MARYLAND ROASTER AND BAKER
FOR MEATS, FOWL, FISH, ETC., AND FOR BAKING BREAD, CAKES AND PUDDINGS.
BEST, SIMPLEST AND CHEAPEST

THE STEAM produced by the process of cooking cannot escape, is absorbed by the article in the roaster, and acts as a basting. There is no evaporation, no drying up or burning. Hence no shrinkage or loss of weight, and all the flavor and nutriment of the food are retained. Tough meats are tender, and any article roasted or baked will be sweeter, healthier and more digestible. Put the roaster in the roaster, place the roaster in a well heated oven, the roaster will do the cooking. It requires no attention. Can only be bought from dealers, the trade supplied by:

How's Your Liver?
Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, drowsiness and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy. NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

Republican Rally
Hon. W. L. Riley of New York will speak at Prest's opera house in this village Saturday evening, Oct. 15. Everybody is invited to attend the meeting. We have received the following from Cuba in reference to the meeting:

Cuba, N. Y., Oct. 12.

Editor News: Hon. Wm. L. Riley of New York City, who is to speak at Andover Oct. 15, has held four meetings in the town of Cuba, and we cheerfully recommend him as an orator of brilliant and interesting ability. Few speakers are equal to Mr. Riley and the citizens of Andover should turn out and hear him.

Yours truly,
CUBA REPUBLICAN CLUB.

Cleveland and Reform.
The Hon. Howard Ellis of New Jersey will deliver an address on the issues of the campaign at Prest's opera house in this village, Friday evening, Oct. 14, at 8 o'clock. Everybody is invited to hear him regardless of party affiliations. The ladies are especially invited. Music by the glee club.

LATER—THE DATE CANCELLED.
Just as we go to press we learn that the speaker can not be here Friday evening. So there will be no Democratic speech as above advertised.

A Serious Accident.
Last Saturday afternoon about five o'clock the east-bound way freight was switching cars at the stock yards near depot. At the same time Archie Sheehan, with several others was unloading a hay press from a car at the depot platform. One of the cars that was being switched struck two or three other cars standing on the track, setting them in motion and causing them to strike the car from which the hay press was being unloaded. The press was about half way out of the car, and Mr. Sheehan was in the car behind the press. When the other cars struck the one he was in, the force of the shock drove the press out onto the platform, and Mr. Macaulay was caught between the car and the press, sustaining serious injuries about the head, and receiving other bruises and wounds. Dr. Comstock was called and dressed the wounds. The patient was taken home that evening and has been unconscious part of the time since. One of the railroad company's surgeons was here the first of the week to examine the injured man's wounds. At present he is doing fairly well, but his injuries will doubtless lay him up for some time.

Time on Shipboard.
Eight bells, the highest number of taps, are rung at noon and every fourth hour afterward. An even number of bells announces the hours of the day or night, an odd number the half hours. Thus, one bell after the noon hour means 12:30, two bells mean 1, and so on; seven bells in the morning designate the time for breakfast; eight bells at noon, dinner time; three bells, 5:30, supper time. The time of day is always divided by sailors according to the bells, and not by the hours, the bells being their most familiar means of time-keeping.

How to Keep an Umbrella.
"Do you know how I have kept my umbrellas for years?" said a man to his companion in the elevated train. "Well, I'll show you," and he lifted up a fold of the handsome silk one he held in his hand. Right in the center of the fold was a round hole. "First thing I do," he said, "when I get a new umbrella is to cut a circular hole in it about as big as a cookey, close to the edge. That doesn't hurt the umbrella for service any, but it looks queer and nobody ever wants it. Nobody at home borrows it, nobody ever takes it 'by mistake,' or, if it is taken, the 'mistake' never lasts longer than it takes to open the umbrella."
"It's surer than one's name, even when one puts 'stolen from' before it, because nobody ever really believes that legend, you see, and it passes for a joke. I began putting this mark on my umbrella twelve years ago, and I've carried every umbrella I've bought since until the silk wore out. And not one would have been taken off if I had carried it until the holes wore out."

A Great Success.
The military drama "Foiled, or a Struggle for Life and Liberty," played last evening at Prest's opera house by the Philharmonic Society of this place, was a greater success in every way than had been hoped for, even by those whose hopes had been raised to a high point. The house was packed to overflowing, the gross receipts footing up to nearly \$150. The rendition of the play was first class; Andover's dramatic talent not only sustained its previous reputation, but placed it several points higher than it had stood before. The play is an excellent one, and when rendered in superior manner, as it was last night, produces a very large amount of enjoyment. The members of the Society can congratulate themselves upon having made a decided "hit," and if they should decide to repeat the performance at a later date they will receive the patronage of an appreciative public. The music rendered by Cannon's orchestra was superb, and added not a little to the evening's enjoyment.

Before the curtain rose upon the first act, Rev. J. D. Hiden made a few appropriate remarks upon the occasion celebrated by the production of the play. His patriotic sentiments, expressed in eloquent language, brought forth well merited applause, and the reverend gentleman won the esteem of our people for the tribute paid by him to the country of the stars and stripes. The organ fund will receive nearly one hundred dollars as the net proceeds of the entertainment, and those who paid it have already received more than their money's worth.

Gov. St. John Coming.
Ex-Governor John P. St. John of Kansas will speak at Prest's opera house in this village Thursday Oct. 27, in the afternoon. An evening meeting will also be held at which Gov. St. John and John A. Nichols will speak. This will probably be the largest Prohibition meeting in this section during the campaign.

Mr. Howells has given the title of "The Coast of Bohemia" to his new novel of American girl life which is about to be published in *The Ladies Home Journal*. The novelist says of the story that "it is about the prettiest thing I have ever done."
