BLACKING is cheaper
at 20 cents a bottle than any
other Dressing at 5 cents.

A LITTLE GOES A LONG WAYS
because shoes once blackened with it can
be kept clean by washing them with water.
People in moderate circumstances find it
profitable to buy it at 20c. a bottle, because
what they spend for Blacking they save in
shoe leather.
It is the cheapest blacking considering
its quality, and yet we want to sell it
cheaper if it can be done. We will pay

\$10,000 Reward
for a recipe that will enable us to make
WOLFF'S ACME BLACKING at such a price
that a retailer can profitably sell it at 10c. a
bottle. This offer is open until Jan. 1st, 1893.

OUR WASHINGTON LETTER.

WASHINGTON, Aug. 12, 1892.
Which party will control the next
House of Representatives? If you
can correctly answer this conundrum
you can come very near to naming
the next President, as in a majority
of national elections the party that
elected the President also elected a
majority of the House, but there have
been exceptions to this rule and there
probably will be again. The politi-
cians are doing some close figuring
on the next House, and while neither
Republicans nor Democrats are dis-
posed at this time to make public the
result, still most of them acknowledge
that the People's Party may elect
enough Representatives to hold the
balance of power, and the handful of
People's Party Members of the pres-
ent House express themselves as be-
ing confident of holding the balance
of power in the next House, with-
standing their failure to raise the
money to maintain a Congressional
campaign committee.

I was present at a very interesting
private conversation on this subject
between two Members of the present
House, one a Democrat and the other
a Republican, and they both thought
that if the People's Party could carry
as many as forty Congressional Dis-
tricts this year, they would control
the organization of the next House;
but they disagreed as to whether it
was possible for that party to carry
so many districts, the Republican in-
clining to the belief that it might carry
about thirty districts in the south,
and the Democrat asserting that it
could not carry one-fourth as many
in that section and that its only hope
was in the Northwest. Both of the
old party Congressional committees
are well supplied with money, and it
is certain that lots of it will be used
to prevent the People's Party holding
the balance of power in the next
House.

Mrs. Harrison's continued illness
is making her friends very uneasy,
and the truth about her condition,
which has been so long withheld from
the public, is at last becoming known.
Every one knew that she was suffer-
ing from nervous prostration when
she left Washington, and it is now
said that she has for several years
known that she had a cancer in her
stomach and that it was because of
information stating that this cancer
had reached a dangerous point in its
growth that President Harrison was
so anxious to get to her.

As usual after every session of
Congress, errors are coming to light,
and one of them will cause a good
many postmasters to say uncomplimentary
things of Congress and its
method of doing business. In the
Sixth Auditor's office, where postmas-
ters' accounts are audited, are several
million paid money orders which
have accumulated because of the in-
ability of the present force of clerks to
assort them as they come in, and the
Auditor asked for an appropriation
of \$5,000 to enable him to employ
twenty clerks for six months to assort
and check these orders. It being a
necessary appropriation, there was
no opposition and the Post Office offi-
cials were told that it would be incor-
porated in the Sundry Civil Bill, but
it wasn't, and now there are a lot of
mad people. Whether the item was
ever passed or was accidentally left out
of the enrolled bill after being passed
is not known.

The Secretary of State is pleased
with the intimation that Canada will
revoke the discrimination against
American vessels, and says that he
anticipated such action from the first
and never believed that it would be
necessary for the President to exer-
cise the authority conferred upon him
by the recent retaliation act of Con-
gress.

FULMER VALLEY NEWS.

This usually quiet place has been un-
usually quiet for a few weeks. Every-
body is attending work when it doesn't
rain. People are usually well and with
plenty of work do not find time to cre-
ate anything like a sensation.

Since our last letter James Casey's
house has been struck by lightning.
No one was seriously hurt and but
slight damage was done to the house.

Miss Nora Livermore has returned
home from C. T. Livermore's where she
has been staying during the illness of
Mrs. C. T. Livermore who, we are
pleased to learn, is fast recovering from
a long and severe illness.

Miss Nora McAndrew is still visiting
in Bradford. Guess it must be a pleas-
ant place to stop at.

Miss Rena Hunt of Andover has been
visiting Misses Maggie and Mary Mc-
Andrew.

Miss Maggie McAndrew will teach
our school another term.

George Graves of Hallsport visited in
this place Sunday.

Mrs. Arminda Brown of Minnesota
is visiting at C. Mingus'.

We're Glad to Hear It.
It may be a matter of some interest
to the readers of the NEWS to know
that the difficulty heretofore existing
between A. M. Truman and Melville
Niles, and recently referred to in these
columns, has this day been settled to
the satisfaction of both parties.

Murder at Corning.
A dispatch from Corning says: The
shooting and killing of Daniel Donahue
last Saturday night by William Frost
is the chief topic of conversation here.
W. F. McNamara will appear for the
prosecution and E. D. Mills for the de-
fense. Frost was formerly of Havana,
and bears a good reputation. Donahue
once worked for the Wells-Fargo Ex-
press Company, and was considered a
jovial, harmless fellow. The crime was
committed by Frost when in a state of
frenzy, and was not premeditated.

Who is so well known in this vicinity
has made regular visits to Wellsville for
the past twenty years, will be at the
Fassett house, Wellsville, again Aug. 23,
24 and 25, where scientific examination
of the eyes will be made free, and glasses

McKinley and Campbell at the Hor-
nellsville Fair.

It remains for the Managers of the
Farmers' Club Fair of Hornellsville to
fire the first gun of this political cam-
paign. Secretary Sawyer has been in
correspondence with the Democratic
and Republican National Committees
and they have accepted the invitation
to furnish some of their most brilliant
orators for a joint discussion of the tariff
and other leading questions of the hour.
Mr. McKinley and Ex-Governor Camp-
bell will be assisted in this discussion
at the Fair by some of the following
powerful speakers and Statesmen:
Governor Flower, Bourke Cochran, Sen-
ators Carlisle and John E. Russell of
Democratic side, and Secretary Blaine,
Chauncey M. Depew, Congressman
Horr and Burrows of the Republican
side. In consideration of the great im-
portance of this event, it has been de-
cided to give two days to these discus-
sions. No such opportunity will again
come to people of Western New York
to hear the vital question of the day dis-
cussed as this will be.

Next Tuesday evening is the date for
"Squires Haskins."

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became a Man, she clung to Castoria.
When she had Children, she gave them Castoria.
