Botting Eggs and Making Coffee.
"I think there are more ogg and sellee cranks than any other," said the head of a large house furnishing store. "Nearly every day inquiry is made for some new coffee poter some new meth-od of boiling eggs or more probably fining eggs while they are boiling. timing eggs while they are boiling. This little hour glars was invented a few years ago. It is to hang on the wall to notify the cook when the egg is soft, medium or hard. You put it right in the water with the case, I suppose, said a lady the other day before I explained its use." There are probably more patents yearly issued in connection with this simplest precessin quoking and for coffee port than for alm it mything clash in the rathr of alm it mything class in the radius of the kitchen. All this goes to show that there are a great meny cool, a in Amer-ice who have not yet learned vice to make coffee or boil eggs or such inven-tions would not find ready sale.—New Yek Tribune.
