## We use Alcohol!

pure alcohol to make WOLFF'S ACME BLACKING. Alcohol is good for leather; it is good for the skin. Alcohol is the chief ingredient of Cologne, Florida Water, and Bay Rum the well known face washes. We think there is nothing too costly to use in a good leather preservative.

Acme Blacking retails at 20c. and at that price sells readily. Many people are so accustomed to buying a dressing or blacking at 5c. and 10c. a bottle that they cannot understand that a blacking can be cheap at 20c. We want to meet them with cheapness if we can, and to accomplish this we offer a reward of

# \$10,000

for a recipe which will enable us to make WOLFF'S ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. We hold this offer open until Jan. 1st, 1893.  
WOLFF & RANDOLPH, Philadelphia.

## Columbus Day Message.

The Executive Committee of the Columbian Public School Celebration has issued the following Message to the public schools of America:

The 12th of October, 1892, the 40th Anniversary of the Discovery of America, ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian Exposition grounds. The day also may be signalized in every town and village in the Republic by a local celebration of which the Public School is the center.

The Public Schools of the Republic will form the most fitting center for all these local celebrations. A national Public School Observance simultaneous with the Chicago exercises will awaken a popular interest in the coming Exposition. Far more important is the fact that the Public School has the right to occupy the most prominent place in the celebration. The Public School is the one characteristic institution which links all neighborhoods together, and can thus furnish a common bond for a national celebration. The Public School is the ripe fruit of the four centuries of American civilization. The Public School to-day sways the hundred years to come.

The first approval of this suggestion came from the Public School scholars themselves. When the plan was first proposed by *The Youth's Companion*, January, 1891, thousands of letters were received, testifying to the enthusiasm with which the scholars responded.

The World's Congress Auxiliary of the Columbian Exposition then took up the proposal, calling upon all the people of the Republic to observe the day in their own localities and suggesting that the Public Schools be everywhere the center of the celebration.

The Superintendents of Education were the next to recognize the fitness of giving to the Public Schools the first place in the Columbian Anniversary. At their National Convention in Brooklyn, in February, 1892, they took charge of the movement, and appointed an Executive Committee to lead the schools in the commemoration.

The Executive Committee now appeal to the scholars themselves to be the first to move. It is for you, scholars of the American Public Schools, to arouse a sentiment in your schools and in your neighborhood for this grand way of celebrating the finding of America. Educators and teachers will meet you from their side. But it is for you to begin.

You will make it succeed if you unite to say that it ought to be done. The interest of the public will be awakened if the scholars join in the earnest request that the school be allowed to be the center of the day's observance.

There are thirteen millions now in Public Schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the Republic through the coming century.

The first thing to do is to determine, when you read this Message, that you will do all you can to induce your school to enter the celebration. Then show this Message to your teacher; every patriotic teacher will be glad to help you if you show yourselves in earnest. Take the Message to the School Committee and Superintendent; their consent and aid are indispensable.

After you secure the support of all these, then let the school vote that it will enter the celebration.

The next thing after this public vote will be the appointment of a strong committee to take the charge. This committee should be made up jointly from scholars, teachers, and friends of the school. The committee should in all cases be made up of those who are most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

A program of exercises will be furnished by the Executive Committee. It will be simple and adapted to any school, yet so arranged that more elaborate exercises may be added wherever desired. The aim of this Official Program will be that certain leading exercises may be the same in every school in the Republic; and that at least in one feature the Chicago program and the school program may be identical.

In due time this executive committee will make more definite suggestions on methods of celebration through the superintendent of education and through the press.

The duty of your committee will first be to interest the citizens and to prepare the school. Processions may be arranged. The veterans, both North and South, will gladly be escorts for the schools. The other military, civic, and religious organizations of each town will lend their aid if they see that the schools are determined that the celebration shall be worthy of the day. The local press will be the most valuable of all supports; and the earliest efforts of your local committee should be to enlist its sympathy and request its cooperation. Ask your local paper to print this Message.

On October 12th the Stars and Stripes should be floating from every school-house in the Republic. It is the hope of the friends of common school education that not one public school in the United States will allow itself to be left out in this most memorable celebration.

## WE'VE GOT IT NOW!

"It" Means Oil In Paying Quantities-- The Pease Well Settles the Question Beyond Doubt.

The Mutual Company's well on the R. A. Pease farm was yesterday treated to a heavy shot of nitro-glycerine. Since the well was finished it has given evidence of being capable of producing more oil than any well yet drilled in this field, and the company decided to put it to the test.

There was 400 feet of oil in the well when the shot exploded, and the large crowd had the pleasure of seeing a beautiful stream of oil rise considerably higher than the derrick, and then fall in a spray to the ground. It was a beautiful sight in the bright sunlight, and fully repaid every one for going to see it. As soon as the well had been shot the bailer was set at work cleaning out the hole. The oil immediately began to accumulate in the well, at a rate which leaves absolutely no doubt that this is a splendid oil producer. In forty minutes after the well was cleaned out there was four hundred feet of oil in the hole—about 14 barrels. Think of this, ye skeptics!

The oil is of superior quality, and the depth and quality of sand indicate that the well has the "staying" qualities which are so much desired.

The actual production of this well cannot be told until it has been tubed and cased in to a normal condition, but our readers can rest assured of one fact, namely, there is not in the Allegany or Bradford fields at the present time a better producing well than this, and if this territory is not immediately developed it will be solely because the present price of oil does not warrant the expense. If oil were selling at 80 cents to a dollar a barrel Andover would experience such a boom as she has never yet seen. She may get it as it is!

About two years ago a member of the Mutual Company told a News man that there was oil here in paying quantities, and that they would yet demonstrate the fact. They have kept their word.

A well was located today on the Atkins farm, east of the Pease farm, by other parties.

## Two Pieces of Villany.

That "dead head" Merchant and Banker, of Andover, better known as A. M. Burrows has been found guilty of another offence. Last week he had one of his four salesmen, A. V. Durand, in our city taking orders for carpets by the wholesale. This week he has been known to go out two days and not be gone long either, and bring in speckled brauties that measure ten inches in length and and tip the scale at one half pound each. Surely something ought to be done to that fellow, for robbing the trout streams of such game, and our carpet merchants of their legitimate carpet customers. Here seems to be a clear case of prosecution for both the Game Constable and the City Authorities. A merchant that will spend his time in that way deserves to fail, but "they say" that the word failure, is a stranger to that lawless "dead head" merchant. Editor News, please take notice.

The above wail of woe coming from our esteemed contemporary, the Wellsville Reporter, is amusing to say the least. We have noticed a similar wail from the same source once or twice before. The fact is, Mr. Reporter, Andover has too many such "dead heads," for the comfort of your Tanbark City, as you dub your corporation. We would suggest if Wellsville is to build any more school buildings or churches, that the building committee come here at once. Perhaps Andover can furnish a "dead head" contractor to help them out. Perhaps, also, a "dead head" hardware merchant to furnish the material; anything, friend Reporter, to try to keep the grass out of your streets. We believe Andover can furnish the liveliest set of "dead heads" in the shape of merchants, contractors, fishermen, etc., to be found in nine miles from the Tanbark City. One thing we can assure our exchange that should the city authorities see fit to proceed against, convict and fine the above named "outlaw" (and we understand he pleads guilty) they will not need to take up a collection to get their funds.

## INDEPENDENCE NEWS.

Mr. J. J. Brown moved to Penn Yan last week.

On account of the numerous showers this spring, there is no gardening going forward in this neighborhood.

Mr. Ephraim Stillman, of Spring Mills, was baptized by Eld. H. D. Clarke here last Saturday, and will join the S. D. B. church.

A Mr. Mann, who resides about two miles south-west of here, lost a valuable two-year-old colt from some unknown disease last week.

Mrs. C. H. Austin, of Spring Mills, was at Church here last Saturday.

The I. S. C. E. met with Mr. and Mrs. M. A. Candall Saturday evening.

Say, "Ham," is Andover's new undertaker going to bake his subjects, that he needs must attach a bakery to his undertaking rooms?—[Tut, tut, Gumption; nobody who dies in Andover is ever baked.]

Mr. and Mrs. Horace Warfield, of Andover, and a lady friend are guests of Mr. and Mrs. W. J. Potter.

Comrade Jackson O'Dell has been notified that his pension has been increased to \$30 per month, which isn't too much for the loss of a leg, howlers to the contrary notwithstanding. SOME GUMPTION.

## The County Seat Bill Signed.

Last Friday Governor Flower signed the bill repealing the law of 1860, which made Andover a half shire. The result of this will be that all the courts will hereafter be held in Palmetto, and jurors will be drawn from the whole county instead of from one district as heretofore. Defeat is reported happy, and the prospect is probably not exaggerated.
