

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., Sept. 28, 1892.

POLITICS.

AS SOME SEE IT.

Hill trying to make the Democratic donkey swallow the tariff plank is an entertaining spectacle.

It isn't a theory that confronts you this year either, Mr. Cleveland. It is "statistics and prices current."

The spectacular effect of Hill's indorsement of Cleveland is petty and insignificant in comparison with the Mugwump indorsement of Hill.

It would be interesting to know how many offices Senator Hill has been promised for every speech he makes in favor of the election of a man whom he hates.

The Democratic party must bestir itself or the country will quietly conclude to just make President Harrison's re-election unanimous.

Those Democrats who used to say that this country could not produce steel rails are now busy declaring that it cannot manufacture tin plates.

If the Democrats are not for free trade, why are they so much exercised over Commissioner Peck's statistics showing the good results of Protection?

Under the new Tariff Law and its Reciprocity clauses the American farmers sold \$150,000,000 more of their products abroad last year than they did the previous year.

At the hour of going to press Senator Dave Hill was still in the city.

AS OTHERS SEE IT.

There are growing indications that Cleveland may be elected by acclamation.

Indifference is a terrible thing for the Republican party to encounter, since all the precedents prove that it reduces its vote anywhere from two to half-a-dozen times as much as the Democrats suffer.

The obvious remedy is not in higher Protection, but in breaking down the barriers that exclude American manufacturers from free competition with those of other nations.

Under these conditions, will not the people do well to give the Democracy control of the government for a while, and see if it does not administer it more economically and efficiently than its opponents have done.

Of all the States that have been for thirty years considered by the Republicans and conceded by the Democrats to be safe for the Republican party in presidential years, there remain but five or six in the list.

Twelve "Reasons Why I Am Not a Democrat" are going the rounds of the Republican press. The first reason is, "Because the man who shot Lincoln was a Democrat."

Some people talk loudly about the duty of Prohibitionists seeing "the laws we have enforced." Such nonsense makes us tired.

tion. The influence of that vote cannot be shortened. It will be felt in Washington. It will go down the ages to the judgment seat of God.

Do not vote at the dictate of the political bosses. Think for yourself. Don't walk on your stomach!

A liquor dealer in a Massachusetts town received a postal card reading: "Please attend the funeral of a man you have been ten years killing."

The Prohibition party goes into this campaign with an organization that covers every State and Territory—something that no other party has.
