

ROCKWELL BROTHERS.

Our Cloak man made some very extensive purchases in New York last week, among them was a lot of Ladies' and Misses' Jackets, both rough and smooth goods—to sell at \$10.00 each, which for value, are far ahead of anything we have had.

Altogether there are 23 different styles. They are a manufacturer's samples and no more can be had.

If interested, we warn you to be on hand early.

The spook that flags trains on the Erie between Belmont and Belvidere is undoubtedly the same one that haunted the Stearns house near Belvidere some years ago. If it will terrify the army of tramps that ride on Erie freight trains, we favor giving the spook a salary.—Friendship Register.

There is nothing but praise for the blanket ballot. It is a great improvement over the style of ballots in use for the past few years, and voters have little or no trouble voting as they wish. In Niagara county the Myers voting machine caused considerable trouble, in one case registering 20 more votes than were cast. It is thought the use of this machine will result in a contest in one Assembly district.

The essential benefit of guide-posts on country highways is of course more to the tourist than the residents of the neighborhood where the posts might be erected. But that is a narrow view to take of the matter. It is a benefit to have strangers come and go, and anything that makes a region attractive or convenient to outsiders is certain to benefit it. Well traveled roads increase the value of property and anything that increases travel is an advantage. The broader view is regarded for one's fellowmen. A small expenditure for guide boards may save many a wayfarer inconvenience and loss of time. A law now on the statute books gives commissioners of highways full authority to erect signs at road intersections. If they do not do it any five taxpayers of a town or twenty of a county can by petition compel them to do so. This law does not appear to have been applied in many instances but it is ready for any who are disposed to use it.
