Mutual Gas Company's well on  
the Hyland farm, about two and one-  
half miles from this village; and stated  
that a part of the casing was blown out  
of the well by the explosion, and that  
all of the casing must be pulled. Such  
was thought to be the case at the time  
we left, which was soon after the shot  
was exploded.

It was afterwards found that all of  
the casing had settled back into the  
well about two feet deeper than before,  
and on running the tools everything  
was found all right, and the casing per-  
fectly water tight.

The well filled 200 feet with oil (about  
six barrels) in two and one-half hours  
after being shot. It required consider-  
able cleaning out, which could not be  
done until next day. With all bailing  
out and waste there was 500 feet of oil  
in the well when it was tubed and  
packed.

Gas was struck at 680 feet and oil at  
725 feet. The well was shot with ten  
quarts of glycerine in gas and thirty  
quarts in oil sand. It was thought there  
would be gas enough to flow the oil out  
but after tubing and packing it was  
found it could not lift the oil, although  
it was agitated at times.

Preparations were made to pull the  
tubing and pump the well. Rods and  
a pumping outfit were drawn to the  
well, when it was discovered that the  
pump was not good. The idea was  
abandoned, as Mr. Wesler, the con-  
tractor, wished to move his boiler and  
engine to the location of the next well  
on the Flynn farm.

The well now stands full of oil. The  
company was much disappointed in not  
finding gas, but quite well satisfied with  
the result as to oil. They estimate this  
well good for five barrels a day. The  
drillers and other oil men say it is good  
for eight to ten barrels.

One fact is fully demonstrated—we  
have an oil field, and one that has the  
advantage of shallow drilling. Great  
credit is due the company for the bene-  
fit they have been to Andover, and the  
land holders in particular, and for the  
open manner in which the well has been  
handled.
