Monday night about midnight the Erie water tank was discovered to be on fire. A couple of locomotive whistles gave the alarm and the hose company turned out and extinguished the fire. A few days ago the Mutual Gas Company finished a good gas well on Benj. Updyke's farm. The company has for a week or more past had a force of about twenty men at work laying new lines, east of the point where they last year laid the six inch line. The new lines, which are each 3 inches in size, will connect with the six inch line, thus insuring a good supply of gas for the coming winter. The company is also drilling another well on Ellery Updyke's farm.

The new method of voting is very simple. If you want to vote a straight ticket make an X in the circle at the head of the column containing your party ticket. If you want to vote for a candidate on some other ticket, make an X in the circle over your party ticket and also make an X in the little square space before the name of the man you want to vote for whose name is not on your ticket. But don't draw a line through any name; if you do your ballot will not be counted.

She leaves four sons: Dennis an Erie trackman; Thomas, track foreman at Wellsville; Timothy and William, respectively foreman and track laborer at Tip Top; and five daughters.
