

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., October 9, 1895.

Public opinion on the Cuban question has not changed; it has merely begun to make itself heard.

Notwithstanding newspaper gossip to the contrary, Gen. Nelson A. Miles is commander of the U. S. army.

It is certain that ex-President Harrison has no idea of reentering public life as a member of either Reed or McKinley's cabinet.

Even medicine will do it. A lady wrote to a patent medicine firm that two bottles of their compound "made a new woman of her."

A little less investigation and a little more prosecution of the trusts, by the administration, would be well received by the country.

Now that an ex-captain of a college foot ball team has gone to China as a missionary perhaps some people will think better of the game.

The courts interfered to prevent a New York creditor levying upon a monument erected over the graves of the debtor's wife and daughter.

Tammany doesn't care a snap about the state, if it can only make some sort of a deal to regain control of New York city and its millions.

If the rope that will hang Durant, the California murderer, isn't stronger than the defense put up by the accused, it is to be feared that the gallows will be cheated.

When the wife of a Turkoman asks for permission to take a walk, her liege lord must add "Come back again," otherwise the couple are divorced. Even the Oklahoma divorce law could be simplified, it seems.

Mexicans do not understand our objection to giving a president three terms. Their president now serving his fourth term, is asking for a fifth, and he'll probably get it, too. But Mexico is a republic in name only.

South Carolina has never had a divorce law, and the constitutional convention of that state has adopted a section forbidding the granting of divorces for any case and not recognizing divorces granted in other states.

An exchange asks: "Which side is President Cleveland on, anyway? Does anyone really know?" While not prepared to answer the question, we understand there are people much interested in seeing him on the outside as soon as possible.

The United States has upwards of three million square miles of territory, and no place to hold a prize fight. This speaks well for the morality of the people, but it should be remembered that there are a few other little matters to be attended to before we shall be ready to announce that Satan has quit business.

Several scores of white men willing to marry a Chinese girl for \$5,000 cash down and an interest in a \$100,000 business turned up in answer to the advertisement recently printed in a San Francisco newspaper that Hip Sing Lee of San Jose wanted to find such a man for his daughter. The story of the advertisement was telegraphed all over the country, and being the next morning San Jose's hometown was besieged by border messengers with bids and specifications for the offer. But it was a hoax. It has been ascertained that there is no such person in San Jose as Hip Sing Lee, and no such snap offering. The story ought to have carried evidence of its fictitious character on its face, for it didn't state that Hip wanted a title for his daughter and all such.

Dr. Mary Walker comes to the surface once more as the promoter of a scheme for an exclusive female colony, near Oswego, where celibacy shall be practiced, where an ideal farm life is planned and where the bloomer costume for life shall be the only test of eligibility for membership. She promises to make public the name of this colony on January 1, but why not change the date to April 1 as more appropriate?

The confidence of the Jingo's in the ability of Uncle Sam to whip all creation appears from their demands upon the Government. First, we should help Cuba break the Spanish yoke; second, we should wallop China because a Chinese mob attacked American missionaries; third we should whip England if she does not retreat from her attitude toward Venezuela; fourth, we should knock out France if she does not instantly release Waller; fifth we should lick Turkey if she does not grant relief to Armenia; sixth, we should put up our knuckles to Germany if Sterne is not released and compensated for his annoyance. The Jingo's are not subscribers to the maxim, one thing at a time. They want all this done at once. It is a considerable program, but perhaps we should wait until we can flush quarrels with Russia, Japan, Switzerland and Andorra, and make a general clean-up of the earth with our new navy and our thirty thousand soldiers. — *Elmira Gazette.*

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Irving W. Laremore, physical director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one-half the time usually required. For sale by L. A. Burrows.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good. Price 50c. Sold by O. E. Vars."
