Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmonds Liver Regulator a medical perfection.

I have tested its virtues personally and know that for Dyspepsia, Biliousness, Throbbing Headache, it is the best medicine the world ever saw. Have tried forty other remedies before Simmonds Liver Regulator, and none of them gave more than temporary relief, but the Regulator not only relieved but cured.

BLACKING is cheaper at 20 cents a bottle than any other Dressing at 5 cents.

A LITTLE GOES A LONG WAYS because shoes once blackened with it can be kept clean by washing them with water. People in moderate circumstances find it profitable to buy it at 20c. a bottle, because what they spend for Blacking they save in shoe leather.

It is the cheapest blacking considering its quality, and yet we want to sell it cheaper if it can be done. We will pay

\$10,000 Reward

for a recipe that will enable us to make Wolff's ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. This offer is open until Jan. 1st, 1893.

Licensing Engineers.

The question of licensing engineers is being so agitated in every state in the Union that within a short time, for the protection of human lives, it will be impossible for any one intrusted with steam to hold or secure a situation without passing a rigid examination and obtaining a license. Stephenson's Illustrated Practical Test has been published to aid engineers preparing to take such examination; and as it embraces all the questions asked on the Boiler, Pump, Engine, Dynamo, Corliss Engine &c., it has already met with such a demand that it is now in its fourth edition. This work which only costs one dollar, can be obtained of the publisher, Walter G. Kraft, 70 La Salle Street Chicago.

PULMER VALLEY NEWS.

Recent occurrences of a sensational character have called your correspondent's attention to the fact that we seldom see ourselves as others see us. We are well aware that people are slow to give advice free or unasked and perhaps this is the best course to adopt as a general rule but we think there are cases where a gentle word kindly spoken at the proper time might save very much trouble and some expense. I would be pleased to mention names here and should be tempted to do so if I was not sure that the parties this is intended for will readily understand who is meant. The better portion of society here think matters have been carried to extremes and domestic relations severed perhaps for life, all on account of outside influence brought to bear upon a very delicate subject which it is thought might have been peaceably and quietly adjusted at home. We will venture a suggestion as follows, that all the parties return and after conference together, if an adjustment of all difficulties cannot be reached that they at least effect a financial settlement and dissolve partnership as others have done.

Mr. and Mrs. J. M. Green and Mrs. Wm. Green, of Independence, visited at E. O. Livermore's Monday.

Mrs. Dyer visited in Fulmer Valley last week.

We received a very pleasant though unexpected call from Engineer H. E. Witt and Baggage-men E. M. Conroy of Bradford, Pa., on Sunday. This was one of the few pleasant occurrences which fully illustrates that old friends are not always forgotten. Come again, boys, and perhaps we may be able to entertain you more royally.

Dr. Clark and F. Livermore took a ride to Alfred Saturday.

Harvest is over and it is nearly time to pick apples, which are quite plenty here. Potatoes are up to an average crop.

All parties interested are requested to meet at Fulmer Valley Cemetery on Saturday, Sept. 24th, for the purpose of fencing and otherwise improving the ground.

Water Works Proposition Defeated.

At the election held last Thursday to decide the question whether the village of Andover should construct, own and operate a system of water works in this village, the vote stood 83 against to 51 for. It was known that the vote would be close, and the defeat of the project was not a surprise to anybody. This decision, however, does not mean that a majority of the taxpayers and citizens are opposed to having fire protection. It simply means that a majority does not think it advisable for the village to own the plant. There is a necessity here for water works, and now that the village ownership has been voted down, it is quite possible that an effort will be made to secure private capital sufficient to construct a plant.

To Celebrate Columbus Day.

We understand an effort is being made to have a general celebration in this village of Columbus Day—October 21st. It is hoped the citizens and business men will unite in making the event a grand success.

Last Week's Court Record.

Samuel Boyle, of Friendship, was found guilty of assault in the third degree, and was fined \$50.

Ashley Seaman was tried for trying to commit suicide, was found guilty and sentenced to five months at Buffalo Penitentiary. Seaman's case is the first one on record in this State where any person has been convicted for a suicidal attempt.

Martin O'Reilly, of Cuba, plead guilty of larceny, and was sent to Buffalo for five months.

Young Remus, of Cuba, plead guilty of forgery, and was sent to the Elmira Reformatory.

Mary Edwards (Long John) was charged with keeping a disorderly house but District Attorney Brown did not find sufficient evidence to proceed with the trial, and she was discharged.

A civil case of Finch vs. Fritz, Bolivar, was tried, and the jury brought in a verdict for plaintiff of \$134.79.

The case of Scholes vs. Young was tried and the jury returned a verdict on cause of action.

The first of the Cuba liquor cases was tried, that of McDowell for illegal liquor selling.

Court adjourned Saturday until yesterday, when three criminal cases were called, Kivenburgh, Willow and Purcell, all charged with larceny. This is the gang which was broken up between Cuba and Hinsdale, about a year ago. All have been out on bail.

Insult to the G. A. R.

The following is a dispatch from Washington, and the language uttered in the quotation is an insult to every Grand Army man in the United States, no matter who uttered it:

A speech recently delivered at a Democratic meeting in Montgomery County, Md., by James F. Brown, of Washington, who is a member of the Democratic Central Committee, District of Columbia, has attracted considerable attention and provoked much indignation among members of the G. A. R. and their friends in Washington. According to *The Montgomery Press*, that portion of Mr. Brown's speech to which exception is taken was in substance as follows:

"The Republican party and the Harrison Administration are responsible for every dollar that is paid those who played soldier thirty years ago and who still pride themselves on their work at that time. The Grand Army is a dangerous and corrupt political organization, always ready to defend with bayonet the unconstitutional and dirty work of the party that feeds them. These mercenary warriors, these pauper soldiers, these hangers on and around the leaders of the Harrison party, I understand, are soon to be housed and fed in Washington City. They are to be entertained upon a large sum of money which they and the Republican members of the Senate 'lobbied' through Congress. The parks and public squares are also to be reserved for these defenders of the negro, whose vote is always for sale wherever he resides, and the respectable people are asked to open their homes to them. In the Capital of the Nation these men are to hold high carnival at the expense of you and me and others whose constitutional rights they abridge. It was created by the Republican party for conquest, and, as in the past, is still utilized to further the scheme of that corrupt organization."

Mr. Brown's speech was strongly resented by some Democrats who heard it, and was by others deplored as "impudent."
