The Two Oldest Printers and Editors

Under the above heading the *Angelic Republican* has the following:

"The two oldest printers and editors now living in this county are Mr. P. S. Norris of Angelica and Mr. Robert R. Helme of Friendship. Both are in feeble health and retired from active labor. We suppose the former is about 70 years old, and the latter is several years less. Years ago they both tolled in Angelica, where both began the trade. They both have done enough years of hard work in the Art Preservative to be entitled to a pension. They will nevermore grasp old Figure Four."

Brother Raymond makes a slight mistake in saying that Mr. P. S. Norris began his trade in Angelica. He did his first work in a printing office at Bath N. Y., in 1840, and soon after began writing for the press in the same place. He worked in Elmira, Dansville, Waterloo, Seneca Falls and other places and located in Angelica in 1847. Printing, editing and publishing has been his principal business in that place for 45 years. He is now past 74 years of age, and performs as much "active labor" as some men of middle age. His general health is good, but he has for 24 years been afflicted with an exceedingly painful form of neuralgia. We venture the assertion that he has put in over twice as many hours' work in a printing office, with brain and hand, as any other person now living in this county.

We believe Mr. Helme began his trade in Ithaca in 1842. He is about 67 years of age.

A Hail Storm and a Balloon.

The Genesee valley had two strange visitations Monday. One was a very severe hail storm which occurred in the afternoon, the hail stones being exceptionally large, and it is said falling to the depth of nearly two inches in some sections.

The other innovation was the appearance in the town of York of a stray balloon. It was seen slowly descending toward the earth by a negro working in a field who was scared so by the sight that he beat a hasty retreat giving the alarm that a huge monster had come from the skies. Others went out to the place, and found the balloon hovering around not far from the ground and attempted to catch it but it kept out of reach for a couple of hours. When it was finally captured it proved to be a very large gas balloon about forty or fifty feet in diameter. There was no one in it, though there were traces of some one having been in it. Everything was in good working order and the rigging all working perfectly. It was trimmed with bunting, indicating that it had been used at some celebration. There was a life preserver in it and a sheet. The name of the balloon was the Nevada, which was painted on the outside in large letters. In small letters underneath were the names of the painters Craig & Vandergriff, but no location given. Where the balloon came from is a mystery, but it would look as if an accident had happened to the occupant who probably made an ascension at some Fourth of July celebration. The balloon descended on the farm of H. C. Root who now has it in his possession.

Gas for Greenwood.

The Mutual Gas Company of this place has decided to extend its line to Greenwood and the pipe is now at the Andover depot. This will give our neighbors at Greenwood the privilege of using the cheapest and most convenient fuel known, and we who have had experience in burning it, and also in dealing with the Mutual Company, feel like congratulating those who are to enjoy the same privileges.

Strawberries and Champagne.

Just listen to this, from last week's issue of Virge Willard's Prohibition Belmont Post:

"Serve strawberries up on their stems if you would have a picturesque dish. The hostess may, if it so please her, hull the berries at the table in a dainty fashion, just as if she was dressing a salad. Champagne poured over the berries brings out the full sweetness of flavor."

We don't know who conducts the household column of the Post but probably Virge will lay this "slip of the pen" to Seymour or the American Press Association.

A LETTER TO PAPA.

I'm going to write a letter to papa
I guess he'd like to hear
What his little girl is doing
The same as when he's near.
I'll tell him how I missed him,
And how I wished he'd come,
And never, never leave us,
But always stay at home.

I'll tell him 'bout my dolly,
She's sleeping on the floor;
I fear that noise will wake her,
Oh, please don't alarm the door.
"For I must not be bothered,"
That's what my ma would say
When she begins a letter,
And sends me off to play.

I'll send him lots of kisses
And one bright, shining curl;
I'll ask him to remember
His lonely little girl.
I want so much to see him,
But I won't cry a wink,
'Cause when I write my letter
The tears would blot my ink.

I'm going to write to papa,
And oh, how glad he'll be
To get a little letter
That's written all by me.

PROUNCHED HOPELESS YET SAVED

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D. we quote: "Was taken with a bad cold which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up saying, I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, Coughs and Colds. I gave it a trial, took in all, eight bottles; it has cured me, and thank God I am now a well and hearty woman." Trial bottle free at L. Burrows Drug Store, regular sizes, 50c. and \$1.00. 4

We use Alcohol

pure alcohol to make Wolff's ACME BLACKING. Alcohol is good for leather; it is good for the skin. Alcohol is the chief ingredient of Cologne, Florida Water, and Bay Rum the well known face washes. We think there is nothing too costly to use in a good leather preservative.

Acme Blacking retails at 20c. and at that price sells readily. Many people are so accustomed to buying a dressing or blacking at 5c. and 10c. a bottle that they cannot understand that a blacking can be cheap at 20c. We want to meet them with cheapness if we can, and to accomplish this we offer a reward of

\$10,000

for a recipe which will enable us to make Wolff's ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. We hold this offer open until Jan. 1st, 1893.
