Our Arab poules were almost dead with fatgre, as, in Dormaline, 183), we rade near the hard of Mount Hermon in the Holy Lind, the inductant called by one "a mountain of act," by another "a gittering by suspension of act," by another "the Mont Bane of Palestine," Its top has an almost uncertain brittance. But what must it have been in the time to which my text refers? Peter and James and John were on that mountain top with Jesus when, and that mountain top with Jesus when, suddenly, Christ's face took on the glow of the moonings sun, and Moss and Enjah, woo had been don't have been with Jesus when, suddenly when and talked with our Saviour. What an overwhelming three—senting the propries and Christ, representing the propries, and Christ, representing all worlds, and Christ, representing all worlds.

And yet that is what this congregation has been called to do and has done. The first Brooklyn Tabernacia was dedicated in 1870, and destroyed by fire in 1872. Too second Brooklyn Tabernacia was dedicated in 1870, and destroyed by fire in 1872. Too second Brooklyn Tabernacia was dedicated in 1870, and destroyed by fire in 1872. I announce to you this day that we are at last, as a caurch, in smooth waters. Arrangements have been nade by when our financial difficulties are now fuily and satisfactorily adjusted. Our mome will oxceed our outgo, and Brooklyn Tabernacie will be yours and belong te vio and your children after you, and snything you see contrary to this you may put down to the confirmed habit which some people have got of misrepresenting this church, and they cannot stop. Yes, twenty-three years have passed since I came to live in Brooklyn, and they have been to use eventual years. It was a prostrated church to which I came, a church so flat down it could drop no farther. Through controversies which it would be useless to rehears it was well night extinct, and for a long while it was well night extinct, and for a long while it had been without a pastor But nimeteen members could be mustered to sign a call for my coming.

As a committee was putting that call before me in an upper room in my house in Philadeppia, there were two other committees on similar errands from other committees on similar errands from other committees on similar errands from the room of the committees on similar errands from the rooms.

though he were dangerous to be let loose,
or it acted as a barricale that was unnecessary to keep back the people, for they were
so few that a minister of ordinary muscle
could have kept back all who were there.

My first Sabbath in Brooklyn, was a sad
tley, for I did not realize how tar the church
was down until then, and on the evening of
that day my own brother, through whose
pocket i entered the ministry, died, and the
tidings of his decease reached meat 6 o'clock
in the evening; and I was to preach at haif
past seven. But from that day the blessing
of God was on us, and in tares months we
began the enlargement of the building. Before the close of that year we resouved to
construct the first Tabernacle. It was to be
a temporary structure, and therefore we
called it a labernacle instead of a Temple.
What should be the style of architecture
was the immediate question. I had always
thought that the ampitheatrical shape wond
be appropriate for a church.

Two distinguished architects were employed, and after much hovering over de-

All are anxious to do something, and as on such occasions sensible paople are apt to do unusual things, one of the members, at the risk of his life, rushed in among the fallen walls, mounter the pulpit and took a glass of water from the table and brought it in safety to the street. By you see it was not a total loss. Within an bour from many churches came kind unvitations to compy their buildings, and hanging against a lampost near the destroyed building, before 13 o'clock that morning, was a board with the inscription. Mr. Beecher made the opening prayer, which was fuil of commiscration for me and iny homeless flock, and I preached that night the sermou that I intended to preach that morning in my own church, the text concerning the precious aleasater box broken at the feet of Christ, and sure enough we had one very precious broken that day. During all that time, as well as since, I was engaged in editing a religious newspaper, believing that as in a periodical was capable of great usefulness, and I have been a constant contributor to newspapers and periodicals. Meanwhile sail things had become easy in the Brooking Tabernacie. On a Sabbath in October, 1834, I announced to my congregation that I would in a few weeks visit the Holy Land, and that the officers of the church had conseate to my going, and the wish of a life to me was about to be fulfilled. The next Sabbath morning, about 2 o'clock, or just atter midnight, a member of my household awakened me by saying that there was a strange light in the sky. A thunderstorm had left the air full of electricity, and from horizon to horizon everything seemed to blaze. But that bid sky. A thunderstorm had left the air full of electricity, and from horizon to horizon everything seemed to blazz. But that did not disturb me, until an observation taken from the cupols of my house declared that the second Tabernace was putting on red wines.

Sale of the Road Confirmed.

TRENTON, N. J., April 4.—The Chancellor has confirmed the sale of the Philadelphia & Seashore Railroad to Lindlsey Garrison of Camden, for \$185,000. The Bethlehem Iron Company opposed the confirmation on the ground that they knew of a party who would give 21 per cent. more for the road. The Chancellor oaid that the sale was properly conducted and could not be reopened because of some prospective bidder.

PARES, April 4—A sprightly and scandalous movel entitled "L'Americaine," severely attacking and libering American women in general, has just been published here. The name of the author has not been given, but when it is disclosed there is likely to be trouble. It is evidently written to gratify the lift feeling aroused in certain Parisian circles by the Deacon-Abelia tragely.
