for Infants and Children.  
"Castoria is so well adapted to children that  
I recommend it as superior to any prescription  
known to me." H. A. ARONSON, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.  
"The use of 'Castoria' is so universal and  
its merits so well known that it seems a work  
of supererogation to endorse it. Few are the  
intelligent families who do not keep Castoria  
within easy reach."

## We use Alcohol!

pure alcohol to make WOLFF'S ACME  
BLACKING. Alcohol is good for leather;  
it is good for the skin. Alcohol is the chief  
ingredient of Cologne, Florida Water, and  
Bay Rum the well known face washes.  
We think there is nothing too costly to use  
in a good leather preservative.  
**Acme Blacking retails at 20c.**  
and at that price sells readily. Many  
people are so accustomed to buying a dress-  
ing or blacking at 5c. and 10c. a bottle  
that they cannot understand that a black-  
ing can be cheap at 20c. We want to meet  
them with cheapness if we can, and to ac-  
complish this we offer a reward of

## \$10,000

for a recipe which will enable us to make  
WOLFF'S ACME BLACKING at such a price  
that a retailer can profitably sell it at 10c. a  
bottle. We hold this offer open until  
Jan. 1st, 1893.

WOLFF & RANDOLPH, Philadelphia.

THE NEXT MORNING I FEEL BRIGHT AND  
NEW AND MY COMPLEXION IS BETTER.

My doctor says it acts gently on the stomach, liver  
and kidneys, and is a pleasant laxative. This drink  
is made from herbs, and is prepared for use as easily  
as tea. It is called  
**LANE'S MEDICINE**  
All druggists sell it at 50c. and \$1.00 per package.  
Buy one to-day. Lane's Family Medicine moves  
the bowels each day. In order to be healthy, this  
is necessary.

## SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this success-  
ful CONSUMPTION CURE is sold by drug-  
gists on a positive guarantee, a test that no other  
Cure can stand successfully. If you have a  
COUGH, HOARSENESS or LA GRIPPE, it  
will cure you promptly. If your child has the  
"ROUP" or WHOOPING COUGH, use it  
quickly and relief is sure. If you fear CON-  
SUMPTION, don't wait until your case is hope-  
less, but take this Cure at once and receive im-  
mediate help. Large bottles, 50c. and \$1.00.  
Smaller convenient pocket size, 25c. Ask  
your druggist for SHILOH'S CURE. If your

Notice.  
To the Electors of the Village of Andover:  
A meeting of the electors of the Village of  
Andover will be held at Prest's opera house  
in said village on the 15th day of September,  
1892, polls to be opened at one o'clock p. m.,  
and remain open until sunset, at which the  
question will be submitted whether the  
taxes authorized by chapter 181 of the laws  
of 1875 and the acts amendatory thereof,  
for the purpose of supplying the Village with  
pure and wholesome water for domestic pur-  
poses and for protection against fire, shall  
be levied and collected from the Village as  
in said Act provided.  
Dated Andover, N. Y., Aug. 29, 1892.  
PATRICK CANNON, President.  
FRANK S. CLARK,  
JAMES OWEN,  
A. M. BURROWS, Trustees.

## TO THE TAXPAYERS OF THE VILLAGE OF ANDOVER.

The President and Trustees of the  
Village of Andover deem it advisable  
to say a few words in reference to the  
matter alluded to in the above notice.  
We believe it is a conceded fact  
that our village is in need of some kind  
of protection from fire other than that  
which we now have. The high insur-  
ance premiums now exacted, and the  
general feeling of insecurity, would  
seem to make unnecessary any argu-  
ment from us relative to the necessity  
of taking some steps to better our con-  
dition in this respect.

It is probably well known that nat-  
ural conditions favor the construction  
of a system of water works for our  
village at a very moderate expense, com-  
pared with that necessarily incurred  
in a majority of other places. In fact  
it has been stated that the people of  
this place could be supplied with pure  
and wholesome water for domestic,  
fire and other purposes at so small an  
expense as to make the investment  
a very profitable one for whoever enter-  
ed into it.

There are two distinct ways in  
which the people can be supplied with  
a system of water works. One of  
these methods is for the Village to  
construct, own and operate the plant.  
This can only be accomplished after a  
vote has been taken and a majority of  
tax paying voters have declared that  
the investment should be made. After  
the question has been decided in the  
affirmative by the voters, the Board  
of Trustees of the Village, constituting  
a Board of Water Commissioners, have  
authority to proceed with the construc-  
tion of the plant, and all of the  
revenues derived from the sale of  
water are applied toward paying the ex-  
pense of constructing the plant. It  
is not necessary to raise a tax for the  
purpose, as the law provides that the  
Water Commissioners may bond the  
Village in order to obtain the necessary  
funds. These bonds may be disposed  
of at a low rate of interest (probably  
not exceeding three or four per cent.)  
and may run for a period not exceed-  
ing twenty years. The revenue derived  
by the Village from the sale of water,  
is, as above stated, used to pay the  
interest on the bonds, and also the  
principal as fast as the bonds mature.  
In the meantime the village has,  
without additional expense, the use of  
water for protection against fire, and  
when the bonds are all paid the re-  
venue is applied toward the usual ex-  
penses of the village for work upon  
highways, etc.

The other method for obtaining a  
system of water works is for a certain  
number of individuals to form a stock  
company, secure a franchise for laying  
pipes through the streets, and then  
proceed to make the investment on  
their own account, taking to themselves  
the profits derived from the invest-  
ment. In this case it is necessary for  
the village to pay a stated sum annually  
for the use of water for fire purposes,  
provided, of course, that such protec-  
tion is obtained and there is no  
ability that any company would make  
the investment unless it had assurance  
that the village would use water for  
fire purposes. The Board of Trustees  
is authorized by law to make such a  
contract as they may deem proper with  
a water company.

The Board of Trustees does not deem  
it advisable to grant a franchise and  
enter into a contract with a private  
company without first submitting  
to the people the question whether  
or not they wish to have a system of  
water works constructed and owned by  
the village. The people should have  
the privilege of deciding the matter for  
themselves, and if, upon taking a vote,  
it is found that the majority is opposed  
to the plan, then the matter of granting

a franchise and entering into a contract  
as stated above may properly be con-  
sidered.

We do not make this statement with  
a view of influencing any person either  
for or against the proposition. The  
law in the case is stated as it exists,  
and it is only to acquaint the people  
with the facts that this address is  
submitted. Our only interest in the  
matter is that the welfare of the peo-  
ple may be attained in a way which  
shall prove to be the best for all con-  
cerned.

It has been estimated that a system  
of water works can be constructed in  
this village at an expense of from fif-  
teen to twenty thousand dollars. If  
the proposition submitted in the above  
notice is carried, the Board of Trustees  
pledges itself not to incur an expense  
greater than the last above mentioned  
sum—namely, twenty thousand dollars,  
and from recent investigation we incline  
strongly to the belief that the entire ex-  
pense would be considerably less than  
this sum. If the proposition shall be de-  
feated then the next best course to pur-  
sue is for the Board of Trustees to make  
the best possible terms with a private  
company for supplying water to the vil-  
lage for fire purposes.

JAMES OWEN,  
A. M. BURROWS, Trustees.  
Durand—Atherton.

Mr. A. V. Durand of this place, and  
Miss Nellie Atherton of Moscow, N. Y.,  
were married at the home of the bride's  
father, C. O. Atherton, in the latter  
place, on Thursday, Aug. 25th, 1892, by  
the Rev. Dr. Parsons of Mt. Morris.  
Miss Ella Atherton, younger sister of  
the bride, was maid of honor. Miss  
Jessie Budrow, of Moscow, was bride's  
maid, and Mr. A. B. Burrows of And-  
over, was best man. Messrs. Will Clapp  
and Charles Wheelock of Moscow,  
were ushers. The house was beauti-  
fully decorated for the event. In the room  
where the ceremony took place was an  
arch of evergreens and roses, in front  
of which was an umbrella of the same  
materials, under which the couple stood  
while the ceremony was performed.  
After the words had been spoken which  
united the happy couple as man and  
wife, and the usual words of congratu-  
lation had been uttered, the company  
sat down to an elaborate wedding sup-  
per. In the center of the dining  
room was a small table, under a taste-  
fully decorated chandelier, at which  
was seated the bridal party, while on  
every side were other tables at which  
sat the guests. After the festivities  
were over, the bride and groom took a  
train for Buffalo, intending also to vi-  
sit other places, after which they will  
take up their residence in Andover.

Mr. Durand is a well-known resident  
of this place, and his friends will wish  
him and his newly wedded wife all due  
prosperity. Miss Atherton is no stran-  
ger to Andover people, having filled a  
position as one of the teachers in An-  
dover Union School. She made many  
friends here, and all are rejoiced that  
she will continue to make this place  
her home.
