

THE ANDOVER NEWS
ONE DOLLAR A YEAR.

HAMILTON C. NOBBS, EDITOR
ANDOVER, N. Y., December 4, 1895.

This life is a constant scene of surprises. Two negro murderers were recently hanged by legal process in Georgia.

The tables have been turned, and it is announced that the 54th Congress, which convened on Monday, has Mr. Cleveland "on its hands."

It will soon be in order for the President of the United States to set apart the last Thursday of November as a day of foot ball and thanksgiving.

A man in Lincoln, Neb., threw a club at a horse. The missile went wide of the mark and struck the man's little daughter, killing her. That's worse than ever a woman would do.

Whitelaw Reid believes that even the old ticket—Harrison and Reid—could be elected by the Republicans next year. But it's dollars to blank paper that it won't be nominated.

The "pauper labor" of Europe is munificently paid in comparison with the labor in the employ of the Japanese manufacturers, whose agents are now soliciting trade in the United States.

Yes, it is a queer world. The same issue of a paper tells of a man who committed suicide because he couldn't find work to do and of another who did the same thing in preference to working.

A Chicago newspaper is publishing a series of articles entitled, "What a man sees who goes away from home." We have an idea that there are things some men see when they are away from home which are never described in print.

Postmaster General Wilson likes the civil service rules so well that he wishes them extended to cover higher officials. He didn't say so, but perhaps he would be willing to see the Presidency and the Cabinet pass under those rules.

According to Secretary Morton, the people should continue to re-elect a president as long as he gives satisfaction. The acceptance of that theory would be a long step towards monarchy, but we do not see that it would help President Cleveland.

A Jersey City clergyman recently struck for an increase of salary from \$700 to \$1,000, and on the failure of his parishioners to grant the modest request resigned and opened a beer saloon. There is good reason for believing that he was a preacher for revenue only.

Kansas is escaping capital punishment in a peculiar way. Under its law, which has been on the statute books since it was a state, a man condemned to death must serve one year in the penitentiary before the execution, and then the governor must make out a death warrant. No governor has been willing to do this, and in consequence there are now forty-six murderers, condemned to death, confined in the state penitentiary.

A close friend of President Cleveland is reported as having said that Mr. Cleveland will not be a candidate for another term because he feels that he has already done enough for his country. Judging by the comments in many leading newspapers, the President hasn't a monopoly of that sort of sentiment.

If suffering with piles, it will interest you to know that DeWitt's Witch Hazel Salve will cure them. This medicine is a specific for all complaints of its character, and if instructions, which are simple, are carried out, a cure will result. We have tested this in numerous cases, and always with like results. It never fails. Benedict & VanNoy.
