The newspaper change which was referred to in last week's News has been consummated. The Cuba Patriot has been sold to Wm. Moulton of that place who takes possession May 1st. Strayed from Home.

Eddie Connelly, a Hornellsville boy aged 13 years, strayed from his home last week and for several days his whereabouts was unknown to his friends. His brother T. C. Connelly started for him as soon as it was ascertained that he had left Hornellsville. The boy was traced through Almond and Alfred and as far as the residence of N. E. Hardy, about a mile east of this village. Mr Hardy had seen the boy, and thought he went across the fields towards Hartsville. For a day or two no further trace of him could be found. It afterwards transpired that the boy had been over in Hartsville and Greenwood, and finally brought up at the home of Michael Lynch, two miles west of this village. He had hired out to Mr. Lynch, and when found by his brother the boy was working in the field. He was brought to this village and taken home on train 18 Saturday night. The boy is said to be slightly demented, and his mother was prostrated with grief at his sudden disappearance.

BY ORDER OF COMMITTEE.

Death of I. N. Sheldon.

A message was received last night by W. J. Peuney stating that I. N. Sheldon of Cuba died in Asheville, N. C. last evening. Mr. Sheldon had been in failing health for some time, and went South in the hope of receiving benefit from the climate. His disease was consumption and his death had been anticipated by his friends for some time. Mr. Sheldon was one of Cuba's most reliable and enterprising citizens. He was largely interested in the manufacture and sale of cheese. He has been president of Cuba village, and it was largely through his efforts that Cuba has today one of the finest systems of water works to be found in the State. If "men's devious after them," Mr. Sheldon will long be gratefully remembered by the people of Cuba.

A Reliable Seed House.

Among the many catalogues sent out by the various seed houses, the one sent out by John Lewis Childs leads them all. The edition of this catalogue is 40,000, containing 152 pages. The colored plates are the finest ever sent out by any seed house. It gives accurate descriptions of all the finest standard varieties of vegetable, garden and choice flower seeds, in new and rare fruits, plants, bulbs and flowers. It leads where others try to follow. This catalogue will not only satisfy but surprise all those wanting something valuable, something new, rare and beautiful. It offers only the best of varieties, that can be relied upon. In new fruits you find the everbearing raspberry, Erhart; Muskingum and Golden Queen; Childs all summer raspberry; the best strawberries known, both early and late; grand, new early grapes, ever bearing tree blackberry; dewberries, superb new apples, the Crandall currant, and the greatest novelty of the age, the great Japan wine berry, and a list of the finest small fruits of any house in the United States. It is an encyclopedia for everything found or wanted on the farm, the garden, yard, lawn, or home, in the plant, seed, fruit or flower line. In these days of fake tree peddlers and bogus seed houses it is a pleasure to do business with John Lewis Childs of Floral Park, Queens Co., N. Y., who will send you just what you order every time, guaranteeing it to reach you in good condition, true to name or the order will be refilled free of charge.
