**Better for Village to Own It.**

The Trustees of the Village have caused several letters to be written to places in this section which have water works, asking the opinion of the President of each Village whether he considers it advisable for the village to own its water system instead of allowing a company to put it in. But one reply has been received as yet which we give below.

**CATTARAUGUS, N. Y., Sept. 6, '02.**

In answer to within questions I will say, first, the water works here are put in by a private company, and I understand it pays well. Second, I consider it for the best interest of the Village to own the plant themselves.

H. J. JEWETT,  
President Village.
