B. M. Austin recently went to Missouri to be gone "all winter." He returned to Andover yesterday. We don't suppose he got home-sick, but there must be an early spring out there.

Last Friday morning a severe wind storm swept over this section and considerable damage was done on the hills. A portion of the roof of Henry Horan's barn, on South Hill was taken off, and many fences were blown down.

Diphtheria and scarlet fever are prevalent in Hornellsville. On West Genesee street a house occupied by a family named Page has seven cases in it. In the neighborhood are several other cases. Scarlet fever is to be found in all parts of the city. In one family there are five cases.

The entertainment at Prest's Opera House last evening was a good one, although the crowd was not as large as may have been wished. The stereopticon and phonograph enable one to see a variety of objects and hear a variety of music, speaking, etc., which could not otherwise be enjoyed without much travel and expense.

Hamilton Ward Jr., of Belmont, and Clayton Earley of Scio, were in town Monday. These gentlemen have been recently admitted to the bar, and we understand there is a possibility that Mr. Earley may settle in Andover for the practice of his profession.

Mr. B. C. Brundage has for a week or more been confined to the house by illness. A few days ago his condition was considered critical, but at present writing he has recuperated to some extent, and today is comparatively comfortable.

The News this week prints a department headed "C. L. S. C." The matter is furnished by a committee from the Andover organization of the above name, and we hope to make it a regular feature hereafter. That the column will prove decidedly interesting to our readers we have not the slightest doubt.

The program for the C. L. S. C. next Monday evening is as follows: Music, No. 22; roll call, respond by giving a fable; three facts from the required reading in the *Chautauquan* for November. Lesson, the remainder of the questions on Grecian History and U. S. and Foreign Powers, also 'The World of Today.' Table talk on the wise men of Greece.

Rev. G. W. Gibson advises us that his proposed lecture course will be abandoned, owing to the fact that not enough course tickets can be sold to cover expenses. This is indeed to be regretted, and we believe if our people really took into consideration the benefits and pleasures that might be derived from such a course of lectures, the result of the canvass might be different.

Last Thursday morning train four struck and killed five cows owned by J. W. Richardson. Mr. Richardson's farm is half a mile west of this village but the accident occurred near the Main street crossing. It is supposed the cows wandered away from home in the night and it seems they were all on the track when the cars came along. Their bodies were found scattered along the railroad near the tannery. They were young cows, and Mr. Richardson will probably ask the railroad company to settle by paying a good figure.
