The new express company, it is claimed, will take away considerable business now done by the Adams, as they will have no means of reaching the cities entered by the Pennsylvania-Railroad Company.

It is claimed also that the new company will reach Boston via the New York and New England Railroad, a contract having been made with Mr. Austin Corbin.

The articles of incorporation were prepared by Messrs. Drexel, Morgan & Co., of New York, who are said to be heavy stockholders in the new venture.

A prominent railroad official: who is acquainted with the facts of the new concern said that it would be but a short time ere the new company will have offices in all the principal cities of this country.

There is no possibility for a long time of the Adams people securing the Central Railroad of New Jersey, or the Philadelphia and Reading Railroad as an outlet, as both of these roads have term contracts with the United States Express Company.

Three bids were made for \$2,000,000 of the bonds.

A reporter saw Mr. Odell and asked him if the bids had been accepted. He said they had. In fact, they were satisfied to sell \$3,000,000. The other \$2,000,000 could be disposed of later. Mr. Odell admitted that in Chicago the demand for the bonds was limited. In the East money was plentiful and capitalists were willing to accept 4 per cent. interest on their money. He stated that by September 1 \$15,000,000 will have been spent in the exhibition, and to open it May 1, 1893, just \$17,000,000 will be needed. He thought no trouble would be experienced raising the money.

months ago.

Brief Sketch of His Career.

Rev. Charles Hadden Spurgeon was born on June 19, 1834, in Kelvedon, Essex. He received an ordinary education under strong religious influences, and became very early in life an usher in a school at Nottingham, in which humble capacity he developed astonishing powers of public speaking and was especially effective in religious exhortation.

His relatives, who were Independents, offered to have him trained for the ministry, but he declined because he held Paedobaptist views. Later he relinquished these and joined the church formerly presided over by Robert Hall at Cambridge. He became a village preaches at Teversham and soon after became pastor of a Baptist chapel at Waterbeach. At this period, only 17 years old, he delivered a series of discourses which attracted immense crowds and spread his fame through England, and even America, as the "boy preacher."

Having been offered the chapel in New Park street, Southwark, he preached for the first time in London in 1852 with such success that the eddifice had to be enlarged to accommodate the rapidly growing congregation. At Excter Hall, which was occupied during these alterations, hundreds were turned away every Sunday, being unable to get within tha doors.

doors.
The enlarged chapel in New Park street The enlarged chapel in New Park street proved insufficient and the Surry Music Hall was hired to accommodate the overflow. Finally the Metropolitan Tabernacle was built, which holds four or five thousand people, and there the famous preacher has remarked to this day. Since 1853 his sermons have been published weekly and soid throughout the Protestant world in increasing numbers. In 1887 Mr. Spurgeon severed his connection with the Baptist Union because it tolerated heretical views on the subject of hell. This gave rise to a long controversy. In 1888 was celebrated the delivery of his 2,000th sermon.

The Pastors' College, the Colportage Association, the Book Fund and the Supplementary Pastors' Aid Fund were all founded by Mr. Spurgeon in support of his work at the Tabernacle.

In his illness, which began seven months ago and passed through many vicissitudes, he has had world-wide sympathy, and his devoted congregation have been untiring in their petitions to the Lord for his recovery.

Stretched on the floor in the middle of the store lay the lifeless body of Mrs. Senior. The floor was covered with blood and the contents of the store were strewn in every direction. A small shawl covered the face of the woman and when it was removed it was seen that her throat was cut from ear to ear. The cutting had been done with an old, blunt case knife. This weapon lay on the counter, nearby, and was covered with blood.
