After three years of this bloody work by Joaquin's band the Caifornia Legislater cathorized Harry Lave and twenty rangers to eaquip themselves for the capture of the robbers. Their trail was followed closely and the Mexicans were followed closely and the Mexicans were found in camp near Tejon Pass. Six of them were seated round a small fire where breakfast was cooking, while the seventh he of the slender figure and graceful limbs, and large black eyes, and long black hair, a pertect Apollo, richly dressed blooming in the pride of health ad manly beauty, was washing down a saperb bay horse at a little distance from their brease. A REMARKABLE LETTER.

A Prominent Professional Man's Extraor-

dinary Statement.

(N. Y. Sun.)

To the Editor: Ein-Aamy name and face have appeared in your paper and the public prints lately, and as many of my professional brethren are wondering at it, I teel it only just that I should make an explanation. The statement published over my name was made ten years ago, after long and mature investigation, and I have never changed my mind as to the facts their state! At that time I said, as a physician, that I believed Warner's Sate Cure was the best of all known preparations for the troubles it was advocated to cure, and I say so still. I known it is considered the proper thing for the medical profession to deery proprietary and other advertisel articles; but why should they do so? As the late Dr. J. G. Holland, writing over his own name in Seribaer's Monthly, said:

"It is a fact that many of the best pre-

so? As the late Dr. J. C. Holland, without over his own name in Scribner's Monthly, said:

"It is a fact that many of the best proprietary medicines of the day are more successful than many physicians, and most of them were first discovered or used in actual medical practice, when, however, any person knowing their virtue and foreseeing their popularity secures and advertises them, in the opinion of the bigote iall virtue went out of them."

Dr. Holland was an e-lucated physician, an unprejudiced observer, and he spoke from a broad and unusual experience. Proprietary medicines should not to decried. The ovidences of their value are overwhelming. I have seen patients recover from gravel, inflammation of the bladder and Bright's disease after using Warner's Safo Cure, even when all other treatment had failed.

I make this frank and outspoken statement in the interests of humanity and because I know it to be true. I trust for the same reason, you will give it to the public. Respectfully.
