

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., October 30, 1895.

Senator Sherman's book furnishes good proof that he has really abandoned his long cherished Presidential aspirations.

Wonder how many foreign governments get frightened at the statement, which follows every warship we launch, that it is the best afloat.

Venezuela has been ordering guns, but it isn't upon her own guns, but upon those of Uncle Sam that she relies for protection against British greed.

Tammany would probably gladly add a bonus ten times the amount of his salary if some church on the Pacific Coast could persuade Dr. Parkhurst to leave New York.

The six-day walking match is not dead yet as a sporting attraction in the West. Minneapolis is to have one next month, conducted according to "Madison Square Garden rules."

It may have been lack of hotel accommodations which caused the Vice President to leave Atlanta the day before the President got there, and it may have been for other reasons.

"What fools these mortals be." A great New York daily notes that the Duke of Marlborough attended church and adds: "No notice of his presence was taken." Was it expected that the congregation would bow down and worship him?

It has just been demonstrated that a prize fight cannot take place on American soil, but the great game of football goes merrily on. On reading accounts of some of the games it strikes us that there is a difference without a distinction between the two "amusements."

There are still folks who think they know the location of the big treasure Capt. Kidd is alleged to have buried on the Maine coast. Only a week ago a searching party was at work with much secrecy and hopefulness, in the vicinity of Ellsworth. They have gone away now, and the treasure is yet unbound.

James J. VanAllen is the man who was named by President Cleveland, in 1893, as American Ambassador to Italy. Mr. VanAllen did not accept the position, although strongly urged to do so by the President. He probably wishes now that he had decided differently, as he has just been arrested for alienating the affections of the wife of Col. Samuel P. Colt of Providence, R. I. All parties are prominent in society circles in New York, Newport and Providence.

The Commissioner of Labor has published a report dealing exhaustively with the subject of labor disturbances in the United States. One official table shows the comparative losses of employes and employers from "strikes" and "lockouts." The strikers who got what they struck for comprised 32 per cent of the whole, 12.46 per cent. were partially successful, and 55.5 per cent. entirely failed. The loss to employers in the strikes of the past thirteen years, he estimates at \$12,235,451, and the loss to strikers at \$92,590,386.

We are in receipt of Bulletin No. 92, of the New York Agricultural Experiment Station at Geneva, on "Analyses of Fertilizers Collected During the Spring of 1895." The bulletin gives a brief outline of the work previously done in this line and then presents some useful facts in regard to the composition of fertilizers, explaining the technical terms used in stating the analysis of a fertilizer. Then follow tables giving in detail the analysis of 282 commercial fertilizers. Farmers who do not receive the bulletines from this station or the one at Ithaca, may have them free by sending a postal card request.

Five per cent. off on all sales over one dollar at Mrs. Martindale's.

There seems to be an intention among Republicans in many parts of this county to give complimentary votes to the Democratic candidate for County Judge. While in ordinary campaigns this course might result in no harm to the Republican candidate, it should be remembered that Mr. Reynolds already has the People's Party vote behind him, and although he would doubtless make a competent Judge, it must be acknowledged that Judge Norton has made an admirable record in the office. There is no reason which appears to us sufficient to warrant Republicans in endangering the latter's chances this fall, and Republicans who desire the election of a clean, able man of their own political faith will vote for Judge Norton.

A political situation that is probably unique developed in the little town of Acree, near Albany, Ky., last week. It was the annual election of municipal officers, and there were forty-two voters on the list. When the balloting took place it was found that only one of the forty-two voters was properly registered. That one was the candidate for Mayor. He cast the only ballot at the election and duly elected himself and a Board of Aldermen.

Acts at once never fails, One Minute Cough Cure. A remedy for asthma, and that feverish condition which accompanies a severe cold. The only harmless remedy that produces immediate results. Benedict & VanNoy.

John Moore, the son of the old Duke of Leister, and who was banished to this country from Ireland by his father, is lying in his cabin, near Jacksonboro, Ohio, in a dying condition. Many years ago Sir John, an exile, came to this country and settled in Ohio. During his whole life there has been an air of mystery about the man, and he has always lived quietly by himself. He is now an old man. The only suspicious point in connection with his claim to being the son of a Duke is that he did not, years ago, marry an American heiress and tell his father, the Duke, to go to grass.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good. Price 50c. Sold by O. E. Vars."

Mrs. T. S. Hawkins, Chattanooga, Tenn., says: "Shiloh's Vitalizer saved my life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels. Price 75c. Sold by O. E. Vars.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine, better results; better try in. Benedict & VanNoy.

THE BOSS

Washing Machine

IS UNEQUALLED.

A FEW POINTERS ABOUT IT:

1. It washes cloths perfectly clean.
2. It works smooth and easy.
3. It can not tear the clothes. It adjusts itself to the size of the wash, so you can wash one shirt as well as ten.
4. No dirt can accumulate in this machine as in others.

These machines are so arranged that they can be run either by hand or power. Don't confuse this with the washing machines you have seen. This is entirely new, and is placed on the market at a price within the reach of everyone.
