WEDNESDAY, OCT. 9, 1895,

It is proposed to raise a monu in Richmond or at Mount Yernon Miss Ann Pamela Cunningham, the lady whose letters caused the women of the country to purchase Mount Vernon and thus preserve the home of Washington.

The serial rights of Mrs. Ward's new novel in England and America have been sold to the Century Magazine for \$20,000, exclusive of the book rights. In both countries literature is a paying profession for masters of it, declares the New York Tribune.

The United States War Department has ordered the water supply to be shut off the mills on the Fox river, Wisconsin, on the ground that all the water is needed for navigation. A Chicago paper thinks that one mill more importance than ten boats.

The record of woman's progress on her way to equality with man is enlarging daily. Three women bandits have been arrested in the West, and a woman horse thief has cropped up in Massachusetts-Springfield. We must not be surprised if we hear at no far distant date of the woman train robber. She is about due.

An instance of the depressed condition of English agriculture occurred at the sale of Langdon Abbey recently, when 639 acres of land, with farmhouse, stabling, homestead, and seven modern cottages, brough only \$28,500. Fifteen years ago the property was valued at \$100,000, and four years ago it was actually mortgaged for \$70,000.

As an evidence of what a ferry franchise is worth on the river between New York City and the New Jersey shore, it may be noted that a new line having been authorized between Twenty-third street, New York city, and Grand street, Jersey City, the Sinking Fund Commission have decided to exact a minimum rental of \$22,500 per annum and five per cent of the gross receipts on the New York side. new ferry is to b; operated after January 1, 1896.

A Mexican boy living at Pachuca, Mexico, thought he would have some fun by putting stones on the railroad tracks, relates the New Orleans Pica-A train came along and was derailed and wrecked. Train wrecking is a capital crime in Mexico. So the boy was arrested, convicted and hanged. In this country he would have been sent to a reform school and other boys, undeterred by his fate, would have continued to amuse themselves by endangering the lives of train men. But in Mexico the administration of justice is mercifully severe.

An Ohio man was riding through Oklahoma the other day, when a party of Indians got aboard the train. had heard of the noble red man's fondness for fire-water, and concluded to test it, so he pulled out a bottle of whiskey and invited them to take a drink. They were nothing both, and ontinued to take drinks by turns until the bottle was empty, and they all rather full. The Ohioan was very much amused at the spectacle, as well as the other passengers, until -- its amusement was brought to a sudden conclusion by a United States marshal who happened to be on the train, and who walked up and arrested the Ohioan for violating the law against dispensing liquor to Indians. Nor did he find the heavy fine, which was imposed on him, amusing.

While Watching Ithe Ceremonics a Platform, on Which Were 1,000 People, Gave Way, Precipitating 800 Into the Excavation-Trampled Each Other to seath.

Loraine, O., Oct. 7.—A rightful accident attended the laying of the corner stone for the new St. Mary's Catholic church in this city yesterday. Fully 5,000 people were gathered around the foundation for the new structure and the priests were about to begin the service when a platform constructed of boards and running entirely across the area, on which were about 1,000 people, gave way, precipitating 300 of them into the excavation. A panie ensued which resulted in increasing the fatalities. Nine people were killed, eleven fatally and thirteen seriously injured and many more stightly hurt. more slightly hurt.
