Ray Smith, who is a student in the Hornellsville Business College, was compelled by illness to return home the first of the week. It was feared he had diphtheria, but happily it is now known to be nothing worse than cankered sore throat.

Mr. Arthur Hallett of this place has received the appointment of Deputy Sheriff. He received his papers last week. Mr. Hallett will make a good officer and his friends, of whom the NEWS is one, are all glad he has received the appointment.

Mr. John Press connected business with pleasure last week, and "took in" the Erie's excursion to the Capital City. He left here on Monday night and arrived in Washington about noon on Tuesday. While there he visited both Houses of Congress, the Supreme Court and other objects of interest. He left Washington Thursday, returning by way of Baltimore, at which place he stopped and made a large purchase. He celebrated Southern Pine, which will be used in the interior of the school house.

The season for auctions is again here. Those who want a successful auction always engage W. C. Lever, for auctioneer, and get their bills printed at the NEWS office.

There will be four tickets in the field in Andover next Tuesday, besides the Excise ticket, if the People's Party puts a ticket in the field. They hold a caucus this (Wednesday) evening.

Electric bells have been placed in the signal towers along the western division of the Erie. By their use the operators save much telegraphing, and still keep each other posted as to the movement of trains.

Mr. Homer Brooks of Rushford has been saving his dimes the past year. At night when he went home from the store, if he happened to have any dimes in his pocket he put them into a little bank. When he opened it at the end of the year, he found 990 dimes, almost \$100.

Recess Report of Programme Committee. Table talk, the subjects given out for the last meeting but not taken up for the want of time; Christian and Sanitary Commission and Physical Culture.

EDITOR NEWS.—Your correspondent of last week was evidently misinformed or laboring under a mistake.

According to agreement, at the commencement of the present reading year of the C. L. S. C., a system of credits was introduced, to be as follows: Attendance; punctuality; quotations in response to roll call; three given facts; and reading the lesson as laid out in the Chautauquan. It is but just to Mrs. Cochraue to say that she did nobly as captain, as she labored under difficulties; two of her members were seriously ill several weeks; in the counting up of credits, her side was only six behind, during a period of four and a half months. The reading of the year is very interesting and not as hard, perhaps, as some have an idea. We would invite all to join us who have a desire to gain more knowledge, or review what they have already learned.
