NEAR-BY NEWS.

A Few Outside Happenings in Which Our Readers Will Be Interested.

The Terra Cotta Works of Alfred have resumed work with a full force. The taxpayers of Cuba Village have voted to expend \$1,200 for a stone crusher.

The postoffice at Alfred Station has been changed to Keller by the government, to take effect July 1.

Jameson and Buffalo have established municipal gardens, where the poor are privileged to plant and cultivate potatoes and other vegetables.

Hundreds of thousands of dollars' worth of timber has been destroyed in McKean and other Pennsylvania counties by forest fires within the past week. Many finely equipped saw mills and much other property was also consumed.

The little son of David Dunnigan, of Burns, was severely injured a few days ago, at the Kennedy school house, by falling from an out building and striking across his stomach on a picket fence. One of the pickets protruded into the boy's stomach.

Chas. Yeager, a farmer about seventy years old, was killed Saturday morning while blowing out stumps with dynamite on his farm on Brimmer Brook, about five miles from Wellsville. He was alone at the time and no one knows exactly how the terrible accident happened.

Last week, near Oramel, Sheriff Geo. H. Swift and Deputy Sheriff Hodnett made a neat capture of a horse thief and all-around crook, who was wanted in Michigan, and who was visiting relatives in this county, doubtless under the impression that he was safe from the clutches of the law.

One day last week a little of Frank Wayles, of Allen, Allegany county, was terribly burned. The child had been tied to a high chair and in its endeavors to reach some playthings tipped over the chair onto the stove. Its hands and legs are so badly burned that the child will be a cripple for life.

People in the vicinity of Miller's Landing, about 12 miles south of Canandaigua village, are excited over cases of black diphtheria which are reported as raging at that place. Some two weeks ago, a twelve-year-old girl in the family of John Miller, Jr., died from a disease which a local physician pronounced pneumonia. Later, a three-year-old son died of the same disease. Public funerals were held in both instances. Saturday Mr. Miller himself died. Physicians have pronounced the cases to be black diphtheria, and people who were exposed at the funerals are in a great state of fear.

A terrible accident happened Saturday afternoon at Varney's mill, between Ellisburg and the Irish Settlement, which resulted in the sudden death of a young man. John Cooney, a young man about 32 years old, was digging under his house preparatory to laying a foundation. The house had been propped up, and in some manner the supports were dug away, the house falling over on Cooney and another workman by the name of Fitzsimmons. Cooney's head was crushed and his neck broken; the other man escaped uninjured. Deceased was a married man, and formerly lived in Eldred.—Wellsville Reporter.

Three new boarders arrived at the Belmont jail Friday afternoon. They are George Osborn, E. E. Hewitt and Henry Shreet, of Friendship. For five years past, a series of petty burglaries have been committed in Friendship at short intervals, and in each instance the thieves escaped detection. Stores were robbed and residences raided with impunity. Thursday Osborn was discovered hiding a package in a thicket near Friendship. The men who saw him made an investigation and found that the package contained goods stolen from a Friendship store a few days previous. A search warrant was secured and Osborn's house was raided. A large quantity of stolen goods was found. Deputy Sheriff Dave Norton arrested Osborn and Hewitt, and at the preliminary examination Osborn squealed and implicated Shreet, who was placed under arrest. The prisoners were examined before Justice Scott at Friendship and held to await the action of the grand jury.

Latest New York styles at Mrs. Everett's, Greenwood street, at a low price. 30 dozen (only) pearl button kid gloves, 75c per pair. All shades, quality first class. You may order by mail with perfect confidence, giving size and shade. Rockwell Bros., Wellsville.

P. S. Place of Alfred continues in charge of the undertaking business heretofore conducted by J. A. Robinson, and will also conduct the furniture department, giving prompt attention to upholstering and all matters connected with the business.

W. F. Snyder will hereafter superintend Uriah Davis' phosphate business. All persons applying to him at his residence immediately opposite the barn where it is stored will be supplied.

Dr. O'Donnell wishes to say to his friends and patrons that he intends to leave town for a few weeks for rest and recuperation. The date of his leaving will be not sooner than a week from this notice.

Oil is quoted today at \$1.50 a barrel.

County Literary Society.

A county federation of ladies' literary clubs will be organized at Belmont, June 5th, at 2 o'clock p. m. Each regularly organized ladies' club of one year's standing is invited to send two delegates. Mrs. Hamilton Ward of Belmont is one of the chief promoters of this enterprise, and all clubs are requested to communicate with her at once.

Pick Up the Stones.

It is a well known fact that the law requires pathmasters to remove the loose stones from the roads once in each month during the summer. In some districts the law is complied with, in others it is not. We understand there is a general movement among bicyclists throughout the country to enforce the law in this respect. The aforesaid law was not passed in the interests of the bicyclists, but solely for the benefit of those who travel with horses, but the wheelman say they are entitled to what benefit they can get out of the laws of the State, and that if the farmers and others who ride in four-wheeled vehicles are not awake to their interests sufficiently to see that the law is enforced, those who ride the "silent steed" will help them out. Therefore, let the negligent pathmaster beware.

Taken Violently Insane.

S. S. Latta, a harness-maker from Friendship, who has been in the employ of N. Perkins for several weeks past, was taken suddenly and violently insane last Thursday. Mr. Latta and his wife lived in a part of J. A. Robinson's house on Dyke street, and on the day mentioned Mrs. Latta was obliged to make a hasty call upon the neighbors in order to save herself from violence at her husband's hands. Heretofore Mr. and Mrs. Latta have apparently lived very happily, and in this case, as in many similar ones, the insane delusion seemed to be that the best and closest friend is the worst enemy. Mr. Latta's father and brother came from Friendship and took the unfortunate man to that place. Unless a change for the better is soon manifest, he will doubtless be taken to an asylum for treatment.

Highway Robbery near Almond.

Highway robbers got in their work two miles west of Hornellsville, last Wednesday night. Mr. Knight, of Almond, who buys eggs and takes them to Hornellsville to sell, was the victim. Wednesday afternoon he was in that city, and having disposed of his stock and got his supplies, he started home. It was moonlight and when near Hart's farm, two men suddenly appeared in the road and, with revolvers in hand, ordered him to "Halt!" He did so and was then ordered to climb down from his wagon. He complied with the demand and the robbers, who wore black masks, proceeded to go through his pockets. They got about \$5 in money and a silver watch. The robbers, however, overlooked \$21 in bills that he had in another pocket. Another team that could be seen coming down the road scared the robbers and they let Knight go. The new-comer was Joe Gibbons, to whom Knight related his adventure. The crime is a repetition of that for which the so-called Martin gang was blamed a couple of years ago, the locality being nearly the same.

Dr. O'Donnell wishes to say to his friends and patrons that he intends to leave town for a few weeks for rest and recuperation. The date of his leaving will be not sooner than a week from this notice.

A golden opportunity, if you do not call and look over Slocum & Parker's stock of Millinery good before purchasing elsewhere. Everything new, and goods received weekly. Finest stock ever in Andover. Remember the place, first door south of J. A. Hunt's store.

ANOTHER GOOD WELL.

The Mutual Gas Company Scores Another Hit on Wm. Hunt's Farm.

The Mutual Gas Company finished their well on Wm. Hunt's farm last evening, and the well is pronounced second to none, in oil production, in this field. The sand found in this well is said to be the best yet discovered in this field. This well will be shot this afternoon.

The same company is drilling a well on Ellery Updyke's farm, which is down three or four hundred feet.

Another Fire.

Monday morning at about one o'clock the residence of Leroy C. Davis, on Elm street, was discovered on fire. The discovery was made by Mrs. Davis, who noticed a strong smell of smoke in the house, and upon investigation found the fire had attained considerable headway, the upper portion of the house being partially enveloped in flames, and the fire making rapid progress upon the roof and clapboards, and also between the roof and upper ceiling. She aroused her husband, who gave the alarm, and in a short time the hose company had a stream of water on the flames, effectually quenching them in short order.

The origin of the fire is a mystery, as the place where it apparently originated was a considerable distance from any stovepipe or chimney, and there was nothing, so far as is known, to cause the fire. The house and contents were considerably damaged by fire and water, but the loss is fully covered by insurance. The work of the hosemen is warmly commended, as they not only responded very quickly to the alarm, but did quick and effective work after arriving at the scene. Mr. Davis' barn, the Catholic church and sheds, and the school building would have been within easy reach of the flames had it not been for the excellent protection afforded by the water works.

Silver Lake School of Physical Training.

The Silver Lake Herald, in publishing a program for the coming season at that popular Assembly, devotes considerable space to the School of Physical Training, of which Prof. B. B. Brown of this place and Grant W. Brush of Buffalo are directors. From this paper we learn that the Faculty of the School of Physical Training will consist of five instructors, of whom Prof. Brown will be Principal. Dr. F. E. Comstock of this place is also a member of the Faculty. He will have charge of the Department of Physical Diagnosis, and will also deliver lectures on anatomy and physiology.

The equipments of this school will consist of a commodious gymnasium, equipped with everything necessary in the way of apparatus for light and heavy gymnastics; an athletic field of eleven acres, on which has been constructed a quarter-mile cinder cycling track, base ball field, tennis courts, etc.; and Silver Lake for boating and bathing.

The course will include light and heavy gymnastics, Swedish gymnastics, artistic gymnastics, anatomy and physiology, anthropometry, physical diagnosis, athletics, base ball, cycling, boating, bathing, lawn tennis, boxing, club swinging, etc.

At the close of the term students will receive certificates signed by the Faculty indicating the kind and quality of work done. This School of Physical Training is a new feature at Silver Lake, and that it will at once command great popularity there can be no doubt.

During the season there will be four cycle meets and races, held under sanction of L. A. W. racing board and L. A. W. rules. Maltby, the great bicyclist, will be present field day, August 8th.

Look Here!

It is stated that certain sill cocks or faucets connected to the water line have been tampered with by boys or other parties who have no right to touch the same. All parties are hereby warned against a repetition of such offense, under penalty of the law.

BY ORDER WATER COM'RS.

Warren Peterson still holds forth in the barber shop in the Bundy brick store, up stairs. His shop is clean and neat, and every one wanting a neat shave or hair-cut will receive perfect satisfaction by calling on him.

Any person wishing to use Milton fertilizer can procure the same of us. We will be in Andover village every Wednesday and Saturday afternoons. Three to five dollars saved on every ton you buy.

UNDERWEAR AT COST

THIS WEEK.
