—BLACKING is cheaper

at 20 cents a bottle than any other Dressing at 5 cents.

A LITTLE GOES A LONG WAY

because shoes once blackened with it can be kept clean by washing them with water.

People in moderate circumstances find it profitable to buy it at 20c. a bottle, because what they spend for Blacking they save in shoe leather.

It is the cheapest blacking considering its quality, and yet we want to sell it cheaper if it can be done. We will pay

\$10,000 Reward

for a recipe that will enable us to make WOLFF'S ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. This offer is open until Jan. 1st, 1893.

OUR WASHINGTON LETTER.

Gossip of the Week at the National Capital.

Washington, May 2, 1892.

The Blaine talk, like the silver question, will not "down." This week it is heard wherever republicans congregate.

The silver republicans are largely responsible for this Blaine revival, so to speak. They are averse to supporting President Harrison, because of his well known opposition to free coinage, but they are perfectly willing to take Mr. Blaine without knowing that he is any more friendly to free coinage than Mr. Harrison is.

The anti-Harrison republicans generally have also, it seems, come to the conclusion that the only way to keep Harrison out of the nomination is to nominate Mr. Blaine, and if they can have their way the Minneapolis convention will nominate Mr. Blaine whether he will or not.

In these days of bitter unreasoning partisanship in Congress it was a positive pleasure to hear Representative Hooker, of Mississippi, who is a democrat, make a speech in the House praising the administration for the diplomatic victories it has won.

He said that the manner in which Secretary Blaine had treated the complications with Chili and Great Britain proved him to be a great statesman.

If the Canadian sealers think to avoid seizure in Behring Sea by sailing under the Mexican or other flags they will make a costly mistake, as the commanders of the United States vessels will have orders to seize all vessels caught taking seals, without regard to the flag under which they sail.

Senator Hill is confident that he will receive the democratic nomination for President, but the Cleveland democrats in congress declare most emphatically that he has not even a ghost of a chance. "You pay your money and you take your choice."

If representative Enloe had wished to make the public sympathize with Commissioner Raum he could not have accomplished his purpose quicker or better than by losing his temper and calling that gentleman a liar, as he did when Mr. Raum was on the stand testifying to the committee which is conducting the investigation of the Pension Bureau, and his attempting to strike Mr. Raum after having called him a liar did not mend the matter. Personal abuse never convinces anybody; it usually reacts upon those who indulge in it. Representative Wheeler, who is chairman of the investigating committee, has the right idea. He said after the disgraceful occurrence alluded to above: "Mr. Raum came here in response to a summons from this committee to testify, and must be treated like any other witness. Whether his testimony be true or false does not matter. After his statements have been made any other man who cares will have the opportunity to take the stand and deny or disprove them."

Representative McCrae, chairman of the House committee on Public Lands, has introduced a bill which has been before several congresses, providing for the forfeiture of all lands granted to railroads opposite to and coterminous with such portions of the railroad not completed within the time specified in the original grant.

It begins to look as if the much talked of investigation of the Census Bureau, which was authorized by the House sometime ago, will amount to nothing. Democrats who support the resolution say this is because the investigation was put in the hands of the House Census committee members of which are under personal obligations to Superintendent Porter for patronage, and the republicans that it is because there is nothing to investigate.

Bertie Kenyon, the eldest child of Mr. and Mrs. Henry Kenyon, died last week Monday, and the funeral services were held in the S. D. B. church Wednesday afternoon, Elder H. D. Clarke officiating. The church was beautifully decorated with flowers, the sermon impressive and appropriate, and the children covered the coffin with affectionate offerings of flowers, after it was lowered to its last resting place. Bertie was conscious to the last, and answered questions as long as he could talk, and then by nodding his head. He is greatly missed by his sorrowing parents and friends, but he sleeps well.

"Asleep in Jesus, blessed sleep, From which none ever wake to weep."

Next will come the election of village officers, notice of which must be given within twenty days after the vote is taken.

A "Moving Circle."

Incidents like this don't often happen: D. B. Spaulding is moving into the rooms in Dr. Crandall's house lately occupied by James Pardon; Mr. Pardon moves into the house lately occupied by M. C. Williamson; Mr. Williamson goes into his newly purchased house, where Dr. Comstock lived; and Dr. Comstock goes into the rooms vacated by D. B. Spaulding, over the drug store. How many times could these families move and not get back to their original "position" in the circle?

The Myers Voting Machine.

We have seen lately in many papers a statement to the effect that a law passed recently authorized towns in this State to use the Myers automatic voting machine at town meetings. The fact is only one town in each county is authorized to use the machine. It consists of a table or desk with a series of buttons, each button having on it the name of a candidate. The voter "presses the button," thus voting for a certain candidate. Many persons believe the use of this machine to be unconstitutional, as the State Constitution says the election shall be by ballot, and it would require some stretching of the constitutional meaning to declare this method of voting to be "by ballot."
